HOME DEPARTMENT.

JAILS.

The 5th January 1916.

No. 1 *Jails* 1.—*Notification.*—The Lieutenant-Governor has heard with deep regret of the death, on the 30th December 1915, of Lieutenant-Colonel George Frederick William Braide, M.B., Ch. B., M.R.C.S., Indian Medical Service, Inspector-General of Prisons.

Colonel Braide had served in the Jail Department in the Punjab for 25 years. Had he lived a few months longer, he would have completed ten years in the important office which he held at the time of his death, and every year since he assumed charge, the review of the annual report on Jail administration has borne testimony to the high estimation in which his services have been held by the Provincial Government.

His unsparing labours have resulted in many improvements in the methods of dealing with prisoners in the Punjab. His persistent advocacy of the claims of the juvenile convict to special treatment was largely instrumental in securing for the Punjab the distinction of being the first Province in India to possess a Borstal institution, and it was while supervising the arrangements for the opening of the special jail for tubercular prisoners at Shahpur that he was attacked by the disease to which he ultimately succumbed.

The keynote of his policy was a large-hearted compassion for the mass of erring humanity committed to his charge. He regarded discipline mainly as an instrument of reform, and he maintained it rather by holding out hopes of remission and reward than by reliance on the fear of punishment.

He has left his mark on all branches of Jail administration, and His Honour trusts that the high ideals which possessed him will long continue to inspire the department which he directed for so many years with such conspicuous success.

By order of His Honour the Lieutenant-Governor of the Punjab,

J. P. THOMPSON,

Revenue Secretary to Government, Punjab.

The 5th January 1916.

The 2nd February 1916.

No. 46.—*Notification.*—With reference to notification No. 659-A dated the 22nd December 1914, and in accordance with the provisions of section 3 (2) of the Punjab Forest (Sale of Timber) Act, 1913 (III of 1913), the following draft of rules, which it is proposed to make under the said Act, is published for information.

The draft will be taken into consideration after the 29th February 1916.

Any objection or suggestion received by this Government before the 29th February 1916 will be considered.

Notification No. 364, dated 24th July 1915, is hereby cancelled.

RULES.

I. In these rules—

(*i*) "Timber" means only the following kinds of timber :—
Deodar (*cedrus deodara*), Vern. *Deodar, Diar.*
Blue Pine (*pinus excelsa*), Vern. *Kail, Andar, Anandar, Biar.*
Chir Pine (*pinus longifolia*), Vern. *Chil.*
Spruce (*picea morinda*), Vern. *Tos, Partal.*
Silver Fir (*abies pindrow*), Vern. *Rai, Partal.*

(*ii*) "Sale Depôt" means any building or place where timber is brought or stored for sale.

II. Any person wishing to establish or maintain a sale depôt may be required by the Divisional Forest Officer to register the same in the office of the Forest Division in which the sale depôt is situated, and shall give in respect of such sale depôt, such details as may be required by the Conservator of Forests, Punjab.

III. Every person having a registered sale depôt shall register for such a sale depôt hammer-mark in the office of the Forest Division in which the sale depôt is situated. No fee shall be paid for the registration of such hammer-mark.

IV. No person shall be allowed to register a mark already registered in favour of another person, nor any mark used by Government; and the officer in charge of a Forest Division may refuse or cancel the registration of any mark which in his judgment too closely resembles any mark used by Government or any mark registered in favour of any other person.

V. The registration of a mark under rule III shall hold good for a period of one year from the date of such registration.

VI. No person shall remove or allow to be removed from any registered sale depôt any timber until it has been marked with the registered mark of the depôt.

VII. Whoever infringes Rules II, III or VI of these rules shall be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both. Double penalties may be inflicted where the offence is committed after sunset and before sunrise, or after preparation for resistance to lawful authority, or if the offender has been previously convicted of any offence under these rules.

The 5th February 1916.

No. 144.—*Notification.*—The following draft amendments which, in exercise of the powers conferred by section 11 of the Indian Motor Vehicles Act, 1914 (VIII of 1914), the Lieutenant-Governor proposes to make in the rules published with Punjab Government notification No 552, dated the 1st April 1915, are published for general information. Any suggestions or criticisms with regard to the proposed amendments received on or before the 20th March 1916 will be duly considered :—

Draft amendments.

(1) *After* the word " Lahore " in rule 20 of the said rules *add* the words " or the Cantonment of Ráwalpindi. "

(2) *Add* as rule 21 A the following rule :—

" No cut outs shall be used on any Motor Vehicle within the limits of the Cantonment of Ráwalpindi. "

The 7th February 1916.

No. 151.—*Notification.*—In exercise of the powers conferred by section 37 of the Indian Factories Act, XII of 1911, the Lieutenant-Governor is pleased to make the following additions and amendments to the rules published with Punjab Government notification No. 896, dated the 3rd December 1912, for the better control of factories situated in the Punjab. Punjab Government notification No. 52 O. S. (C. & I.), dated the 12th June 1913, is hereby cancelled.

The following new rules shall be added :—

16 (3). Except in factories provided with septic tank latrines, all latrines shall be provided with receptacles on the dry earth system, and satisfactory arrangements must be made for the regular removal and disposal of excreta. The receptacles must be tarred inside and out at least once a year.

16 (4). All drains carrying waste or sullage water shall be constructed in masonry or other impermeable material, and shall be regularly flushed and, where possible, connected with some recognized drainage line.

23. The second motion line shaft in cotton-ginning factories shall be completely enclosed by a continuous wall or unclimbable fencing with only so many openings as are necessary for access to the shaft for removing cotton seed, cleaning and oiling, and such openings shall be provided with gates or doors which shall be kept closed and locked.

For the existing rule 27 the following shall be substituted :—

27. In every factory a muster roll or an attendance register shall be kept up either in English or Urdu, in which shall be recorded each day the names of all persons '*employed*' within the precincts of the factory. In the case of every woman or child it shall show for each working day the time of beginning and ending of each period of employment and opposite the name of each child shall be recorded the number of his certificate of age and fitness. The register must be entered up at the commencement of each working period and shall always be kept available during working hours for immediate inspection.

For the existing rule 33 the following shall be substituted :—

33. Copies of the abstract of the Act and rules can be obtained in the English, Urdu, Hindi and Panjabi languages from the Inspector at the price of one anna each. Copies of the rules in English and Vernacular can be obtained from him at 2 annas each, and of the Act in English and Urdu at 7 annas 6 pies and 1 anna 6 pies each, respectively.

COMMERCE AND INDUSTRY DEPARTMENT.

The 19th February 1916.

No. 214.—*Notification.*—The following draft rules, which the Lieutenant-Governor proposes to make in exercise of the powers conferred by section 3 of the Punjab Fisheries Act, II of 1914, for the regulation of fishing otherwise than by means of *chh ps* in the waters of Kángra and Hoshiárpur Districts specified in rule (1), are published for information. The draft rules will be taken into consideration six weeks after the date of this notification, and any objection or cirticism received before then will be considered :—

(1) No person shall fish in the waters of the Beás river and its tibutaries on either bank from the confluence of the Bhinnun Khad to Mirthal Ferry, including the Shah Nahr and Lamba Pani, except under license to be granted by the Deputy Commissioners of Kángra and Hoshiárpur in their respective districts.

(2) There shall be two classes of licenses,—first class and second class.

(3) A first class license shall entitle the holder to fish the main stream of the river Beás or any branch of the main stream at any point below the Nadaun Ferry to the Mirthal Ferry, and also to fish the water specified in rule (4).

(4) A second class license shall entitle the holder to fish (*i*) in the main stream or any branch of the main stream from the confluence of the Bhinnun Khad to the Nadaun Ferry, or (*ii*) in any (lateral) tributary of the river on either bank, which flows into the Beás at such part of its course as is specified in the preamble to these rules, including such portions of the Bhinnun Khad as are in British territory.

Proviso.—Provided that nothing in these rules shall entitle a license holder to fish in any reach of such tributary as may be for the time being closed to fishing under section 6, Act IV of 1897.

(5) The fee for a first class license shall be two rupees per annum.

(6) The fee for a second class license shall be one rupee per annum.

Proviso as to Apprentice Licenses.—Provided that any boy below the age of sixteen may on the recommendation of a Fishing Headman (*Chaudhri*) be granted a license of either the first or second class free of a charge for a period of one year to enable him to learn his trade.

Proviso as to the rights of the Kangra Rajas.—Provided also that such *Jhiwars* as are by ancient custom employed by the Rajas to supply fish (*bara*) for their households in Lambagraon, Nadaun, Guler, Dáda Siba and Núrpur may be given a license of either class free of charge. The Rajas should intimate the names of such dependents to the Deputy Commissioner, and licenses will be issued on receipt of such intimation.

(7) It shall be a condition of every license granted under these rules that the licensee is permitted to fish with the following kinds of gear only.—

(*a*) ***Rod and line.***

(*b*) ***Grains or spear*** (*Bhalla*) ***or*** (*Tiri*).

(*c*) ***Longline*** (***Lang***).

(*d*) ***Casting net*** (***Sotwan***), (*Pahlu*), *Dobajju*) with a minimum mesh of $1\frac{1}{4}$ inch.

(*e*) ***Drag net.*** (*Pand*), (*Patti*), (*Nilotu*).

(*f*) ***Stake net and scare net*** (*Panj*), (*Kurga*), (*Kad*), (*Banda*), (*Bhiga*), (*Bhiri*) (*Chatta*).

(*g*) Horse hair noose (*Kalerni*).

And that the licensee shall be bound to report to the Deputy Commissioner, Tahsildar or an officer of the Fisheries Department any breach of these rules that comes to his notice.

(8) Licenses shall remain in force from January 1st of one year to December 31st of of the following year. Full fees must be paid for any broken period.

(9) License fees shall be credited to Government as land revenue "Rent of Fisheries."

(10) Applications for licenses need not be written by petition-writers. They may be made at any time to the Deputy Commissioner by post-card or in person. Every application for a new license must state the class of license required.

(11) Licenses shall be in the Form F. I annexed to these rules.

(12) All apparatus erected or used for fishing in contravention of these rules may be seized and taken to the nearest police station by any person empowered under section 6 of Act II of 1914 to arrest without warrant for offences under the Act, and all such apparatus and all fish taken by means of any such apparatus may be forfeited on conviction of the offender under section 5 of the Act.

(13) The Deputy Commissioner may cancel the license of any person convicted of a breach of these rules under section 5 of Act II of 1914 or under any section of Act IV of 1897, and note the conviction in his register. He may decline to issue a license in subsequent years to any person thus convicted.

(14) Nothing in these rules shall affect fishing by means of *chhips* by persons authorised to erect *chhips* in accordance with the rules published in notification No. , dated

No. 205.—*Notification.*—The following draft rules, which the Lieutenant-Governor proposes to make in exercise of the powers conferred by section 3 of the Punjab Fisheries Act, II of 1914, with regard to fishing by means of *chhips* in the waters of the Kángra District specified in rule (1), are published for information. The draft rules, will be taken into consideration six weeks after the date of this notification and any objection or criticism received before then will be considered :—

1. All fishing by means of *chhips* is prohibited in the waters of the Beás river and its tributaries, save under license to be granted by the Deputy Commissioner, Kángra.

2. No license to erect a *chhip* shall be granted to any person unless the *khewat* made during the settlement of 1891-92 contains an entry showing that its erection was (at that date) recognised by Government.

Provided that no one shall be entitled to erect a *chhip* in any reach of waters which may be for the time being closed to fishing under section 6, Act IV of 1897.

3. The Deputy Commissioner shall maintain a register of *chhips* thus entered in such Form as the Financial Commissioner shall prescribe in order to prevent breaches of rule 2.

4. An application for license to erect a *chhip* must be presented either in person or by post to the Deputy Commissioner, Kangra, not later than July 1st, each year.

5. The application must be signed by the lambardar of the village within the limits of which the *chhip* is to be erected, and by the persons who propose to share as partners in the profits of the *chhip*.

6. The application must state—

(*i*) The name of the stream affected.

(*ii*) The *khewat* number in which it is proposed to erect the *chhip*.

(*iii*) The names of the owners of the land.

7. The license fee shall be Rs. 6 per *chhip*, and shall be paid by the partners to the lambardar when he signs the petition. Such signature shall be held to be the proof that the fees have been paid. If the application is rejected, it will be returned by ordinary post to the lambardar who will return the fees to the applicants and take their receipts.

8. If it appears that the *chhip* is entered in the register of *chhips*, a license to erect it should, in the absence of any reason to the contrary, forthwith be issued in form F. 2 annexed, and should be despatched by V. P. P. to the lambardar for the amount of the fees chargeable less 25 per cent. lambardar's commission. The V. P. commission and postage will be paid by Government.

9. The lambardar shall be responsible for the due performance of the provisions of rule (11).

10. The license shall be kept at the water side in charge of the person for the time being fishing the *chhip*.

11. The interstices (*dari*) between the lathes (*siru*) of the platform (*chhip*) shall at no portion of the platform from the weir (*lang* or *ban*) to the lower edge of the platform (*chhip*) measure less than 1½ inch. The platform must consist of straight bamboos properly laid at right angles to the axis of the platform. Every lambardar referred to in rule (5) and every person recognised by the Deputy Commissioner as a Fishing Headman shall be provided with a brass gauge measuring 1½ inch square. And a *chhip* shall be held to be illicitly constructed if this gauge will not pass through the interstices at any point of the platform.

12. The Deputy Commissioner may cancel a license the holder of which has been convicted under section 5 of Act II of 1914 of a breach of these rules or of any offence under Act IV of 1897. He may also decline to issue a license to any such person in subsequent years.

13. The Deputy Commissioner may order the removal of any *chhip* erected without a license.

1. Artificial fly,
2. Natural fly,
3. Artificial spinning bait including spoons,
4. Natural spinning bait,
5. Artificial worm,
6. Natural worm :

Provided that no fly shall be tied or bait mounted on any treble hook, double hook or barbed hook. The only hooks to be used shall be the "Lacey Williams" or other barbless patterns to be approved by the Fisheries Department, and anglers shall be required to use disgorgers :

Provided further that flies and spinning baits must be mounted each with one single hook. Worms may be mounted on two single hooks,—one at the head, the other at the tail.

(5) *Close season.*—No fish of any species shall be killed between the first day of November and the first day of March, both dates inclusive :

Provided that nothing in these rules shall prevent the catching of any species at any time of year by employees of the Fisheries Department acting under the authority of the Head of the Department for scientific purposes.

(6) All apparatus erected or used for fishing in contravention of these rules may be seized and taken to the nearest police station by any person empowered under section 6 of Act II of 1914 to arrest without warrant for offences under the Act, and all such apparatus and all fish taken by means of any such apparatus may be forfeited on conviction of the offender under section 5 of the Act.

(7) All fees shall be credited to Government in the nearest tahsil under the head "Land Revenue," sub-head "Rent of Fisheries."

(8) Licenses shall be issued in the Form F. 4 annexed to these rules.

MEDICAL AND SANITARY.

The 19th February 1916.

No. 32 *Medl.* 3.—*Notification.*—A copy of the following correspondence received from the Government of India, Department of Education, is published for information :—

No. 48, dated Delhi, 25th January 1916.

From—The Hon'ble Sir E. D. MACLAGAN, K.C.I.E., C.S.I., I.C.S., Secretary to the Government of India, Department of Education,

To—The Revenue Secretary to Government, Punjab.

I AM directed to forward a copy of the attached papers on the subject of the later departure of Indian pilgrim ships from Bombay and of a proposal to fix a date after which pilgrim ships shall not ordinarily be permitted to sail to Jeddah for the season. The question of amending the Pilgrim Ships Act in this connection will be further considered when the pilgrim traffic has returned to normal conditions, but in the meantime the Government of India will be glad if with the permission of His Honour the Lieutenant-Governor (in Council) local Haj Committees are requested to warn pilgrims of the danger of missing the Haj if they sail too late in the season.

Enclosure No. 1.

India Office, London,
26th December 1913.

Revenue,
No. 160.

To His Excellency the Right Honourable the Governor-General of India in Council.

MY LORD,

WITH reference to my Revenue Secretary's letter R. and S., 3810, dated the 15th October last, and previous correspondence, regarding the proposed revision of the arrangements for regulating the pilgrim traffic, I forward, for the consideration of Your Excellency's Government, a copy of a letter* from the Foreign Office transmitting representations from the Constantinople Board of Health on the subject of the late departure of pilgrim ships from Bombay.

*No. 54,154, dated 4th December, with enclosures.

I have the honour to be,
MY LORD,
Your Lordship's most obedient, humble Servant,
(Sd.) CREWE.

ENCLOSURE.

Foreign Office to India Office.

No. 54,154.

THE Under-Secretary of State for Foreign Affairs presents his compliments to the Under-Secretary of State for India, and by direction of the Secretary of State, transmits herewith copy of the undermentioned paper for such observations as the Marquess of Crewe may desire to offer.

Foreign Office,

4th December 1913.

His Majesty's Ambassador, Constantinople, No. 216 Commercial, 24th November 1913. Late departure of pilgrim ships from Bombay.

ANNEX. 1.

His Majesty's Ambassador at Constantinople to Foreign Office.

No. 216. Constantinople,

SIR, 24th November 1913.

WITH reference to paragraph 6 of Mr. Shipley's letter of 2nd October enclosed in your Despatch No. 86 of this series of 13th October, I have the honour to forward herewith a despatch* as marked in the margin, from the British Delegate on the Constantinople Board of Health, requesting representations to the Government of India regarding the late departure of Indian pilgrim ships from Bombay.

*Dr. Clemow, No. 125.

I have, etc.,

LOUIS MALLET.

The Secretary of State

Foreign Office,

ANNEX. 2.

Dr. F. G. Clemow to His Majesty's Ambassador at Constantinople.

No. 125. Constantinople,

SIR, 20th November 1913.

THE Board of Health was recently requested by the Ottoman Consul in Bombay to grant a reduction of quarantine at Camaran in favour of three pilgrim steamers the S. S. "Koweit", S.S. "Bahrein" and S.S. "Alfeld" in order that their pilgrims might reach Jeddah in time to take part in the fêtes at Mecca.

The Board at first refused this request, but all three ships arrived at Camaran so late that unless a reduction of quarantine had been granted the pilgrims would have missed their Haj, and consequently the Board was compelled, by force of circumstances, to yield and allow the steamers to leave before their term of quarantine was completed.

At the request of the Board I have to ask Your Excellency to cause representations to be made to the Government of India with a view to preventing a recurrence of such incidents in the future. I am informed that the Russian Government fix a date each year, after which pilgrim ships are not allowed to leave Russian ports, and perhaps some measure of this nature could be applied in Indian ports. It is in any case most desirable that some means should be found for preventing a repetition of the incident now complained of.

I have, etc.,

F. G. CLEMOW.

His Excellency

The Right Hon'ble Sir LOUIS MALLET, K.C.M.G., C.B.,

etc., etc., etc.

Enclosure No. 2.

No. 3098, dated Bombay Castle, the 21st April 1914.

From—J. L. RIEU, Esquire, I.C.S., Secretary to the Government of Bombay, General Department,

To—The Secretary to the Government of India, Department of Education (Sanitary).

* * * * * *

6. In regard to the amendments, proposed in draft notification A, to the rules issued by the Government of India in their Home Department Notification No. 1902, dated the 14th October 1910, I am to offer the following explanations :—

* * * * * *

Rule 94.—The fixing of a date after which no pilgrim ship shall ordinarily be allowed to sail for Jeddah with pilgrims appears to be desirable in order to prevent the recurrence of such incidents as that referred to in the enclosures accompanying letter No. 234, dated the 2nd February 1914, from the Government of India.

* * * * * *

Draft Notification.

* * * * * *

(6) The following new rule should be added as rule 94 :—

Final day for the departure of pilgrim ships.

94. No pilgrim ship shall depart from any port in the Bombay Presidency after the 10th day of Zilkada in any year ;

Provided that in exceptional cases a pilgrim ship may be permitted to depart after that date, if it is specially authorised to do so by an officer appointed by the Local Government in this behalf."

Enclosure No. 3.

No. 1309, dated Simla, the 9th July 1914.

From—The Hon'ble Mr. L. C. PORTER, C.I.E., I.C.S., Secretary to the Government of India, Department of Education,

To—The Secretary to the Government of Bombay, General Department.

* * * * * * * *

4. Draft rule 94 has been framed in order to prevent the recurrence of such incidents as occurred in connection with the late departure of certain pilgrim ships from Bombay which necessitated the relaxation of the Turkish quarantine regulations, in order to enable the pilgrims to reach Jeddah in time to take part in the ceremonies at Mecca. The Government of India consider that this rule also is *ultra vires* and that there is nothing in the Act which would justify a rule absolutely prohibiting a pilgrim ship from departing from Bombay during any particular season. After careful considaration, the Government of India are inclined to think that the proposed rule might be dropped, and that it would be sufficient to warn pilgrims of the danger of missing the Haj if they sail too late in the season.

* * * * * * * *

Enclosure No. 4.

India Office, London,

23rd April 1915.

Revenue.

No. 49.

To His Excellency the Right Honourable the Governor-General of India in Council.

MY LORD,

I have considered in Council Dr. Abdur Rahman's Report on the Haj Pilgrimage of 1913-14, which was received with your Foreign Department letter No. 4-M., dated 28th January 1915, and I desire to draw the attention of your Government to the following points.

Report on the Haj Pilgrimage of 1913-14.

* * * * * * * *

* * * * * * * *

2. The Report mentions that the Indian pilgrims on the *Alfeld* arrived too late for the Haj, and refers to other cases in which it has been necessary to apply for a reduction of the period of quarantine at Camaran; and Dr. Abdur Rahman suggests that the Bombay authorities should be advised "to be firm in fixing the date of the sailing of the last pilgrim steamer," leaving some margin for such accidents as happened to the *Alfeld.* In this connection I should be glad to learn what reply the Government of Bombay have made to the suggestions of your Government (contained in Education Department letter of the 9th July 1914, No. 1309) that the proposed rule fixing the 10th day of Zilkada (subject to exceptions in special cases) as the last date of sailing for pilgrim ships might be dropped, and that it would be sufficient to warn pilgrims of the danger of missing the Haj if they sailed too late in the season.

I have the honour to be,

MY LORD,

Your Lordship's most obedient humble Servant,

(Signed) CREWE.

Enclosure No. 5.

No. 9071, dated the 24th November 1915.

From—J. L. RIEU, Esquire, I.C.S., Secretary to the Government of Bombay, General Department,

To—The Secretary to the Government of India, Department of Education.

* * * * * * * *

4. With reference to the question which has again been raised by the Secretary of State of the appointment of a date after which pilgrim ships should not be permitted to carry pilgrims for the current season, I am to invite attention to the proposal submitted in my letter No. 3098, dated the 21st April 1914, to fix by rule the 10th day of Zilkada for this purpose. The proposal was negatived by the Government of India on the ground that such a rule would be *ultra vires*, and the opinion was expressed that it would be sufficient to warn pilgrims of the danger of missing the Haj, if they sail too late in the season. The Government of Bombay, however, are doubtful of the efficacy of such a warning, and they adhere to their opinion as to the desirability of fixing by law the last date on which a pilgrim ship can sail to Jeddah for the season. I am accordingly to suggest, for the consideration of the Government of India, the amendment of the Pilgrim Ships Act by the introduction of a provision which will authorise the Local Government to fix such a date from time to time.

RULES.

Rules for the introduction, consideration and making of Laws and Regulations in the Legislative Council of the Lieutenant-Governor of the Punjab.

I.—PRELIMINARY.

Definitions.

1. In these rules—

(1) "President" means—

(*a*) the Lieutenant-Governor, or

(*b*) the Vice-President appointed by the Lieutenant-Governor under section 4 of the Indian Councils Act, 1909.

(2) "Member in charge" means the member in charge of the Bill under discussion.

(3) "Secretary" means the officer appointed by the Lieutenant-Governor to perform the duties of Secretary to the Council, and includes every person for the time being exercising the functions of the Secretary.

II.—INTRODUCTION AND PUBLICATION OF BILLS.

Motion for introduction of Bills.

2. Subject to the provisions of the Indian Councils Acts and of the following rules, any Member may move at a meeting of Council for leave to introduce a Bill.

Member to give notice.

3. Any Member desiring to move for leave to introduce a Bill shall give the Secretary at least 7 clear days' notice of his intention, and shall, together with the notice, send a copy of the Bill and a full Statement of Objects and Reasons:

Provided that a non-official Member shall give at least two months' notice of such intention.

4 In speaking to the motion the Member introducing, or in charge of, the Bill may state concisely the scope of the Bill and the reasons in support of it ; but unless the motion is opposed such explanation may be deferred until the Member introducing, or in charge of, the Bill makes a subsequent motion under rule 9.

Introductory remarks.

5. If the motion is carried, the Member shall introduce the Bill by rising and stating that he introduces the Bill, and the Bill shall thereupon be deemed to have been introduced into Council.

Formal introduction.

6. When a Bill has been introduced, the Secretary shall cause the Bill, together with the Statement of Objects and Reasons, to be printed if not already in print, and shall send a copy to each Member of the Council.

Printing and circulation of Bills.

7. When a Bill has been introduced, it shall, with the Statement of Objects and Reasons, be published in the *Punjab Gazette* and in such other manner as the Lieutenant-Governor may direct.

Publication of Bills.

8. (1) The Lieutenant-Governor may order the publication of the Bill, together with the Statement of Objects and Reasons, in the *Punjab Gazette*, although no motion has been made for leave to introduce the Bill.

Previous publication in special cases.

(2) In that case if the Bill be afterwards introduced into Council without material alteration, it need not be published again under rule 7.

9. (1) When a Bill is introduced or on some subsequent occasion, the Member in charge of it shall make one or more of the following motions :—

Procedure when Bill is introduced.

(*a*) that the Bill be referred to a Select Committee, or

(*b*) that the Bill be taken into consideration by the Council either at once or at some future day, to be then mentioned, or

(*c*) that the Bill be circulated for the purpose of eliciting opinion thereon.

On the day on which such motion is made, or on any subsequent day to which the discussion is postponed, the principle of the Bill and its general provisions may be discussed.

(2) No motion referred to in clause (1) shall be made until after a copy of the Bill and the Statement of the Objects and Reasons have been furnished to each Member.

Motion after introduction.

(3) Any Member may object to any such motion unless such copies have been furnished to him at least 7 days previously, and such objection shall prevail unless the President in exercise of his powers to suspend the rules allows the motion to be made.

III.—SELECT COMMITTEES.

10. When a motion under rule 9 (1) that a Bill be referred to a Select Committee has been carried, the Council shall at the same or some subsequent meeting nominate the Members of such Select Committee.

Nomination of Select Committees.

The Member in charge of the Bill shall be Chairman of the Committee and, in the case of equality of votes shall have a second or casting vote.

Casting vote.

No person shall be appointed to a Select Committee unless he is a Member of the Council, and any Member of Select Committee who ceases to be Member of the Council shall at the same time cease to be Member of the Select Committee.

Select Committee to examine the Bill.

11. When a Bill is referred to a Select Committee—

(a) the Committee shall examine the Bill, clause by clause, and if they or a majority of their number decide to recommend any alteration in the Bill, the Bill shall be revised so as to bring it into conformity with such recommendation ; and

(b) the Committee or majority of their number shall make a report on the Bill—

(i) as soon as possible after the close of two months from its publication in the Gazette, or

(ii) at any time that the Council may direct.

Nature of report.

12. (1) Such report may be either preliminary or final.

(2) It shall be confined to a statement of the alterations, if any, made by the Committee or a majority of their number, and of the reasons for the alterations.

(3) It shall state whether the publication ordered by these rules or by the Lieutenant-Governor has taken place and the date on which it has taken place ; and whether the Bill has been so altered as to require republication.

Notes of Dissent.

13. Any Member of a Select Committee who desires to record a Note of Dissent from any such Report must forward the same without delay to the Secretary, and the Secretary shall thereupon annex such note to the Report.

Report to be printed and circulated.

14. Every report made by a Select Committee, together with the Bill as approved by the Committee and any Notes of Dissent, shall be printed, and a copy thereof shall be sent by the Secretary to each Member, and shall be published in the *Punjab Gazette,* and may, if the President so directs, be so published before presentation to the Council.

Proceedings to be confidential.

15. All proceedings of a Select Committee shall be treated as confidential, and its recommendations shall not be disclosed until the report of the Committee is published in the *Punjab Gazette* or presented to Council.

Consideration of Report.

16. The Report of the Select Committee on a Bill shall be presented to the Council by the Member in charge of the Bill, and shall be taken into consideration by the Council as soon as conveniently may be ; but any Member may object to its being so taken into consideration when he has not been furnished, one week beforehand, with a copy of the Report, and such objection shall prevail, unless the President, in exercise of his power to suspend any of these rules, allows the Report to be taken into consideration.

IV.—CONSIDERATION AND AMENDMENT OF BILLS.

Bill to be taken into consideration.

17. When a motion under rule 9 (1) (b) that a Bill be taken into consideration by the Council has been carried, the Council shall thereupon, in accordance with such motion, proceed to take the Bill into consideration.

18. When the Bill is so taken into consideration, Members may speak on the Bill in such order as the President may direct, and any Member may propose an amendment of the Bill.

Discussion and amendments.

19. (1) If no amendment be made when a Bill is taken into consideration by the Council, the Bill may at once be passed.

Procedure when no amendment.

(2) If any amendment be made, any Member may object to the passing of the Bill at the same meeting; and such objection shall prevail, unless the President, in exercise of his power to suspend any of these rules, allows the Bill to pass.

Procedure in other cases.

20. Notice of amendment should ordinarily be given to the Secretary as required by rule 37. When notice is so given, the amendments to be moved shall be printed and circulated to each Member. If notice of an amendment has not been given as required by rule 37, any Member may object to such amendment being moved, and such objection shall prevail unless the President, in exercise of his power to suspend any of these rules, allows the amendment to be moved:

Notice and circulation of amendments.

Provided that it shall not be necessary to give notice of amendments of a purely verbal character or of amendments consequential on or moved in respect of amendments which have been carried.

21. Amendments shall ordinarily be considered in the order of the clauses to which they respectively relate.

Order of amendments.

22. (1) After the Mover of an amendment has spoken other Members may speak to the motion in such order as the President may direct, and thereafter the Mover may speak once by way of reply.

Discussion of amendments.

(2) No member other than the Mover and the Member in charge shall speak more than once to any motion, except with the permission of the President, for the purpose of making an explanation.

23. No speech, except with the permission of the President, shall exceed fifteen minutes in duration:

Duration of speeches.

Provided that the Mover of an amendment, when moving the same, and the Member in charge may speak for thirty minutes.

24. (1) Every Member shall speak from his place, shall rise when he speaks, and shall address the chair.

Members to speak standing.

(2) At any time, if the President rises, any Member speaking shall immediately resume his seat.

25. Any Member may send his speech in print to the Secretary not less than two clear days before the day fixed for the discussion of a resolution, with as many copies as there are Members, and the Secretary shall cause one of such copies to be supplied to every Member. Any such speech may at the discretion of the President be taken as read.

Printed speeches.

26. The discussion of an amendment shall be limited to the subject of the amendment, and shall not extend to any matter as to which a resolution may not be moved.

Limitation of discussion.

27. A Member who has moved an amendment may withdraw the same unless some Member desires that it be put to the vote.

Withdrawal of amendments.

28. When, in the opinion of the President, any resolution or any amendment has been sufficiently discussed, he may close the discussion by calling upon the Mover to reply and the Member in charge to sumbit any final observation which he may wish to make :

Closure of discussion.

Provided that the President may in all cases address the Council before putting the question to the vote.

29. (1) When an amendment is moved, or when two or more amendments are moved, the President shall, before taking the sense of the Council thereon, state or read to the Council the terms of the amendment or amendments proposed.

Amendment to be read before being put.

(2) It shall be in the discretion of the President to put first to the vote either the original motion or any of the amendments which may have been brought forward.

30. (1) Every question shall be resolved in the affirmative or in the negative according to the majority of votes.

Voting.

(2) Votes may be taken by voices or by division, and shall be taken by division if any Member so desires.

(3) The President shall determine the method of taking votes by division.

31. Notwithstanding anything in the foregoing rules, it shall be in the discretion of the President, when a motion that a Bill be taken into consideration has been carried, to submit the Bill, or any part of the Bill, to the Council, clause by clause. When this procedure is adopted, the President shall call each section separately, and, when the amendments relating to it have been dealt with shall put the question " that this section, or (as the case may be) this section as amended, stand part of the Bill."

Consideration of Bills clause by clause.

32. Any Member may move that a Bill which has been amended by the Council, or by a Select Committee, be republished or re-committed, and, if the Council so decide, the President may order the Bill to be republished, or re-committed, as the case may be.

Republication of Bills.

33. At any time during the progress of a Bill it may be moved by the Member who brought in the same, or other Member for the time being in charge of the Bill, that it be withdrawn. If such motion be carried, the Bill shall be withdrawn accordingly.

Withdrawal of Bills.

V.—BILLS CIRCULATED FOR OPINION.

34. When a motion under rule 9 (1) (c) that a Bill be circulated for the purpose of eliciting opinion has been carried, the Secretary shall forward a copy of the Bill with a copy of the motion to the Chief Secretary to the Local Government, with a request that the Bill may be so circulated by him.

Circulation of Bills for opinion.

VI.—PASSING OF BILLS: PUBLICATION OF ACTS.

35. When a Bill has been passed by the Council, the Secretary shall revise and complete the marginal abstracts and the numbering of the clause and shall correct any clerical errors or misprints, and shall then submit it to

Passing of Bills, assent of Lieutenant-Governor.

the Lieutenant-Governor, for the declaration of his assent in accordance with the provisions of section 39 of the Indian Councils Act, 1861.

Assent of Governor-General and final publication.

36. If the Lieutenant-Governor records his assent upon the bill, it shall be submitted as soon as may be for the assent of the Governor-General. When the Governor-General has signified his assent the Bill shall be published as soon as possible in the local Gazette, under the signature of the Secretary, as an Act of the Lieutenant-Governor in Council which has received the assent of the Governor-General and has the force of law.

VII.—GENERAL.

Notice of original motion or of amendment.

37. Any Member who wishes to make an original motion, or move an amendment of a Bill, shall give notice of his intention at the next previous Meeting, or send notice to the Secretary three days before the day of the Meeting at which he intends to introduce the motion.

Preservation of order.

38. (1) The President shall preserve order, and all points of order shall be decided by him.

(2) No discussion on any point of order shall be allowed unless the President shall think fit to take the opinion of the Council thereon.

(3) Any Member may at any time submit a point of order to the decision of the President.

(4) The President shall have all powers necessary for the purpose of enforcing his decisions.

Time for discussion.

39. (1) The President may assign such time as with due regard to the public interests he may consider reasonable for the discussion of motions or of any particular motion.

(2) Every motion which has not been put to the vote within the time so assigned shall be deemed to have been withdrawn.

Request for papers or returns.

40. Any Member may ask for any papers or returns connected with any Bill before the Council. The President shall determine, either at the time or at the Meeting of the Council next following, whether the papers or returns asked for can be given.

Communication how to be addressed.

41. Communications on matters connected with any Bill before the Council may be addressed to the Lieutenant-Governor or to the Secretary, and must in either case be sent to the Secretary.

Communication to be circulated.

42. The Secretary shall either cause such communications to be printed and send a copy to each Member, or circulate them for the perusal of each Member.

Duties of Secretary.

43. It shall be the duty of the Secretary—

(1) to draft all Bills originated by the Local Government, the Statements of their Objects and Reasons, and the Reports of the Select Committees to which such Bills are referred ;

(2) to take charge of the copies of the Bills to which the Lieutenant-Governor has declared his assent ;

(3) to exmine all Bills and to report to the President on those which contain clauses trenching on subjects coming within section 43 of the Indian Councils Act, 1861.

44. Any Bill respecting which no motion has been made in the Council for two years may, by order of the President, be removed from the List of Business.

Removal of Bills from List of Business.

THE above Rules were passed by the Legislative Council of the Lieutenant-Governor of the Punjab at a meeting held for the purpose of making Laws and Regulations on the 25th September 1915.

License is hereby granted to________________ for the storage of ________ gallons of petroleum in the place prescribed below, subject to the conditions at the back of this license.

The 19 .

Secretary to the Government of the Punjab or an officer appointed by the Local Government in this behalf.

(*Description of the place above referred to.*)

Conditions of Petroleum license in Form "N" vide *Punjab Government notification No.* 298, *dated* 10*th March* 1916.

1. The rules laid down in Chapter I of Part II of the rules published in Punjab Government notification No. 90, dated 15th February 1909, shall be duly observed.

2. Each tank shall either be separately surrounded by earth or other non-inflammable material or partially sunk in an excavation. The enclosure thus formed shall be of dimensions sufficient to contain without overflow 10 per cent. more oil than the tank is capable of containing, and shall be so constructed as to prevent the escape therefrom of any oil in the form of liquid, whether under the action of fire, or otherwise. The space enclosed by such wall or embankment and not occupied by the

tank shall be kept entirely clear and unoccupied, provided that the District Officer or such officer as he may appoint in this behalf may sanction the surrounding of several tanks of not greater capacity than 15,000 gallons each by an enclosure of earth or other non-inflammable materials which shall be of dimensions sufficient to contain without overflowing 10 per cent. more oil than can be contained by all the tanks enclosed within it and which shall be constructed as above described.

The area within any such enclosure shall be treated as an installation as defined in Rule I (*d*) of part I, of the rules under section 9 of the Indian Petroleum Act, 1899, issued under Punjab Government notification No. 90, dated 15th February 1909, and all rules laid down in Chapter I, of Part II, of the said rules shall be observed within such an installation.

3. A distance of not less than 300 feet shall be kept clear between one storage tank and another. This condition shall not apply to tanks already erected on the date of issue of this license.

4. No tank shall be constructed within 100 feet of any recognised public road. This condition shall not apply to tanks already erected on the date of issue of this license.

5. Every person managing or employed on or in connection with the place of storage shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary and shall prevent any other person from doing any such act

6. No lights other than electric lights and no fire of any description shall be permitted within 300 feet of any storage tank.

7. No repairs shall be carried out in any tank which contains or has contained petroleum until the tank has been thoroughly cleared of all petroleum and of all gases and vapours derived from the same.

8. Any accident or explosion occurring within the area specified in the license whether attended with the loss of life or not, shall be reported immediately to the District Officer or to such officer as he may direct. In the event of loss of life the fact shall be reported by telegram.

9. Where the District Officer or any officer specially authorised by him in this behalf calls on the licensee by a notice in writing to execute any repairs of a licensed place which may in the opinion of such officer be necessary for the safety of such place, the licensee shall execute the repairs within such period, not being less than a week, from the date of the receipt of the notice as may be fixed by the notice.

10. When pipes are used for draining off water from tank enclosures, they shall be fitted with gate valves or stop-cocks outside the bund.

11. The height of any storage tank shall not be more than ⅞ths of its diameter. This condition shall not apply to tanks already erected on the date of issue of this license.

No. 298.—*Notification.*— With reference to rule 15, in Chapter IV, Part II, of the rules for the importation, possession and transport of petroleum in the Punjab, which was published with Punjab Government notification No. 297 (C. & I.), dated 10th March 1916, the following conditions of a license in form N for the possession of dangerous petroleum or partly dangerous and partly non-dangerous petroleum in bulk at or near wells, pumping stations and refineries, are prescribed by the Punjab Government :—

Conditions of Petroleum license in form "N."

1. The rules laid down in Chapter I of Part II of the rules published in Punjab Government notification No. 90, dated 15th February 1909, shall be duly observed.

2. Each tank shall either be separately surrounded by earth or other non-inflammable material or partially sunk in an excavation. The enclosure thus formed shall be of dimensions sufficient to contain without overflow 10 per cent. more oil than the tank is capable of containing, and shall be so constructed as to prevent the escape therefrom of any oil in the form of liquid, whether under the action of fire, or otherwise. The space enclosed by such wall or embankment and not occupied by the tank shall be kept entirely clear and unoccupied, provided that the District Officer or such officer as he may appoint in this behalf may sanction the surrounding of several tanks of not greater capacity than 15,000 gallons each by an enclosure of earth or other non-inflammable materials which shall be of dimensions sufficient to contain, without overflowing, 10 per cent. more oil than can be contained by all the tanks enclosed within it, and which shall be constructed as above described.

The area within any such enclosure shall be treated as an installation as defined in Rule I (*d*), of Part I of the rules under section 9 of the Indian Petroleum Act, 1899, issued under Punjab Government notification No. 90, dated 15th February 1909, and all rules laid down in Chapter I of Part II of the said rules shall be observed within such an installation.

3. A distance of not less than 300 feet shall be kept clear between one storage tank and another. This condition shall not apply to tanks already erected on the date of issue of this license.

4. No tank shall be constructed within 100 feet of any recognised public road. This condition shall not apply to tanks already erected on the date of issue of this license.

5. Every person managing or employed on or in connection with the place of storage shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary and shall prevent any other person from doing any such act.

6. No lights other than electric lights and no fire of any description shall be permitted within 300 feet of any storage tank.

7. No repairs shall be carried out in any tank which contains or has contained petroleum, until the tank has been thoroughly cleared of all petroleum and of all gases and vapours derived from the same.

8. Any accident or explosion occurring within the area specified in the license whether attended with the loss of life or not, shall be reported immediately to the District Officer or to such officer as he may direct. In the event of loss of life the fact shall be reported by telegram.

9. Where the District Officer or any officer specially authorised by him in this behalf calls on the licensee by a notice in writing to execute any repairs of a licensed place which may in the opinion of such officer be necessary for the safety of such place, the licensee shall execute the repairs within such period, not being less than a week, from the date of the receipt of the notice as may be fixed by the notice.

10. When pipes are used for draining off water from tank enclosures, they shall be fitted with gate valves or stop-cocks outside the bund.

11. The height of any storage tank shall not be more than ⅞ths of its diameter. This condition shall not apply to tanks already erected on the date of issue of this license.

The 13*th March* 1916.

No. 310.—*Notification.*—In exercise of the powers conferred on him by section 58 (2) (*d*) of the Punjab Excise Act, 1914 (I of 1914), the Lieutenant-Governor of the Punjab is pleased to make the following rules for the export of *charas* from the Punjab to the Delhi Province. They shall be read as rules 8-A. and 9-A. of rules for the import into, export out of, and transport within the Punjab of *charas*, published with notification No. 449, dated the 19th of March 1915 :—

8-A.—*Charas* may be exported from a bonded-warehouse in the Punjab to the vend premises of a licensed vendor in the Delhi Province on the production of an application in the prescribed form accompanied by a permit signed by the Collector of the Delhi Province and after payment of the duty leviable.

9-A.—*Charas* may be exported from the vend premises of a person licensed to sell *charas* wholesale in the Punjab to the vend premises of a person licensed to sell *charas* wholesale or retail in the Delhi Province under cover of an export pass which may be granted on production of a permit signed by the Collector of the Delhi Province.

No. 311.—*Notification.*—In exercise of the powers conferred by section 58 (2) (*d*) of the Punjab Excise Act, I of 1914, the Lieutenant-Governor of the Punjab is pleased to make the following amendments with effect from the date of this notification, in the rules regulating the import, export and transport of liquor issued under notification No. 696, dated the 30th April 1915 :—

For rule 4 of the said rules the following shall be substituted :—

"4. Indian-made foreign spirit may under a pass, be—

(*a*) imported from the Rosa Distillery at Shahjehánpur in the United Provinces and from the Delhi Province but from nowhere else ;

(*b*) exported to any Province or Native State in India ;

PART I.

Punjab Government Notifications and Orders.

HOME DEPARTMENT.

The 29th March 1916.

THE Lieutenant-Governor has heard with deep regret of the death from wounds sustained in action in Mesopotamia of Mr. Eric Lionel Finlay of the I.C.S., attached to the 1st-6th battalion of the Devonshire Regiment. Mr. Finlay after a brilliant career as a scholar of Eton and of King's College, Cambridge, where he took a place in the 1st Division of Class I in the Classical Tripos, and gained a reputation as an athlete, passed second on the list for the I.C.S. at the Open Competition of August 1914. His father, Mr. James Fairbairn Finlay, C.S.I., who will be remembered as a distinguished member of the Punjab Commission, which he joined in the year 1875, and subsequently as a member of the Viceroy's Executive Council in 1907 and of the Council of India in 1903—07, immediately applied that his son should be posted to his old Province. This request was readily acceded to by the Government of India, and Mr. E. L. Finlay, who had come to India with his Territorial Battalion, was attached to the regiment stationed at Lahore Cantonment in order that he might perform his military duties in the Province where it was intended his civil work should lie. Mr. Finlay though he had not actually joined the Punjab Commission had already passed part of the examination for Assistant Commissioners before his battalion proceeded on active service. During his short residence in Lahore Cantonment Mr. Finlay gave every promise of becoming an able and efficient officer, a gallant son of a distinguished father, to whom the Lieutenant-Governor feels sure the officers of the Punjab Commission will wish to extend their sympathy in his loss, and will deplore with him the premature close of a career which had commenced so brilliantly.

By order of His Honour the Lieutenant-Governor of the Punjab,

C. A. BARRON,

Chief Secretary to Government, Punjab.

COMMERCE AND INDUSTRY DEPARTMENT.

The 19th May 1916.

No. 584.—*Notification.*—In exercise of the powers conferred by section 4 (2) of the Indian Mines Act, 1901 (VIII of 1901) and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to appoint Mr. H. Lancaster, Junior Inspector of Mines in India, to be an Inspector of Mines within the territories of the Punjab.

The 19th May 1916.

No. 588½.—*Notification.*—The following is published for general information :—

Memorandum of Instructions as to Registration of Claims against enemy subjects and enemy Governments.

The following instructions are issued for the guidance of persons who wish to register their claims against enemy subjects and enemy Governments, with reference to the Press *Communiqué*, dated the 19th May 1916 :—

Claims against Enemy Subjects.

1. The forms prescribed for the purpose of recording claims against enemy subjects are given in the annexed Schedule.

2. *Registration Order "G"* should be used by persons or firms residing or carrying on business in India to make a return of—

(1) Debts owing to them by enemy persons or firms including unpaid dividends and uncashed coupons and unpresented bills accepted by and unpresented cheques drawn by enemy firms or persons.

(2) Bank balances held for them by Banks situated in enemy territory.

(3) Interest which has accrued on items recorded on Registration Order "H."

It should be noted that unpaid dividends and uncashed coupons and unpresented bills or cheques are debts and should be recorded on this form.

3. *Registration Order "H"* should be used for the purpose of making a return of property other than debts, Bank balances and personal luggage—held by enemy persons or firms for persons or firms residing or carrying on business in India.

This form should also be used to record claims against enemy Governments and Municipalities in respect of public securities of those Governments and Municipalities held by the persons making the return. The enemy Government or Municipality is, from this point of view, the debtor, and the fact that the paper or other documentary evidence of title is held in this country makes no difference.

This form should not be used for making other claims against enemy Governments, *e.g.*, in respect of goods or property requisitioned, sequestrated or destroyed by those Governments. The procedure in regard to the registration of such claims is laid down in paras. 6-13 *infra*.

It is essential that the actual value of the property held and not merely its face value should be recorded, and in estimating these values the following rules should be observed :—

(*a*) In all cases where sales in the securities are now taking place, or have taken place since the war began, the prices realised at such sales should be taken as the basis of the valuation.

(*b*) In other cases where no such sales have been made, the value should be the value on the 1st August 1914, or on the latest date previous to the 1st August 1914, on which a price was recorded.

(*c*) In cases where lands, houses or leases are included in the return, the value recorded should be the estimated capital value as on the 1st August 1914, less the estimated capital value of any charges on the same.

4. *Registration Order "F"* should be used to make a return of personal luggage left behind in the enemy country by His Majesty's subjects when travelling home before or since the outbreak of war. Great care should be taken to indicate whether the luggage was given into the charge of some one (*e. g.*, a railway official or hotel-keeper) or was detained against the will of the traveller.

5. Returns in reference to occupied territory should be made on precisely the same forms as those referred to above, except that they will be issued stamped with a rubber stamp with the words "Occupied territory."

Claims against Enemy Government.

6. Claims against enemy Governments in respect of public securities of those Governments should be recorded in Registration Order "H" as indicated in paragraph 3 *ante*. As regards other claims against enemy Governments, such as those in respect of property requisitioned, sequestrated or destroyed by those Governments, a statutory declaration verifying the claim should be sent. The declaration must be in the form prescribed under section 7 of the Indian Oaths Act, 1873.

7. If the claimant was born within His Majesty's dominions, the declaration should state the date and place of his birth. If the claimant was born outside His Majesty's dominions but derives British nationality from his father or grandfather, the declaration should state the date and place of birth of such father or grandfather.

If the claimant is a naturalized subject of His Majesty the declaration should state the date cf his naturalisation and his previous nationality.

8. If the claimant is a Company incorporated under any law for the time being in force in any part of the British Empire, the declaration should state the date of incorporation.

If all the persons holding shares or otherwise interested in the Company are subjects of His Majesty the declaration should state that fact.

If some of the persons holding shares or otherwise interested in the Company are aliens, the declaration should state the nationality of those persons and the nature of their interest in the Company.

9. Full particulars of the property in respect of which the claim is made should be set out in the declaration or in a schedule attached thereto.

10. The declaration should state the value of the property and the amount of the claim.

Where the value of the property can be proved by documentary evidence, copies of those documents should be attached to the declaration.

Where documentary evidence of the value of the property cannot be adduced, the evidence of the claimant should, so far as it is possible to do so, be corroborated by that of other persons.

11. The declaration should state the facts with regard to the requisitioning, sequestration, or destruction of the proprety so far as they are known to the claimant.

If the claimant holds any receipts or other documentary evidence of the seizure of his property, copies of such documents should be attached to the declaration.

12. The declaration should also state that, at the date when the property was requisitioned, sequestrated or destroyed, the claimant was the absolute owner thereof.

13. If the claimant, or any person on his behalf, has received any payment in respect of the property, particulars, thereof should be set out in the declaration.

General.

14. In making these returns, the term "enemy" should be understood to mean a person of whatever nationality, residing or carrying on business in an enemy country, and the expression "enemy country" should be taken to include territory for the time being in hostile occupation. A British subject who resides or carries on business in enemy territory is, therefore, for the present purposes, to be considered an enemy, while a person of German, Austrian, Turkish or Bulgarian nationality residing in this country, even though interned, is not an enemy from this point of view.

With regard to the date to be selected for the making of the return, this should be the outbreak of the war, that is to say, midnight of 4th August 1914 for Germany and Austria-Hungary, 5th November 1914 for Turkey, and 15th October 1915 for Bulgaria With regard to territory occupied by enemy forces, the date should be the date of occupation as nearly as can be ascertained.

15. It must be clearly understood that the action of the Custodian of Enemy Property or other officer appointed for the purpose will be confined to entering upon the record claims of which particulars are supplied to him, and that it in no way commits His Majesty's Government either to responsibility for the correctness of the claim entered or to taking any action on the conclusion of hostilities or otherwise for the recovery of the debts or property in question. But it is hardly necessary to state that it is in the interest of the creditors that the returns are asked for, as giving important data for the safeguarding of that interest.

COMMERCE AND INDUSTRY DEPARTMENT.

[Second publication.]

The 19th May 1916.

No. 588½.—*Notification.*—The following is published for general information :—

Memorandum of Instructions as to Registration of Claims against enemy subjects and enemy Governments.

The following instructions are issued for the guidance of persons who wish to register their claims against enemy subjects and enemy Governments, with reference to the Press *Communiqué,* dated the 19th May 1916 :—

Claims against Enemy Subjects.

1. The forms prescribed for the purpose of recording claims against enemy subjects are given in the annexed Schedule.

2. *Registration Order " G "* should be used by persons or firms residing or carrying on business in India to make a return of—

(1) Debts owing to them by enemy persons or firms including unpaid dividends and uncashed coupons and unpresented bills accepted by and unpresented cheques drawn by enemy firms or persons.

(2) Bank balances held for them by Banks situated in enemy territory.

(3) Interest which has accrued on items recorded on Registration Order " H."

It should be noted that unpaid dividends and uncashed coupons and unpresented bills or cheques are debts and should be recorded on this form.

3. *Registration Order " H "* should be used for the purpose of making a return of property other than debts, Bank balances and personal luggage—held by enemy persons or firms for persons or firms residing or carrying on business in India.

This form should also be used to record claims against enemy Governments and Municipalities in respect of public securities of those Governments and Municipalities held by the persons making the return. The enemy Government or Municipality is, from this point of view, the debtor, and the fact that the paper or other documentary evidence of title is held in this country makes no difference.

This form should not be used for making other claims against enemy Governments, *e. g.*, in respect of goods or property requisitioned, sequestrated or destroyed by those Governments. The procedure in regard to the registration of such claims is laid down in paras. 6-13 *infra.*

It is essential that the actual value of the property held and not merely its face value should be recorded, and in estimating these values the following rules should be observed :—

(*a*) In all cases where sales in the securities are now taking place, or have taken place since the war began, the prices realised at such sales should be taken as the basis of the valuation.

(*b*) In other cases where no such sales have been made, the value should be the value on the 1st August 1914, or on the latest date previous to the 1st August 1914, on which a price was recorded.

(*c*) In cases where lands, houses or leases are included in the return, the value recorded should be the estimated capital value as on the 1st August 1914, less the estimated capital value of any charges on the same.

4. *Registration Order " F "* should be used to make a return of personal luggage left behind in the enemy country by His Majesty's subjects when travelling home before or since the outbreak of war. Great care should be taken to indicate whether the luggage was given into the charge of some one (*e. g.*, a railway official or hotel-keeper) or was detained against the will of the traveller.

5. Returns in reference to occupied territory should be made on precisely the same forms as those referred to above, except that they will be issued stamped with a rubber stamp with the words " Occupied territory."

Claims against Enemy Government.

6. Claims against enemy Governments in respect of public securities of those Governments should be recorded in Registration Order "H" as indicated in paragraph 3 *ante*. As regards other claims against enemy Governments, such as those in respect of property requisitioned, sequestrated or destroyed by those Governments, a statutory declaration verifying the claim should be sent. The declaration must be in the form prescribed under section 7 of the Indian Oaths Act, 1873.

7. If the claimant was born within His Majesty's dominions, the declaration should state the date and place of his birth. If the claimant was born outside His Majesty's dominions but derives British nationality from his father or grandfather, the declaration should state the date and place of birth of such father or grandfather.

If the claimant is a naturalized subject of His Majesty the declaration should state the date of his naturalisation and his previous nationality.

8. If the claimant is a Company incorporated under any law for the time being in force in any part of the British Empire, the declaration should state the date of incorporation.

If all the persons holding shares or otherwise interested in the Company are subjects of His Majesty the declaration should state that fact.

If some of the persons holding shares or otherwise interested in the Company are aliens, the declaration should state the nationality of those persons and the nature of their interest in the Company.

9. Full particulars of the property in respect of which the claim is made should be set out in the declaration or in a schedule attached thereto.

10. The declaration should state the value of the property and the amount of the claim.

Where the value of the property can be proved by documentary evidence, copies of those documents should be attached to the declaration.

Where documentary evidence of the value of the property cannot be adduced, the evidence of the claimant should, so far as it is possible to do so, be corroborated by that of other persons.

11. The declaration should state the facts with regard to the requisitioning, sequestration, or destruction of the proprety so far as they are known to the claimant.

If the claimant holds any receipts or other documentary evidence of the seizure of his property, copies of such documents should be attached to the declaration.

12. The declaration should also state that, at the date when the property was requisitioned, sequestrated or destroyed, the claimant was the absolute owner thereof.

13. If the claimant, or any person on his behalf, has received any payment in respect of the property, particulars, thereof should be set out in the declaration.

General.

14. In making these returns, the term "enemy" should be understood to mean a person of whatever nationality, residing or carrying on business in an enemy country, and the expression "enemy country" should be taken to include territory for the time being in hostile occupation. A British subject who resides or carries on business in enemy territory is, therefore, for the present purposes, to be considered an enemy, while a person of German, Austrian, Turkish or Bulgarian nationality residing in this country, even though interned, is not an enemy from this point of view.

With regard to the date to be selected for the making of the return, this should be the outbreak of the war, that is to say, midnight of 4th August 1914 for Germany and Austria-Hungary, 5th November 1914 for Turkey, and 15th October 1915 for Bulgaria With regard to territory occupied by enemy forces, the date should be the date of occupation as nearly as can be ascertained.

15. It must be clearly understood that the action of the Custodian of Enemy Property or other officer appointed for the purpose will be confined to entering upon the record claims of which particulars are supplied to him, and that it in no way commits His Majesty's Government either to responsibility for the correctness of the claim entered or to taking any action on the conclusion of hostilities or otherwise for the recovery of the debts or property in question. But it is hardly necessary to state that it is in the interest of the creditors that the returns are asked for, as giving important data for the safeguarding of that interest.

No person shall fish in the waters of the Beás river and its tributaries on either bank from the confluence of the Bhinnun Khad to Mirthal Ferry, including the Lamba Pani, except under license to be granted by the Deputy Commissioners of Kangra and Hoshiarpur in their respective districts, in Form F. 1 attached to these rules.

3. There shall be two classes of licenses,—first class and second class.

4. (*a*) A first class license shall entitle the holder to fish the main stream or any branch of the main stream of the river Beás at any point below the Nadaun Ferry to the Mirthal Ferry, and also to fish the water specified in sub-rule (*b*).

(*b*) A second class license shall entitle the holder to fish (*i*) in the main stream or any branch of the main stream from the confluence of the Bhinnun Khad to the Nadaun Ferry, or (*ii*) in any (lateral) tributary of the river on either bank, which flows into the Beás at such part of its course as is specified in rule 2, including such portions of the Bhinnun Khad as are in British territory :

Provided that nothing in these rules shall entitle a license-holder to fish in any water closed to fishing by a rule notified under section 6 of Act IV of 1897.

5. The fee for a first class license shall be two rupees per annum and the fee for a second class license shall be one rupee per annum ; but full fees must be paid for any part of a year :

Provided that any boy below the age of sixteen may on the recommendation of a Fishing Headman (*Chaudhri*) be granted license of either the first or second class free of charge for a period not exceeding one year to enable him to learn his trade :

Provided also that such *Jhiwars* as are by ancient custom employed by the Rajas to supply fish (*bara*) for their households in Lambagraon, Nadaun, Guler, Dáda Siba and Nurpur may be given a license of either class free of charge.

6. It shall be a condition of every license granted under these rule that the licensee is permitted to fish with the following kinds of gear only—

(*a*) *Rod and line.*

(*b*) *Grains or spear* (*Bhalla*) *or* (*Tiri*).

(*c*) *Longline* (*Lang*).

(*d*) *Casting net* (*Sotwan*), (*Pahlu*), (*Dobajju*) with a minimum mesh of $1\frac{1}{4}$ inches.

(*e*) *Drag net* (*Pand*), (*Patti*), (*Nilotu*), with a minimum mesh of $1\frac{1}{4}$ inches.

(*f*) *Stake net and scare net* (*Panj*), (*Kurga*), (*Kad*), (*Banda*), (*Bhiga*), (*Bhiri*), (*Chatta*), with a minimum mesh of $1\frac{1}{4}$ inches.

(*g*) Horse hair noose (*Kalerni*).

It shall be a further condition of every license that the licensee shall be bound to report to the Deputy Commissioner, Tahsildar or an officer of the Fisheries Department any breach of these rules that comes to his notice.

7. Licenses shall remain in force from January 1st to December 31st of each year.

8. All apparatus erected or used for fishing in contravention of these rules may be seized and taken to the nearest police station by any person empowered under section 6 of the Act, to arrest without warrant for offences under the Act, and all such apparatus and all fish taken by means of any such apparatus may be forfeited on conviction of the offender under section 5 of the Act.

9. The Deputy Commissioner may cancel the license of any person convicted of a breach of these rules or under any section of Act IV of 1897.

B.

Fishing by chhips *in the waters of the Beás river and its tributaries.*

1. All fishing by means of *chhips* is prohibited in the waters of the Beás river and ts tributaries, save under license to be granted by the Deputy Commissioner, Kangra.

2. No license to erect a *chhip* shall be granted to any person unless the *khewat* made during the settlement of 1891-92 contains an entry showing that the erection of the *chhip* was recognised by Government at that date.

Provided that no one shall erect a *chhip* in any reach of waters which may be for the time being closed to fishing by a rule notified under section 6 of Act IV of 1897.

3. The Deputy Commissioner shall maintain a register of *chhips* thus entered in such form as the Financial Commissioner shall prescribe.

4. An application for a license to erect a *chhip* must be presented to the Deputy Commissioner, Kangra, not later than July 1st, each year.

5. The application must be signed by the lambardar of the village within the limits of which the *chhip* is to be erected, and by the persons who propose to share as partners in the profits of the *chhip*.

6. The application must state—

(*i*) The name of the stream affected.

(*ii*) The *khewat* number in which it is proposed to erect the *chhip*.

(*iii*) The names of the owners of the land.

7. The license fee shall be Rs. 6 per *chhip* per annum and shall be paid by the partners to the lambardar when he signs the petition: full fees must be paid for any part of a year. Such signature shall be held to be the proof that the fees have been paid. If the application is rejected, it will be returned to the lambardar who will return the fees to the applicants and take their receipts.

8. If it appears that the *chhip* is entered in the register of *chhips*, a license to erect it should, in the absence of any reason to the contrary, forthwith be issued in Form F. 2 annexed, and should be despatched by V. P. P. to the lambardar for the amount of the fees chargeable less 25 per cent. lambardar's commission. The V. P. commission and postage will be paid by Government.

9. The license shall be kept at the water side in charge of the person for the time being fishing the *chhip*.

10. It shall be a condition of every license that the interstices (*darj*) between the lathes (*siru*) of the platform (*chhip*) shall at no portion of the platform from the weir (*lang* or *ban*) to the lower edge of the platform (*chhip*) measure less than 1½ inches and that the platform shall consist of pieces of straight bamboo or other wood properly laid at right angles to the exis of the platform. Every lambardar referred to in rule (5) and every person recognised by the Deputy Commissioner as a Fishing Headman shall be provided with a brass gauge measuring 1⅜ inches square and a *chhip* shall be held not to fulfil this condition if this gauge will not pass through the interstices at any point of the platform.

11. The Deputy Commissioner may cancel a license the holder of which has been convicted of a breach of these rules or under any section of Act IV of 1897.

12. The Deputy Commissioner may order the removal of any *chhip* erected without a license, or any *chhip* which does not fulfil the conditions laid down in rule 10.

13. Licenses shall remain in force from January 1st to December 31st of each year.

C.

Fishing in the waters of the main stream of the Beás below the Akhara bridge and the tributaries on either bank which join it below the Akhara bridge.

1. The rules apply to the waters of the main stream of the Beás below the Akhara bridge and the tributaries on either bank which joins it below the Akhara bridge with the following exceptions :—

(1) The Sarbarri river and its tributaries from the source to the intake of the tahsil Kuhl.

(2) The Sainj river and its tributaries.

(3) The Tirthan river and its tributaries.

2. No person shall fish in the waters specified in rule 1, save under a general license to be granted by the Assistant Commissioner, Kulu, in Form F. 3, annexed to these rules.

3. The charge for a license shall be Rs. 2 per season.

4. It shall be a condition of every license granted under these rules that the licenses holder shall fish only with rod and line, hand line, or casting net, that the minimum mesh for a casting net shall be 1½ inches bar measure (*i.e.*, from knot to knot), and that no hand line shall be armed with more than a single hook. It shall also be a condition that the licensee is bound to report to the Assistant Commissioner, Kulu, the Tahsildar or an officer of the Fisheries Department any breach of these rules that comes to his notice.

5. No trout shall be killed between the first day of November and the first day of March, both days inclusive, provided that nothing in these rules shall prevent the catching of any species at any time of the year by employees of the Fisheries Department acting under the authority of the Head of the Department.

6. All apparatus erected or used for fishing in contravention of these rules may be seized and taken to the nearest police station by any person empowered under section 6 of the Act to arrest without warrant for offences under the Act, and all such apparatus and all fish taken by means of any such apparatus may be forfeited on conviction of the offender under section 5 of the Act.

7. The licenses shall remain in force from 1st January to 31st December of each year.

D.

Fishing in the waters of the Beás river and its tributaries from the source of the Beás to the Akhara bridge, the Sarbarri river and its tributaries from the source to the intake of the tahsil Kuhl, the Sainj river and its tributaries, and the Tirthan river and its tributaries.

1. No person shall fish in the waters of the Beás river and its tributaries from the source of the Beás to the Akhara Bridge, the Sarbarri river and its tributaries from the source to the intake of the tahsil Kuhl, the Sainj river and its tributaries and the Tirthan river and its tributaries in so far as they are situated within the jurisdiction of the Assistant Commissioner, Kulu, except under an "Angling License" to be granted by the Assistant Commissioner, Kulu, who is authorised to determine the number of licenses to be granted at any one time.

2. The charges for a license shall be—

	Rs.
For the season	35
For the month	15

3. It shall be a condition of every license granted under these rules that the maximum number of trout to be taken under the license and the size or weight limit below which no trout may be killed shall be determined at the beginning of each season by the Assistant Commissioner, Kulu.

4. It shall be a condition of every license granted under these rules that the license-holder may fish with rod and line only, using any of the following lures :—

(1) Artificial fly,

(2) Natural fly,

(3) Artificial spinning bait including spoons,

(4) Natural spinning bait,

(5) Artificial worm,

(6) Natural worm :

Provided that no fly shall be tied or bait mounted on any treble or double hook:

Provided further that flies and spinning baits must be mounted each with one single hook. Worms may be mounted on two single hooks,—one at the head, the other at the tail.

It shall also be a condition of the license that the licensee is bound to report to the Assistant Commissioner, Kulu, any breach of the rules that comes to his notice.

5. No fish of any species shall be killed between the first day of November and the first day of March, both dates inclusive :

Provided that nothing in these rules shall prevent the catching of any species at any time of year by employees of the Fisheries Department acting under the anthority of the Head of the Department.

6. All apparatus erected or used for fishing in contravention of these rules may be seized and taken to the nearest police station by any person empowered under section 6 of the Act to arrest without warrant for offences under the Act, and all such apparatus and all fish taken by means of any such apparatus may be forfeited on conviction of the offender under section 5 of the Act.

7. Licenses shall be issued in the Form F. 4 annexed to these rules.

COMMERCE AND INDUSTRY DEPARTMENT.

[Third publication.]

The 19*th May* 1916.

No. 588½.—*Notification.*—The following is published for general information :—

Memorandum of Instructions as to Registration of Claims against enemy subjects and enemy Governments.

The following instructions are issued for the guidance of persons who wish to register their claims against enemy subjects and enemy Governments, with reference to the Press *Communiqué*, dated the 19th May 1916 :—

Claims against Enemy Subjects.

1. The forms prescribed for the purpose of recording claims against enemy subjects are given in the annexed Schedule.

2. *Registration Order " G "* should be used by persons or firms residing or carrying on business in India to make a return of—

(1) Debts owing to them by enemy persons or firms including unpaid dividends and uncashed coupons and unpresented bills accepted by and unpresented cheques drawn by enemy firms or persons.

(2) Bank balances held for them by Banks situated in enemy territory.

(3) Interest which has accrued on items recorded on Registration Order " H."

It should be noted that unpaid dividends and uncashed coupons and unpresented bills or cheques are debts and should be recorded on this form.

3. *Registration Order "H"* should be used for the purpose of making a return of property other than debts, Bank balances and personal luggage—held by enemy persons or firms for persons or firms residing or carrying on business in India.

This form should also be used to record claims against enemy Governments and Municipalities in respect of public securities of those Governments and Municipalities held by the persons making the return. The enemy Government or Municipality is, from this point of view, the debtor, and the fact that the paper or other documentary evidence of title is held in this country makes no difference.

This form should not be used for making other claims against enemy Governments, *e. g.*, in respect of goods or property requisitioned, sequestrated or destroyed by those Governments. The procedure in regard to the registration of such claims is laid down in paras. 6-13 *infra*.

It is essential that the actual value of the property held and not merely its face value should be recorded, and in estimating these values the following rules should be observed :—

(*a*) In all cases where sales in the securities are now taking place, or have taken place since the war began, the prices realised at such sales should be taken as the basis of the valuation.

(*b*) In other cases where no such sales have been made, the value should be the value on the 1st August 1914, or on the latest date previous to the 1st August 1914, on which a price was recorded.

(*c*) In cases where lands, houses or leases are included in the return, the value recorded should be the estimated capital value as on the 1st August 1914, less the estimated capital value of any charges on the same.

4. *Registration Order "F"* should be used to make a return of personal luggage left behind in the enemy country by His Majesty's subjects when travelling home before or since the outbreak of war. Great care should be taken to indicate whether the luggage was given into the charge of some one (*e. g.*, a railway official or hotel-keeper) or was detained against the will of the traveller.

5. Returns in reference to occupied territory should be made on precisely the same forms as those referred to above, except that they will be issued stamped with a rubber stamp with the words "Occupied territory."

Claims against Enemy Government.

6. Claims against enemy Governments in respect of public securities of those Governments should be recorded in Registration Order "H" as indicated in paragraph 3 *ante*. As regards other claims against enemy Governments, such as those in respect of property requisitioned, sequestrated or destroyed by those Governments, a statutory declaration verifying the claim should be sent. The declaration must be in the form prescribed under section 7 of the Indian Oaths Act, 1873.

7. If the claimant was born within His Majesty's dominions, the declaration should state the date and place of his birth. If the claimant was born outside His Majesty's dominions but derives British nationality from his father or grandfather, the declaration should state the date and place of birth of such father or grandfather.

If the claimant is a naturalized subject of His Majesty the declaration should state the date of his naturalisation and his previous nationality.

8. If the claimant is a Company incorporated under any law for the time being in force in any part of the British Empire, the declaration should state the date of incorporation.

If all the persons holding shares or otherwise interested in the Company are subjects of His Majesty the declaration should state that fact.

If some of the persons holding shares or otherwise interested in the Company are aliens, the declaration should state the nationality of those persons and the nature of their interest in the Company.

9. Full particulars of the property in respect of which the claim is made should be set out in the declaration or in a schedule attached thereto.

10. The declaration should state the value of the property and the amount of the claim.

Where the value of the property can be proved by documentary evidence, copies of those documents should be attached to the declaration.

Where documentary evidence of the value of the property cannot be adduced, the evidence of the claimant should, so far as it is possible to do so, be corroborated by that of other persons.

11. The declaration should state the facts with regard to the requisitioning, sequestration, or destruction of the proprety so far as they are known to the claimant.

If the claimant holds any receipts or other documentary evidence of the seizure of his property, copies of such documents should be attached to the declaration.

12. The declaration should also state that, at the date when the property was requisitioned, sequestrated or destroyed, the claimant was the absolute owner thereof.

13. If the claimant, or any person on his behalf, has received any payment in respect of the property, particulars, thereof should be set out in the declaration.

General.

14. In making these returns, the term "enemy" should be understood to mean a person of whatever nationality, residing or carrying on business in an enemy country, and the expression "enemy country" should be taken to include territory for the time being in hostile occupation. A British subject who resides or carries on business in enemy territory is, therefore, for the present purposes, to be considered an enemy, while a person of German, Austrian, Turkish or Bulgarian nationality residing in this country, even though interned, is not an enemy from this point of view.

With regard to the date to be selected for the making of the return, this should be the outbreak of the war, that is to say, midnight of 4th August 1914 for Germany and Austria-Hungary, 5th November 1914 for Turkey, and 15th October 1915 for Bulgaria With regard to territory occupied by enemy forces, the date should be the date of occupation as nearly as can be ascertained.

15. It must be clearly understood that the action of the Custodian of Enemy Property or other officer appointed for the purpose will be confined to entering upon the record claims of which particulars are supplied to him, and that it in no way commits His Majesty's Government either to responsibility for the correctness of the claim entered or to taking any action on the conclusion of hostilities or otherwise for the recovery of the debts or property in question. But it is hardly necessary to state that it is in the interest of the creditors that the returns are asked for, as giving important data for the safeguarding of that interest.

H. Bott, I.M.S., of the additional charge.

No. 32-*Medl.*-5.—*Notification.*—The following correspondence on the subject of improving the Haj Pilgrim traffic is published for general information:—

No. 196, dated Simla, 13th April 1916.

From—The Hon'ble SIR EDWARD MACLAGAN, K.C.I.E., C.S.I., I.C.S., Secretary to the Government of India, Education Department,

To—The Secretary to the Government of Bombay, General Department.

WITH reference to this Department endorsement No. 1148, dated 20th June 1914, I am directed to forward for the information of the Governor in Council a copy of the opinions received from the various Local Governments on the proposals made in your letter No. 3097,

dated 21st April 1914, regarding the conduct of the Haj Pilgrim Traffic and to remark as follows regarding the various suggestions abstracted in paragraph 19 of your letter.

2. It will be seen that the Local Governments have arranged for the formation in many districts of Haj Committees and other similar agencies and that in several provinces a provincial committee has also been organised. It is understood that these committees already work to a large extent in conjunction with the Bombay Haj Committee and it will rest with this latter committee to obtain from the local and provincial committees the information and assistance contemplated in paragraph 12 of your letter of 21st April 1914. In case of difficulties the help of the Local Governments would doubtless be asked for through the medium of the Governor in Council.

3. The reorganisation of the Pilgrim Department under a Deputy Commissioner of Police having been separately carried out by the Bombay Government, no further orders are now required in this connection.

4. As regards the various proposals made for the amendment of the Pilgrim Ships Act, the Protection of Pilgrims Act and the rules under the former enactment, I am to note as follows—

(*i*) The proposals regarding the dates of sailing made in paragraph 19 III (*d*) of your letter have been met by the passing of Bombay Act V of 1915;

(*ii*) Those regarding the minimum space per pilgrim will be settled in connection with the recommendations of the Life Boats Committee;

(*iii*) Those regarding the minimum tonnage, the time limit for the voyage and the general improvement of the health and comfort of the pilgrim (except so far as these are covered by this Department's notifications No. 141, dated 14th March 1916, and No. 58, dated 2nd February 1916) have under this office letter No. 1436, dated 15th December 1915, been deferred till after the war.

5. Regarding the further proposals made in your letter I am to make the following observations:—

(*i*) The constitution of an Agency of the Bombay Haj Committee at Jeddah is a matter which must necessarily await the conclusion of the war.

(*ii*) Although there are indications that subscriptions to the proposed Repatriation Fund have reached the Bombay Haj Committee, the amounts subscribed do not appear to be large, and unless the Bombay Government report that the sums received approach anything like a lakh of rupees the offer of an equivalent lakh of rupees from Government must be considered to be in abeyance.

(*iii*) The proposal to impose on shipping companies the obligation to issue on demand return tickets costing not more than 25 per cent. in addition to the single fare is one that the Government of India are unwilling to carry out in the present abnormal circumstances, and so long as Messrs. Turner Morrison & Co. do not raise their rate for return tickets above that charged last year (*viz.*, Rs. 125) or alter the terms on which refunds are given, the Government of India would for the present leave it open to pilgrims to take the compulsory return tickets issued by Messrs. Turner Morrison & Co., or proceed on the single tickets available from other firms. The Government of India recognise the difficulties of the present situation and their effect on the market rates for passages, but in view of the highness of the existing rates charged by Messrs. Turner Morrison & Co., and the discontent which may rise in those rates would entail they trust that no change will be made by that firm in respect of the fares to be charged this year. As a departure from last year's rates may entail a reconsideration of the attitude of non-interference which the Government of India would desire to adopt, I am to request that the intention of the firm in this connection may be ascertained and if any change is contemplated it may be reported to the Government of India with the recommendations of the Governor in Council.

No. 3097, dated Bombay Castle, the 21st April 1914.

From—J. L. RIEU, Esquire, I.C.S., Secretary to the Government of Bombay, General Department,

To—The Secretary to the Government of India, Department of Education (Sanitary).

I AM directed to refer to the telegram from the Government of India, No. 689 (Sanitary), dated the 28th April 1913, requesting that the Government of Bombay will take steps to ascertain publicly the feeling of the Muhammadan community of the Presidency, and especially of the Haj Committee, with regard to the proposals relating to the conduct of the Haj pilgrim traffic contained in their letter No. 2896, dated the 11th April 1913.

Sany. A., June 1913, Nos. 5-49.

2. In reply I am to submit, for the information of the Government of India, the accompanying synopsis of the opinions elicited through the Collectors and Political Agents and, in the case of Bombay City, through the Commissioner of Police, from the various Musalman Anjumans and Associations and the local leaders and influential members of the Muhammadan community in the several districts and political agencies of the Presidency and in Bombay itself. The synopsis contains also a statement of the views of the Haj Committee.

3. I am to state that, after the opinions thus obtained had been considered, this Government thought it advisable to hold an informal conference with a small number of the leading representatives of the Musalman community for the purpose of the frank and full discussion of the whole question. The conference was held on the 31st July last under the presidency of the Hon'ble Mr. Claude Hill. I am to submit herewith a copy of the notes taken of the discussion.

4. In accordance with the intention expressed at the close of the proceedings of the Committee, the opinions elicited in the course of the discussion, together with those referred to in paragraph 2 above, were communicated to Khan Bahadur Syed Shamsuddin Syed Mian Kadri, Collector of West Khandesh, who had recently vacated the post of Oriental Translator to Government and who may be regarded as adequately representing the more enlightened and advanced section of the Muhammadan community of the Presidency proper, with a request that he would state his personal views with regard to the several objections urged against the proposals of this Government and would make any suggestions or recommendations that he might think proper for dealing with the problem of the Haj pilgrim traffic. I am to submit for the information of the Government of India a copy of the note which has been received from him in response to this reference.

5. On a consideration of the recommendations embodied in Mr. Kadri's note this Government entered into communication with Messrs. Turner, Morrison and Company with a view to ascertaining whether they were prepared to fall in with the principal feature of those recommendations, namely, the substitution of an optional for a compulsory return ticket system, combined with a tariff in which the rates for the return passage were so preponderatingly favourable as to provide a very strong inducement to the pilgrims to purchase return tickets, and, if so, what scale of maximum rates they were prepared to quote. The opportunity was also taken of discussing with them the more important of the objections urged against the original proposals with a view to discovering what, if any, means they could suggest for overcoming the difficulties on which they were based.

6. The representative of Messrs. Turner, Morrison and Company, with whom these questions were discussed, was not in a position to give any definite reply regarding the new proposals until he had referred the matter to his home firm. The Governor in Council has now, however, received the firm's reply to these proposals, and, having also had an opportunity of watching events connected with the recent outward pilgrim season, is in a position to present his views on the objections that have been urged against the original scheme and to formulate certain revised proposals as the result of the discussions that have taken place.

7. In the first place I am to observe that the most striking point which emerges from the large body of opinion collected from all parts of the Presidency is the apparent absence of any general or emphatic opposition to the principal of the compulsory return ticket system. Muhammadan opinion on this side of India would appear to have undergone a very considerable transformation in regard to this question since the discussions of 1908. Another noteworthy point is that the opposition to the grant of a monopoly of the pilgrim traffic to a single shipping company, and that, too, one controlled by a European firm, is apparently by no means so strong as might have been anticipated. On the whole, it may be said that, so far as any conclusions can be formed from these opinions, the original proposals of this Government have met with a more favourable reception than could have been expected. The points of objection,

Sany. A., January 1908, Nos. 54-5.

where there is objection, have reference for the most part to matters of detail, such, for instance, as the alleged costliness of the rates proposed, the shortness of the period during which a speedy return passage is guaranted, and the absence of provision for the refund of the value of the return half of a ticket in the case of pilgrims returning to India by another route. In fact the objections are, generally speaking, such as could, to a considerable extent if not entirely, be met by a modification of the scheme in certain of its subsidiary features.

8. This view of the attitude of the Muhammadan community towards the scheme must, however be largely discounted by the resultt of the conference with its leading representatives, which give proof of so determined and uncompromising an antagonism to the main principle underlying the scheme, namely, that of compulsion in the matter of return tickets, that it would be in vain to expect that the adoption of the scheme, even if the practical difficulties incidental to the latter could be met in an entirely adequate and satisfactory fashion, should proceed without incurring the danger of provoking considerable popular opposition and resentment. This antagonism may, not improbably, be due to influences originating outside this Presidency and permeating Muhammadan opinion as a consequence of recent events elsewhere; but it is nevertheless a factor in the case which it would not be wise to ignore. Further, the Governor in Council fully appreciates the fact that it is not safe to draw any conclusions, applicable to the whole of India, from the attitude of the Muhammadan community in this Presidency alone. Recent experience shows that causes for excitement which are susceptible of control in this Presidency are more liable to disturb the community elsewhere; and the Bombay Government recognize that the present is not a time when it is desirable to introduce measures which can by any possibility be misunderstood.

9. Moreover, it has to be admittad that the presence every year in the ranks of the departing pilgrims of a every appreciable proportion of persons who either never return to India from the Hedjaz, or return by an entirely different route, introduces another factor of real difficulty in the consideration of the problem. In view of the number of these it is impossible to ignore their case. At the same time any means that could be devised for meeting it, by a system of refunds or otherwise, would create conditions which would facilitate the evasion of the restrictions which the scheme seeks to impose, and would result in the frustration of its essential object. The discussion which has taken place with Messrs. Turner, Morrison and Company's representative has not led to the suggestion of any expedient which could be regarded as satisfactorily surmounting this serious practical difficulty.

10. In the circumstances described in the foregoing paragraphs it now remains to consider what measures, if any, can be taken, in substitution for, or modification of, those advocated in my letter No. 2896 of 11th April 1913, to secure the desired improvement in the conditions of the pilgrim traffic. In the first place I am directed to say, in explanation of the withdrawal of certain of the proposals formulated last April, that those proposals have secured one object, in that they have aroused an interest in a subject which has long suffered from complete public apathy. Further, they have had a most stimulating effect upon the shipping community. Competition for the traffic, though not very effective as yet from rivals of Messrs. Turner, Morrison and Company, has been brisker than was anticipated or has been the case for years past. The foreshadowing of the grant of a monopoly has no doubt been the cause of this; but, whatever the cause, the result has served to disclose the fact that, whether there be fixity of rates and compulsory return tickets or not, the shipping companies catering for the traffic will be compelled, in the ordinary course of business, to supply improved vessels before long, and this circumstance, almost as much as the political factor, has operated to modify this Government's views, not only in respect of the question of making return tickets compulsory, but also as regards the grant of a monopoly to any one shipping firm. In the light of the discussions which have resulted from my letter of the 11th April 1913, and of the experience of the last pilgrim season, I am to say that, provided that certain changes are effected which will be dealt with at length below, and on the understanding that the formation of Haj Committees in all the provinces of India is pressed forward in a manner calculated to secure concrete results, this Government thinks that it will be possible to effect real improvement in the conditions of the pilgrim traffic without resort either to a monopoly or to compulsory return tickets.

Sany. A., June 1913, Nos. 5-49.

11. The objects aimed at in the preceding discussions have been the following :—

(i) The creation of efficient committees throughout India to organise the pilgrimage from the several provinces.

(ii) Greater efficiency in the actual organization of the pilgrimage at the port of departure.

(iii) The improvement of the conditions in which the voyage from India to the Hedjaz and back is performed.

(iv) The establishment of facilities at Jeddah for the Indian pilgrims on return from the holy places pending re-embarkation for the return journey.

(v) The fixation of the rates of passage money, by means of the grant of a monopoly for a term of years.

12. In regard to the first of the objects specified in the above paragraph I am to invite the attention of the Governor-General in Council to my letter No. 978, dated the 4th February 1913, and to the remarks of the Hon'ble Sir Fazulbhai Currimbhai as reported in the precis of the proceedings at the conference referred to in paragraph 3 above. As pointed out also in paragraph 10 of the memorandum drawn up by Khan Bahadur Syed Shamusddin Kadri, the organization of businesslike committees at the head-quarters of each province, with, if possible, sub-committees at other important centres and an agency at Jeddah, is an essential preliminary to any real improvement in the lot of Indian pilgrims. The Pilgrim Department in Bombay, consisting of the Commissioner of Police and his staff and the Protector of Pilgrims, is at present able to deal with pilgrims only as they arrive without having the benefit of any reliable preliminary notice of the extent to which its services will be required. It has to meet emergencies on the spur of the moment as best it can, and, when the rush of pilgrims is at its height, it is almost impossible for the Department to cope adequately with the work or to deal effectively and promptly with the pilgrims. The formation of efficient committees up-country, in touch with the local Musalman population, would not only render the task of the Bombay authorities easier, by communicating to the latter information as to the numbers of pilgrims and the dates of their departure, but would enable the authorities to organize departures in advance and so prevent the congestion which is, at present, so difficult to cope with at the busiest period of the season. The Governor in Council, I am to say, cannot too strongly emphasize his conviction that the organization of such committees is the first essential of any real improvement in the conditions of the pilgrimage to the Hedjaz, and he desires again to urge upon the Government of India the grave importance of pressing upon Local Governments the necessity of taking early steps in this matter.

13. The steps necessary to render the actual organization of the pilgrimage more efficient at the port of embarkation may be briefly touched upon here, for the information of the Government of India, though they are matters for detailed arrangement hereafter and can be given effect to without troubling the Governor-General in Council.

At present the pilgrim traffic of Bombay is controlled by four separate department or agencies :—

(1) The Port Officer, who surveys the pilgrim ship.

(2) The Port Health Officer, who disinfects the ship and baggage and inspects pilgrims and medical stores on the ship.

(3) The Police, who look after the interests of the pilgrims while in Bombay, supervise the sale of tickets, and control the traffic at the time of embarkation ; with the assistance of the Municipality they also arrange for the vaccination of pilgrims.

(4) The Customs Department, who measures the ship, inspect the fittings and count the pilgrims.

Now all these duties, except—

(a) the survey of the ship by the Port Officer for seaworthiness, and

(b) the disinfection of the ship and baggage and the medical inspection by the Port Health Officer,

could equally well, and with a resultant increase in smoothness of working and co-ordination of functions, be carried out by a single authority which should, in the opinion of the Governor in Council, be what has been referred to above as the Pilgrim Department, namely, the Commissioner of Police and his officers and the Protector of Pilgrims.

The Governor in Council has now under consideration specific and detailed proposals for the reorganization on this basis of the work connected with the pilgrim traffic. He is not as yet in a position to pass final orders in respect to them, but, as he approves the general principle of concentration of authority which underlies them, I am to communicate, for the information of the Government of India, the main features of the scheme which they embody.

The principal duties which are susceptible of being readily transferred to the police are those under (4) above which are now performed by the Customs Department. Of these the measurement of the ship and the inspection of its fittings have hitherto been carried out by one of the Assistant Collectors and an Inspector, while the counting of the pilgrims on embarkation as required the services of an Inspector and two

European preventive officers. In substitution for this agency, which deals with duties which do not call for any special technical knowledge, it is proposed to create an additional appointment of Deputy Commissioner of Police who would replace the Commissioner of Police as *ex-officio* President of the Bombay Haj Committee, and would, subject to the general control of the Commissioner, be responsible for all the work in connection with the pilgrim traffic now performed by the Police and the Customs Departments. Apart from his pilgrim duties this officer would also be placed in charge of the Dock, Water, and Government Dockyard Police, thus being responsible for the whole police administration of the Harbour and Docks, a responsibility which the new dock extensions will in the immediate furture very largely increase. With regard to the agency of a more subordinate character required for the execution of the other duties referred to above it is contemplated to add to the additional staff already proposed for policing the new docks two sergeants who will, during the pilgrim season, be specially detailed for pilgrim work, and at the same time to raise the pay of the present Protector of Pilgrims, now only Rs. 150 a month, to Rs. 250 a month and place him directly under the orders of the new Deputy Commissioner. There will thus be constituted a single self-contained organization which will be entrusted with the sole responsibility for all those duties connected with the pilgrim traffic which are not of a purely technical character. At the head of this organization will be the new Deputy Commissioner of Police, who, as President of the Haj Committee, will be in close touch with that advisory body and in a position to obtain its advice and guidance in all matters relating to the welfare of the pilgrims and the organization of the pilgrimage generally. The more essentially police duties of this officer will be of such a character as to bring him in constant relation with the interests and forces which most potently influence the conditions of the pilgrim traffic. For the present system of divided responsibility, necessarily involving lack of definition and continuity of policy and of co-ordination of effort, there will thus be substituted management by a single expert and specialized department, which, in course of time, as it acquires experience and develope increased efficiency, may be expected to be instrumental in bringing about very material improvements in the arrangements for the transit of the pilgrims through Bombay and their embarkation for Jeddah and in the conditions in which they perform the journey to and from that port.

14. The improvement of the conditions in which the voyage to and from the Hedjaz are performed involves alterations in the rules. It was to render possible—or at all events equitable—the exaction of more stringent requirements from shipping companies that the monopoly system with fixity of rates and return passages was recommended in my letter of April 1913. As has already been indicated, there is now (partly as a consequence of those proposals) reason to hope that the desired objects can, to a considerable extent, be attained without resort to either of those measure. The shipping company with whom this Government has been conducting negotiations (Messrs. Turner, Morrison and Company) are committed to the Red Sea traffic. The ships which they took over from the Bombay-Persia Steam Navigation Company are old boats which must, within a very short period, be replaced; and their own interest in retaining the cargo traffic will compel them to replace them with better, larger and faster steamers. These circumstances discount, to a large extent, the value of the undertaking, offered by them in return for the monopoly, to provide a better service. Finally, competition (again, no doubt, in part as a consequence of the proposals fromulated by this Government) has been brisker this year. In short, it is quite possible for Government now to exact better ships, more space, and greater speed quite apart from any question of concession to any individual company.

15. The Governor is Council is prepared to recommend immediate action in the following ways :—

(a) The question of the provision of more space per pilgrim on pilgrim ships has come up and will be settled automatically in connection with the deliberations of the Life Boats Committee.

(b) The requirement of better and faster ships can and should be secured by a change in Rule 4 of the Pilgrim Ships Rules which at present prescribe a minimum of only 500 tons.

(c) The provisions of the Protection of Pilgrims Act dealing with the notification by the shipping companies of the dates of sailing of their ships require to be strengthened. A definite obligation should be imposed on the companies to despatch their ships on the dates notified. The rules under the Pilgrim Ships Act dealing with certain matters which affect the interests, health and convenience of the pilgrims should be made more effective and added to in some respects.

The development of shipping coupled with the reasons advanced in paragraph 14 *ante*, justifies the raising of the minimum of size and speed which was fixed nearly 20 years ago; and the Governor in Council is advised that it is possible and legitimate immediately

to raise the minimum tonnage from 500 to 2,000 with a warning that after 5 years it will be further raised to 2,500. I am to forward, as an indication of the reasonableness of this requirement, copy of a statement which His Excellency in Council has caused to be prepared, of the ships recently engaged in the traffic which shows that, of 24 ships only 9 were below this standard.

It has not escaped attention that an alteration of the rules in the direction of requiring a higher standard in respect to speed and tonnage may be made the pretext upon which shipowners will endeavour to charge higher rates of passage money; and some of the leaders of the Muhammadan community in Bombay have suggested that, if there is good ground to apprehend that this will be the result, the mimimum, at all events for tonnage, should be placed rather lower. Enquiries made from sources other than the shipping companies lead the Governor in Council to the belief that this fear is not well grounded and that an increase in the minimum tonnage requirement to 2,000 though it may have the effect of a protest on the part of shipowners, will, owing to competitions, fail to affect the price of tickets in any way. As already indicated, few of the ships engaged in the traffic have a lower tonnage, and these are being rapidly replaced.

As regards speed, Rule 4 of the Pilgrim Ships Rules prescribes a minimum speed as well as size for ships sailing in the monsoon. The requirements as regards speed are as antiquated and inadequate as those regarding size. There are difficulties and drawbacks in the way of requiring ships to be certified as "capable" of steaming so many knots. In practice they are often found to be capable of doing so only for a few hours. His Excellency in Council is advised that the most satisfactory form in which to place this requirement is to demand that a vessel shall contract to reach Aden in so many hours and to require a deposit to be made or a bond to be given for the fulfilment of the contract.

With regard to (c) I am to invite attention to my letter No. 3098 of to-day's date with which certain specific proposals for the amendment of the Act and Rules above referred to in the direction indicated are being submitted for the approval of the Government of India. It is believed that the provisions enacted by these amendments, will, among other things, introduce a very material improvement in the conditions under which the pilgrims purchase their passage tickets and effect their actual departure by sea for Jeddah. The present state of the law admits of the shipping companies' advertising with impunity sailings which they know they cannot possibly adhere to and rates of passage money which they have no intention of accepting it, by thus inducing a rush of applications, they are enabled subsequently to raise them. These unscrupulous manœuvres on the part of the companies are a source of intense harrasment and annoyance to the pilgrims and of serious anxiety and embarrassment to the authorities charged with their care and supervision during their stay in the port of departure.

16. The fourth object specified in paragraph 11 above, namely, the establishment of facilities at Jeddah, is dependent for its efficient realization upon the creation of the Haj Committees dealt with in paragraph 12. Under present conditions the Consul at Jeddah is the only effective agent for watching over the interests and welfare of pilgrims disembarking and re-embarking. He does what is possible to secure for them fair treatments when once they are ashore and to facilitate their departure. But in the numerous cases which annually occur of pilgrims reaching Jeddah in a destitute condition on the return journey he is practically unable to do more than represent their case, as last year, to the Governmant of India or of Bombay. He has no general fund at his disposal for their repatriation.

It was this aspect of the case which drove the Government of Bombay in the interests, of the credit of the Musalmans of the Indian Empire, to propose a system of compulsory return tickets; and it is this problem for which I am now to propose an alternative solution.

It is believed that certain charitable Musalmans occasionally proceed to Jeddah partly if not mainly, for the purpose of helping indigent pilgrims, not only with funds, but also with advice and direction. Such unorganized charity can of itself do but little, but it seems to point out a direction in which proper organization can convert casual relief into a systematic alleviation of a growing scandal. With this end in view the Governor in Council proposes that there should be established, at Jeddah, a British Indian Agency affiliated to (or rather emanating from) the Bombay Haj Committee, and working in conjunction with the British Consul, for the express purpose of effecting the repatriation annually of indigent pilgrims at the close of the pilgrim season. The Musalman community in Bombay recognize the grave discredit, which is reflected on all Indian Musalmans by the recurring scandal. They have shown, however, that there are difficulties in the way of, and strong opposition to, a system of return tickets. There is reason to believe that they realize (and are willing to help in discharging) the responsibility of the community for co-operating with Government in devising and financing measures of relief. Funds, or rather a fund, will be necessary to render efficient the working of the proposed British Indian Agency; and His Excellency in Council desires to suggest, for the

consideration of the Government of India, that such fund shall be formed by a non-recurring grant from Imperial revenues not to exceed, at present, Rs. one lakh, conditional upon the Musalman community throughout India raising at least an equal sum. It may reasonably be hoped that the community will be able to raise a sum very largely in excess of a lakh; but even assuming, for a moment, that it failed to respond generously, a Repatriation Fund of two lakhs, yielding an income of Rs. 8,000 approximately would to a very large extent solve the problem. This fund would be administered primarily by the Haj Committee in Bombay, whose annual grant, varying according to the necessities of the case, would be disbursed by the Jeddah British Indian Agency under the control of the British Consul. It is possible that the Bombay Haj Committee acting through the proposed Pilgrim Department could successfully arrange each year with steamship companies for the carriage of destitute pilgrims at special rates; but it is in any event quite certain that an organization of the character described, working in conjunction with a local committee in Jeddah controlled by the British Consul, and possessed of a nucleus fund of the character described, would be in a strong position to end the present unsatisfactory condition of affairs; and I am to express the hope that the Government of India will view the matter favourably and see their way to make a grant of one lakh of rupees towards the fund, on the condition that the Musalman community collect at least one lakh of rupees within a reasonable period.

I am to add that the Governor in Council has not overlooked the probability that as soon as it is known that a Repartriation Fund exists, many pilgrims who could really afford the return ticket will represent themselves as being indigent. It is, however, hoped that the Consul, by associating with himself certain of the respectable Indians, whether permanently or only temporarily resident in Jeddah, will be able to acquire a knowledge of the circumstances of such persons, so as to be in position to resist such claims when not genuine. At all events the Governor in Council thinks the experiment to be well worth a trial, and has ascertained that, pending the discovery of a better method, the Bombay leaders of the Musalman community concur in this view.

17. The abandonment of the proposed system of compulsory return tickets and the substitution of the proposals detailed in the foregoing paragraphs still leave it desirable to encourage as far as practicable the purchase by pilgrims of return tickets; and for this reason the Governor in Council considers that it should be made a rule that pilgrims who desire to purchase a return ticket shall be entitled to receive one at a certain fixed ratio in excess of the cost of the single ticket.

In the course of the negotiations with Messrs. Turner, Morrison and Company on the subject of the fixity of maximum rates of passage money, single and return, that firm expressed its willingness to have the following rates fixed. (It should be explained that their proposal was made on the assumption that they should have a monopoly of the traffic):—

	Single Ticket.	*Return Ticket.*
	Rs.	Rs.
(*a*) From 26th September to 15th October ...	120	150
(*b*) From 27th August to 25th September ...	100	130
(*c*) From 1st August to 26th August ...	90	120
(*d*) Before 1st August	75	100

It will be seen that the proposed rates contemplated conveying pilgrims on the return journey (on return tickets) at rates only 25 per cent. in excess of the single ticket; and the Government of Bombay propose that the rule should fix this rate, coupled with a guarantee to refund the excess in the event of the pilgrim dying or failing to utilize it. The latter provision will require safeguards, and the guarantee would be enforced only on a representation certified to by the Haj Committee.

18. The attainment of the fifth object (paragraph 11 *ante*) originally aimed at by this Government must, in the opinion of His Excellency in Council, be foregone. He does not disguise from himself that the fixation of passage rates was, in many ways, the most important object and the one which would have benefited the pilgrims more materially than any other. The Muhammadan community, as represented by their leaders has, in the opinion of the Bombay Government, deliberately preferred to sacrifice a great material boon to the pilgrims for the sake of a sentiment. It may be doubted whether any of the benefits aimed at by the present alternative proposal will, in the eyes of the pilgrims, be of the value which fixed fares and certainty of return would have possessed for them; and the Governor in Council has therefore out of deference to the views expressed, abandoned, with reluctance, the monopoly proposals coupled with the fixing of passage rates.

19. It will be convenient to summarize here the substance of the proposals contained in this letter.

They are, briefly stated, as follows :—

I. The creation of an agency, embracing every local centre from which pilgrims make their departure, for the proper control and organization, in India, of the pilgrimage. This agency will consist of—

(a) the present Bombay Haj Committee working as a board of advice to the executive official referred to in proposal II and controlling the Repatriation Fund referred to in proposal IV.

(b) a Provincial Haj Committee (assisted, where necessary, by local sub-committees) constituted for each province in India on the lines of the organized Bombay Committee ; such provincial committees to be in close communication with the Bombay Committee for the purpose of keeping the latter informed as to the numbers and dates of departure of pilgrims leaving from their respective areas.

II. The constitution of a re-organised Pilgrim Department under a Deputy Commissioner of Police which will discharge the functions connected with the arrangements for the embarkation and transport of pilgrims which are now divided between the Police and the customs authorities, the object in view being to secure greater efficiency in the actual organization of the pilgrimage at the port of departure.

III. The amendment of the Pilgrim Ships Act, the Protection of Pilgrims Act and the rules under the former enactment with a view to the improvement of the conditions in which the pilgrims effect their departure from India and perform the voyage to Jeddah and back; these amendments being in the direction of—

(a) the prescription of a higher minimum of space per pilgrim on board ship.

(b) the raising of the minimum of tonnage for pilgrim ships from 500 to 2,000, and eventually 2,500 tons,

(c) the fixing for each pilgrim of a contract time limit for the voyage from the port of departure to Aden, excess over which will render the shipping company liable to the forfeiture of a deposit previously exacted,

(d) the strengthening of the provisions with regard to the notification of the date of sailing of pilgrim ships, and the imposition on the shipping companies of a definite obligation to despatch their ships on the date notified,

(e) the introduction of improvements in certain matters affecting the health and convenience of the pilgrims.

IV. With a view to the establishment of improved facilities for securing the return of Indian pilgrims from Jeddah :—

(a) the constitution at that port of a British Indian Agency of the Bombay Haj Committee working in conjunction with the British Consul;

(b) the organization of a Repatriation Fund composed of subscriptions collected from the Muhammadan community in all parts of India and of an Imperial non-recurring grant, not exceeding one lakh, equal to the total amount thus collected, the latter grant to be advanced immediately on the understanding that the equivalent amount will be subscribed within a reasonable time;

(c) the administration of this fund by the Bombay Haj Committee, the allotments made from time to time from its proceeds being disbursed by the Agency at Jeddah under the supervision of the British Consul;

(d) the imposition on the shipping companies of an obligation to issue, on demand by pilgrims, return tickets at a cost representing an excess of not more than 25 per cent. over the cost of the single ticket, such return tickets carrying a guarantee of the refund of the excess in the event, which would be certified to by the Haj Committee, of the death of the holder or the non-utilization of the return half.

20. In conclusion I am to observe that the proposals herein put forward have been discussed with prominent leaders of the Muhammadan community in the Bombay Presidency and, subject to the remarks contained in paragraphs 15 and 16, meet with general acceptance. These gentlemen also expressed confidence that a far larger sum than one lakh of rupees can be

collected from the Musalmans throughout India, and suggested that no limits should be placed upon the amount up to which (*vide* paragraph 16) the Government of India would contribute an equivalent. I am to say, however, that while the Repatriation experiment is under trial, it is the opinion of the Governor in Council that the State contribution should have a fixed limit though it is to be hoped that private contributions by wealthy Musalmans will greatly exceed that limit.

No. 2779 S. (Home—Medl. & Sany.), dated Simla, 31st August 1915.

From—A. B. KETTLEWELL, Esquire, I.C.S., Additional Secretary to Government, Punjab,

To—The Secretary to the Government of India, Education Department.

I AM directed to refer to the correspondence ending with your letter No. 1136—1147, dated the 20th June 1914, formulating for opinion certain proposals for the improvement of the Haj pilgrim traffic, and in reply to convey the following remarks of the Lieutenant-Governor on the questions raised in your letter.

2. Local Muhammadan opinion has again been consulted on the revised proposals put forward by the Bombay Government through the medium of leading gentlemen and religious associations, and their replies indicate that on the whole the proposals in outline have been well received. In particular the decision to drop the proposals for compulsory return tickets and for granting a monopoly to a single company at fixed maximum rates has met with universal approval and it is now clear that these proposals had aroused suspicion and mistrust of the intention of Government. The Lieutenant-Governor, however, does not think that, apart from the educated portion of the community, which is in a position to understand and appreciate the motives of Government and the interests at stake, the general mass of Muhammadans in the province regard the present proposals with any enthusiasm and he has little doubt that the bulk of those affected would infinitely prefer to see things left as they are. There is undoubtedly a strong undercurrent of sentiment in the more backward strongholds of Muhammadanism in the province opposed to any form of interference in the Haj traffic for the reasons, which have already been outlined in paragraph 2 of Mr. Thompson's letter No. 160, dated the 14th February 1914, to your address, and the approval with which the present proposals are viewed springs, His Honour thinks, from the feeling of relief that the previous restrictions have been abandoned rather than from any genuine satisfaction at the improvements now devised for regulating and facilitating the traffic to Mecca.

3. The first proposal put forward by the Bombay Government deals with the question of the creation of a central agency in Bombay working in conjunction with local branches in the various provinces for the control and organization of the pilgrimage. With regard to this the trend of opinion in this province is strongly to deprecate anything in the nature of official or secular control in connection with these committees. Thus the proposal to employ a paid secretary for the local committees is generally opposed, and the suggestion is generally made that whatever work is required of these committees should be undertaken by the local Anjumans. In one quarter indeed there is some opposition to the formation of a provincial committee. The reason for this attitude is not far to seek. Interference with religious custom and usage is anything but welcome even in the guise of the offer of material benefits, but it is felt that, if such interference is inevitable, it had better be exercised through the medium of purely religious associations preferably the existing Anjumans.

4. Haj Committees have been formed in fourteen districts of the province, but they appear to have done little or no practical work of any value. In most districts the local Anjumans have either undertaken or are prepared to undertake the duties required of a Haj Committee, and in so far as one of their proposed functions connotes the discouragement of indigent persons from performing the pilgrimage it is better that they should be invited to act as intermediaries in a matter which closely touches religious sentiment. The Lieutenant-Governor would accept this view and work through these agencies which are to be found in most districts unless and until they were proved to be inadequate for the purpose in view. Special committees formed for the purely business purpose of conducting a Haj agency would, even though composed of leading Muhammadans, be more than likely to encounter the difficulties inherent in religious prejudice and to be regarded as obstructing the realisation of a cherished religious aspiration.

5. The Lieutenant-Governor has no remarks to make on the second proposal of the Bombay Government for the constitution of a reorganised pilgrim department in Bombay under a Deputy Commissioner of Police, for this is a matter in which other provinces have little concern, but he thinks that the alternative method of relieving congestion in Bombay itself by the opening of other ports to the traffic should not be overlooked. Some of the

bodies consulted are of opinion that it is the accumulation of pilgrims in Bombay that is responsible in part at least, for the high fares from that port and the heavy expenses which pilgrims are put to before embarkation. As regards the amendments proposed to the Pilgrims Acts with a view to ensuring improvements in the conditions, under which pilgrims perform the voyage to Jeddah and back, general uneasiness is expressed that the conditions imposed, however desirable in themselves, will inevitably result in an increase in the fares charged, and it is pointed out that better accommodation and more speedy voyages are matters af indifference to the great majority of the Hajis. His Honour feels that this apprehension is not entirely without foundation, and, if this should prove to be the case, the number of indigent pilgrims stranded at Jeddah is likely to increase rather than diminish. The improvements and facilities proposed, however, are obviously desirable, and His Honour thinks that they should ultimately be carried through even at the risk of creating some dissatisfaction on this score.

6. Of the remaining proposals of the Bombay Government no objection has been raised to the proposed constitution at Jeddah of a British Indian Agency of the Bombay Haj Committee working in conjunction with the British Consul, and there can be no doubt that such an agency, if created, would be exceedingly useful and prove of great assistance in dealing with the problem of stranded pilgrims.

The proposal to form a repatriation fund has been generally welcomed, but many associations have expressed the view put forward in paragraph 4 of Mr. Thompson's letter of 14th February 1914 that details should be obtained showing the distribution of the destitute pilgrims by provinces and districts. They doubt whether any large number of destitute pilgrims belong to the Punjab, and if such is the case they consider that the publication of the figures would give point to the appeal for local subscriptions on their behalf. The criticisms offered centre in the questions whether the institution of such a fund will not materially increase the number of indigent persons, who undertake the pilgrimage, and whether Government should adhere to its offer of a non-recurring grant of a lakh of rupees. As regards the former point the Lieutenant-Governor thinks that there is a considerable risk of this contingency arising in view of the generally prevalent sentiment among the poorer classes, which, contrary to the injunctions of the Koran, regards the Haj as a religious duty to be performed at any cost, and he is inclined to doubt whether Government should contribute to a fund, which may be exploited in this manner. One Anjuman and several individuals have indeed voiced the opinion that as the performance of the Haj is a purely religious duty, which is the sole concern of Muhammadans, the latter alone should provide all the facilities acquired by their poorer brethren that the Government assistance would be inappropriate. The proposal is further criticised by some on the ground that the recurring expenditure would be met from the proceeds of interest, or in other words usury. These considerations are no doubt prompted by the feeling that Government would be well advised to leave the Haj and its affairs alone, and in normal times His Honour would not attach any undue importance to them except as reflecting this sentiment. The practical difficulty, however, that the creation of the proposed fund may put a premium on vagrancy is one that may have to be faced and solved, and the Lieutenant-Governor would not advise proceeding with this part of the scheme till Muhammadan opinion as to the need of Government assistance is more unanimous.

If a fund is created, His Honour agrees that its administration should certainly be left in the hands of the Bombay Haj Committee.

7. The proposal to introduce a system of optional return tickets, which would be issued by the shipping companies on demand at a cost representing an excess of not more than 25 per cent. over the cost of the single ticket, has been criticised on the ground that the imposition of an obligation of this kind on the shipping companies will inevitably lead to the latter raising the single fares, and that this will be resented by the Muhammadan community. How far this criticism is sound, His Honour is unable to say, but he thinks that the proposal is on the whole a reasonable one and should be adopted without regard to any possible dissatisfaction which a slight increase in the fares may create. The question of the grant of refunds in certain exceptional cases may give rise to difficulty, but this should not be insuperable.

8. The above remarks indicate the difficulties with which even the present proposals are surrounded and the extreme sensitiveness with which the less enlightened section of Muhammadan opinion is inclined to view any Government interference, however well meaning, with the present unregulated system, however great its defects. The Lieutenant-Governor therefore hopes that, whatever may be the practical inconveniences of the present position of affairs, no attempt will be made to alter the conditions of the Haj traffic during the continuance of the present war. However benevolent the motives of Government may be, there is undoubtedly an undercurrent of suspicion attaching to official action, whether direct or indirect, in the matter of this pilgrimage, and it would be very inadvisable to afford any stimulus to the feeling that interference with religious observance in any form is contemplated during a period when we are engaged in a struggle with the leading Islamic power. On the conclusion

of this struggle it should be feasible to introduce the requisite measures for improving the conditions of the Haj traffic as part of the conditions of any peace that may be arranged with the Turkish Government, and, if the onus of caring for and repatriating stranded pilgrims were thrown on the authorities, who may hereafter govern and control the sacred places, most of the difficulties experienced at present would automatically be surmounted and disappear. Meanwhile the creation of a repatriation fund to be administered by a committee of Bombay Muhammadans should be sufficient to palliate any immediate cases of hardship that may arise, but the initiative in this matter should come from the Muhammadan community. Beyond this His Honour would not go at present. The formation of Haj committees all over India would at the present time be an unwise move, and the conclusion of the present war may effect a complete change in the conditions under which the pilgrimage is at present carried on.

No. 151-*E. S.*—*Notification.*—In supersession of all previous notifications, the following revised prospectus of the Government School of Engineering, Punjab, at Rasúl, Gujrát District, is published for general information :—

I.—PROSPECTUS FOR THE CIVIL ENGINEERING SUBORDINATE CLASS OF THE GOVERNMENT SCHOOL OF ENGINEERING, PUNJAB, AT RASUL.

1. *Object.*—The School is designed to give practical, as well as theoretical, instruction in Civil Engineering with a view to qualifying Indian students as Overseers and Sub-Overseers. It is a State institution, under the control of the Chief Engineer, Public Works Department, Buildings and Roads Branch, and the Director of Public Instruction, Punjab.

2. *Locality.*—The school is situated at Rasúl, Gujrát District, at a short distance from the Head Works of the Lower Jhelum Canal.

3. *Course of instruction.*—The course of instruction is specially arranged for Overseers and Sub-Overseers, and embraces the following subjects :—

(*a*) Engineering and estimating.

(*b*) Surveying and levelling.

(*c*) Mathematics, Applied Mechanics and Hydraulics.

(*d*) Drawing.

(*e*) Practical work, including—

(*i*) Workshop practice, instruction in the working of engines and pumps.

(*ii*) Observation of river and canal discharges.

(*iii*) Laboratory experiments.

(*f*) Accounts.

(*g*) Arboriculture.

4. *Conditions of admission to above course.*—(*a*) The yearly admissions will be limited to 50.

(*b*) A qualifying examination will be held annually in March. Applications to appear at this examination should be submitted to the Principal not later than 15th of February accompanied by a fee of Rs. 5 (which will not be refunded if applicant withdraws after his name has been registered) and particulars of parentage. A certificate of moral character and of age as recorded in the school register, signed by the Headmaster of the School at which the applicant was last educated, or by a Government official of or above the rank of a Tahsildar, if the applicant has not attended any school for more than a year before the date of application, should be forwarded at the same time.

(*c*) All candidates must be between the ages of 17 and 21 on 1st March immediately preceding the examination.

(*d*) Full particulars regarding the subjects for the qualifying examination will be furnished on receipt of candidate's application.

(*e*) Forty admissions will usually be made on the result of the examination, but not necessarily in accordance with the marks obtained. In addition 10 candidates—half of whom must be agriculturists—will be admitted by nomination.

(*f*) Applications for nomination with statement of the educational qualifications of the candidate, and the grounds on which the application is based, should be submitted to the Principal not later than the 1st of February. Selected candidates will have to pay an admission fee of Rs. 5.

Admissions will be made in accordance with the Principal's orders and subject to the approval of the Chief Engineer, Public Works Department, Punjab, Buildings and Roads Branch.

5. Candidates who are successful in obtaining admission will be required to produce a certificate of health signed by a Medical Officer in charge of a Civil Station.

6. The school course extends over a period of two years.

The monthly tuition fee is Rs. 4.

7. *Examinations during course of instruction at Rasúl.*—Examinations will be conducted on the same system as exists at Roorkee College. They will be held quarterly, and the marks obtained in these examinations will be included in the final certificates. Students who attend the prescribed course and satisfy the Principal with regard to their work and conduct and who obtain 75 per cent. of the total marks and not less than 66 per cent. in any one subject will be granted certificates as probationary 3rd grade Overseers.

Students who obtain not less than 50 per cent. in all subjects and not less than 33 per cent. in any one subject will be granted certificates as probationary 3rd grade Sub-Overseers.

The school is affiliated to the Punjab University, and students will be permitted, if they wish to do so, to present themselves for the University Examination in Engineering.

8. *Vacation.*—The annual vacation will be for 2½ months, and will usually extend from 15th June to 31st August, but these dates are provisional.

9. *Boarding House.*—There is a boarding house in connection with the School for accommodation of students.

The dormitory fee is Re. 1 per month.

10. Students whose conduct or progress in study is unsatisfactory are liable at any time to be dismissed from the school at the discretion of the Principal.

11. All students must provide themselves with books and drawing instruments as directed by the Principal.

12. All applications for admission or further information should be addressed to the Principal, Government School of Engineering, Rasúl.

No. 32-*Medl.*-6 *Notification.*—The following proceedings of a meeting of the Haj Committee, Bombay, held on the 23rd May 1916, is published for general information :—

At a meeting of the Bombay Haj Committee held in Bombay on 23rd instant it was unanimously resolved that the following expression of opinion regarding this year's pilgrimage should be widely published for the benefit of the Moslem community in India :—

In view of the large number of enquiries which are being received touching the current year's pilgrimage to the Hedjaz, and in view of the unprecedented conditions which have arisen in that country owing to the War, the Bombay Haj Committee feel that it is incumbent upon them to give wide publicity to the following facts for the earnest consideration of intending pilgrims :—

Last year only 2,400 pilgrims proceeded to the Hedjaz as against an average of 15,000 in a normal year. In spite of the small number of pilgrims however, and although Government allowed many cargoes of food-stuffs to go to Jeddah specially for the use of the pilgrims, the Hajis suffered very severe privations. Furthermore, owing to the irregularity of return sailings which was unavoidable under the circumstances, pilgrims were obliged to remain a long time at Jeddah waiting for a ship to bring them to Bombay, this resulting in the pilgrims being compelled to spend all their remaining resources in maintaining themselves and in several cases Hajis even sold their return tickets in order to obtain money to keep themselves alive and finally arrived back in Bombay as destitute pilgrims.

As the remittance of money to Jeddah is impossible no pilgrim who has once landed in the Hedjaz can expect to obtain any pecuniary assistance from India. This difficulty and the great scarcity of food has resulted in a large number of permanent residents of Mecca and Medina abandoning their homes and coming to India. As an example it may be stated that a bag of rice which here costs Rs. 16 or so is now sold at Rs. 85 in Jeddah. A tin of kerosine there costs Rs. 15.

As there is now no British Consul at Jeddah the greatest difficulty is experienced in obtaining information regarding the estates of those pilgrims who die or are reported to have died in the Hedjaz.

Nothing has yet been settled regarding the sailing of ships for Jeddah, but if pilgrim ships go to Jeddah it will be an expensive journey as the rates charged by Shipping Campanies are certain to be still higher than last year. Moreover, the high freight market coupled with the fact that it may not be possible to take cargo to Jeddah make it likely that no ships will sail at all.

In these circumstances which are solely due to the War, the Bombay Haj Committee are of opinion that it would be advisable to inform intending pilgrims that in their own interest it would be better if they deferred going on pilgrimage for the present.

OBITUARY.

The 5th July 1916.

The Lieutenant-Governor has heard with deep regret of the death from cholera of Mr. Alfred Reginald MacRae of the Indian Police, Punjab, at Nasiriyeh, Mesopotamia. Mr. MacRae was educated at Aberdeen Grammar School and Aberdeen University, and, after competing successfully in the Indian Police Examination of June 1908, was posted to the Punjab as an Assistant Superintendent of Police in the following December. Mr. MacRae spent most of his service at Delhi, where he did excellent work during the Imperial Coronation Darbar, and subsequently as an officer of the New Delhi Province until April 1915, when he was placed on deputation with the Government of India, Foreign and Political Department, for employment in Mesopotamia as Assistant Commissioner of Police. Mr. MacRae was one of the most promising officers of the Punjab Police, able, hard-working and reliable; and his sudden and premature death, while on active service in Mesopotamia, will be deplored by all ranks of the force to which he belonged.

By order of His Honour the Lieutenant-Governor of the Punjab,

H. T. DENNYS, LIEUT.-COL.,

Under-Secretary to Government, Punjab,
Home (Police) Department.

PROSPECTUS.

1. *Objects of the college.*—The Punjab Agricultural College was founded and endowed by Government in order to provide a thorough course of instruction in the sciences which have a bearing on agriculture and also in the practice of agriculture. In the last 50 years the application of science to agriculture has brought numerous and material advantages to agriculturists throughout the world. Barren land has been made culturable ; the fertility of poor soils has been increased ; new varieties of crops have been introduced ; varieties of existing crops have been improved as regards quality and yield, or rendered immune against disease ; practical methods of coping with insect pests have been discovered ; and labour saving machines have been devised which have lowered the cost of production. In time results of no less value will be within reach of thePunjab farmer with the co-operation and help of the agricultural department. The main object of the agricultural college is to give such a combined and systematised course of scientific agriculture as will enable it to send out men who will be competent to further the progress of agriculture on the most approved, economical and up-to-date lines either as assistants in one or other of the branches of the agricultural department or as managers of their own or others' estates.

2. *Control and management.*—The college is under the control of the Director of Agriculture with the advice of the Director of Public Instruction, while the executive charge is vested in the Principal, assisted by a staff of English professors and a suitable number of assistant professors, lecturers and demonstrators.

3. *The old course.*—From 1909 till 1914 the diploma course was a three year one with much specialized science. This was not found to meet the needs of the province and has been abandoned in favour of a four-year course divid ed into two parts of two years each. The course is in English.

4. *The new four-year course : First Part.*—The FIRST PART consists almost entirely of instruction in agriculture, both practical and theoretical—two-thirds of the students' time being devoted to this subject. This agricultural course is supported by simple explanatory lectures in chemistry, botany and entomology.

In addition, instruction is given in practical veterinary science, in field surveying, and in the college workshop in the working of wood and iron. Six hours a week during the first year and three hours a week during the second year are devoted to tuition in English, Arithmetic and Elementary Algebra.

5. *The new four-year course: Second Part.*—The SECOND PART will include systematic instruction in agricultural chemistry, agricultural botany, entomology, physics, veterinarcy science, mathematics and agricultural engineering in addition to more advanced teaching in agriculture.

6. *Qualifications for admission.*—The minimum qualification for admission is the Entrance examination of the Punjab University, the School Final examination, or the dipolma of the Aitchison College. Candidates for admission must be under 21 years of age on the 1st of May preceding the first term. Preference is given to applicants of zamindari parentage. The Director of Agriculture is however empowered to admit a candidate who is not qualified if his knowledge is sufficient to enable him to assimilate the college training.

7. *Terms.*—The terms are as follows :—

First term.—July 20th to September 25th.

Second term.—From about October 10th (after the Dussehra) to December 20th.

Third term.—January 5th to May 20th.

8. *Tuition fees.*—The college fees are payable quarterly in advance, but the Principal has discretion to recover payment in arrears in any particular case, if he considers that special circumstances justify his doing so. The fees fall due on July 20th, October 20th, January 10th and April 1st. They are as follows :—

First Part.

For all Punjab students including scholarship-holders.	Rs. 18 per quarter, *i.e.*, at the rate of Rs. 6 per mensem.
For all students from Native States and other provinces of British India including scholarship-holders.	Rs. 27 per quarter, *i.e.*, at the rate of Rs. 9 per mensem.

Second Part.

For all Punjab students including scholarship-holders.	Rs. 36 per quarter, *i.e.*, at the rate of Rs. 12 per mensem.
For all students from Native States and other provinces of British India, including scholarship-holders.	Rs. 45 per quarter, *i.e.*, at the rate of Rs. 15 per mensem.

Fees paid in advance are not refunded should a student leave the college.

If any fees have not been paid by the first day of the quarter for which they are due a fine of one anna a day is charged for each day of delay.

9. *Caution money.*—A fee of Rs. 15 is also paid by each student entering the college as caution money to cover the cost of any damage due to a wilful or negligent act done by him to the college or boarding-house property. This fee will be returned at the end of the course if the college authorities have no claims against a student.

10. *Entrance examination.*—There is no Entrance examination for students possessing the qualifications noted in paragraph 6. If the number of applicants exceeds the number of vacancies, the Principal will make selection after interviewing the candidates.

11. *Scholarships.—Entrance Scholarships.*—Ten scholarships tenable for two years will be granted each year of a value of Rs. 72 per annum payable quarterly in advance. Two will be allotted to each civil division and competed for before entrance by candidates nominated by Deputy Commissioners. There are no restrictions as to the number of nominations but candidates must be sons of cultivators or land-owners; and they must have the qualifications laid down in paragraph 6. A preference will be given to the members of agricultural tribes. Each candidate will be examined by the Principal before the award of a scholarship. The examination will occupy only one day and will be in writing or oral at the discretion of the Principal.

Internal scholarship examination and college scholarships.—A Government scholarship of Rs. 60 and another of Rs. 36 per annum will be awarded to the first two students on the results of an examination to be held at the end of the first year in the First Part. These two Government scholarships will be payable quarterly and in advance. They can be held with other scholarships.

12. *Retention of scholarships.*—The retention of these and all other scholarships is conditional on continued diligence and good conduct.

13. *Leaving certificate and examination at the end of the First Part.*—At the end of the First Part of the course there is held a practical and oral examination together with such written work as appears desirable to the examiners in the subjects of tuition during the course. The examination in agriculture will be conducted by an external examiner and the Professor of Agriculture and in the remaining subjects by the college staff. In addition to the above a schedule of work done in each subject will be kept and signed by all professors and no student will be eligible for a first class certificate who has not attended 95 per cent. of the classes held. On the results of the examination and the schedule reports a Leaving Certificate will be granted. Such certificates will be classified as first and second class. In order to be admitted to the Second Part of the course, it will be necessary for the student to obtain a first class leaving certificate for the First Part of his course.

14. *Scholarships for the Second Part.*—Five scholarships each of a value of Rs. 144 per annum will be offered each year on the results of the leaving certificate examination held at the end of the First Part.

The Denzil Ibbetson scholarship.—The Denzil Ibbetson sholarship of Rs. 12 per mensem for one year, founded by Rai Bahadur Lala Mohan Lal, is awarded to the student who at the end of the First Part has done best in practical agriculture. This scholarship is payable quarterly in advance in the same way as the tuition fees mentioned in paragraph 8.

15. *Examination for the Diploma of Licentiate in Agriculture.*—At the end of the Second Part there will be held a final examination for the Diploma of Licentiate in Agriculture conducted by an examining board, which will consist of the college staff and external examiners. In this examination the candidate will be examined on the results of the whole four years' work by written papers and by practical and oral tests. The total marks allotted to the diploma examination will be as follows:—

Agriculture	...	...	200
Chemistry	...	...	150
Botany	...	...	150
Veterinary Science	...	...	100
Physics	...	...	80
Mathematics	...	...	50
Entomology	...	...	80
Agricultural Engineering	...	...	90
Land Surveying	...	...	50
Land Revenue	...	...	50
		Total ...	1,000

In order to qualify for the Diploma of Licentiate in Agriculture, the candidate must obtain not less than 40 per cent. of the total number of marks given to each of the three main subjects, agriculture, chemistry and botany, and must also obtain an aggregate of not less than 400 marks in all.

The list of successful candidates, who will be arranged in three classes, will be published in the *Punjab Gazette.* In order to obtain a First Class, a candidate must obtain not less than 650 marks in the aggregate, for a Second Class not less than 500 marks and for a pass in the third division not less than 400. Honours can be obtained in the major subjects of agriculture, chemistry and botany. The granting of honours lies with the board of examiners acting on the recommendation of the subject examiners and a standard of about 75 per cent. will be required.

16. *Research scholarship.*—A research scholarship of the value of Rs. 720 per annum tenable for two years will be awarded annually to a student of the Punjab Agricultural College holding the diploma of licentiate in agriculture for post-graduate study, provided a sufficiently promising candidate is forthcoming. This scholarship will carry with it free tuition in one of the Indian agricultural colleges or research institutes and travelling allowance as an officer of the third class under the Civil Service Regulations for authorised journeys in connection with the work for which it is granted, and will be awarded (1) for general intelligence rather than for ability to pass examinations, (2) to a student who has shown some decided ability in, or preference for one branch of agriculture or the agricultural sciences during the course of his residence in the college.

The scholar will be required to present a thesis on the termination of his scholarship period.

17. *Examination fees.*—There will be no examination fees for the leaving certificate A fee of Rs. 30 will be charged for the diploma examination to cover the cost of examiners' fees

18. *Medals and Prizes.* The *Sir Louis Dane Gold Medal.*—A gold medal, endowment for which has been presented by Rai Bahadur Lala Ganga Ram, C.I.E., M.V.O., and called the "Sir Louis Dane Medal" is awarded each year to the candidate who obtains the highest aggregate marks in the diploma examnation.

The Sir James Wilson Medal.—A silver medal endowment for which has been presented by Khan Sahib Chandhri Sultan Ahmad and called the "Sir James Wilson Medal" is awarded each year to the candidate obtaining the highest number of aggregate marks in (*a*) the physical sciences (chemistry and physics) and (*b*) the biological sciences (botany and entomology) in the diploma examination. This medal is awarded to the physical and biological sciences in alternate years.

19. *Prospects of successful students.*—(1) The leaving certificate at the end of the two years' course qualifies a man for appointment to the lower grades up to Rs. 120 per month in the

agricultural department. The sanctioned amalgamated cadres of agricultural assistants and research assistants is as follows :—

6 on Rs. 80	" "
5 on Rs. 60	" "

The above rate of pay has been fixed so as to include house-rent allowances formerly drawn, and the cadres have been amalgamated with a view to employing an assistant on either general or research work. Promotion to the higher grades will be made without consideration of the question as to whether the vacancy has been caused by the retirement or removal of an assistant employed on research or one employed on general work.

Men who have proceeded to their diploma will however be preferred for these appointments.

(2) Men who have successfully passed through the two years course will be qualified to farm land by modern methods and after some further practical experience to work as managers of large estates.

(3) The diploma of L. Ag. ranks with the degree of B.A. as a qualification for appoint ment in the revenue and irrigation departments of Government.

In addition to the appointments of the Agricultural Department mentioned above, the Irrigation Department has guaranteed a minimum of two appointments a year as Zilladars, to students who have passed the first part of the four-year course. Detailed rules have been published in Irrigation Branch notification No. 2217 E.I., dated the 6th May 1916.

20. *Boarding-house.*—There is a college hostel for the use of students. A member of the staff resides and is in charge as Superintendent, and under him mess managers are appointed from among the students.

A boarding-house fee of Rs. 32 per annum is charged for each student (including scholarship-holders), and is payable in advance in two equal instalments of Rs. 16, on the 20th July and 10th January. Messing accounts and the pay of such servants as cooks and kahars are separate items and are payable through the mess manager.

The college is a residential one and all students must reside in the college hostel and be subject to all college regulations.

21. *College societies and sports.*—Athletic grounds are provided in the college precincts where football, hockey, cricket and tennis can be played. There is a college athletic club, a college scientific and literary society and a reading room association. The combined subscription is Rs. 7 (Rs. 4 for athletic club, Rs. 3 for scientific and literary society and for the reading room association). Membership of the athletic club is compulsory as is also regular attendance in the playing field.

22. *Number of students admitted each year.*—The number of students admitted each year to the College course is restricted to 38. Of these vacancies, 28 are reserved for the Punjab, 5 for Punjab Native States, and 5 for other provinces. The North-West Frontier Province will have a prior claim to the places reserved for other provinces. If vacancies occur under any head, they may be filled by the Principal from among the applicants falling under other heads.

23. *Applications for admission.*—Students wishing to join the college should send their applications to the Principal, not later than the 1st of May in each year.

24. *Supply of forms for admission.*—Nomination forms for the entrance scholarships will be supplied to Deputy Commissioners. Forms ofapplication for admission as ordinary students can be obtained on appliction to the Principal.

25. *Condition of admission of non-Punjab students.*—The above rules also apply to students from Native States and other provinces. Applications for admission from Native States should come through the Darbars or through Political Agents, and applications for admission from the North-West Frontier Province through the Revenue Commissioner, North-West Frontier Province.

26. *Private scholarships.*—When scholarships are founded for competition, the Principal will be prepared to examined canidates, as in rule 11 above, and make awards. When a student is nominated to a scholarship without competition, it is desirable that he should be up to the general standard of other scholars, or, at all events, that he should possess more

than average ability and knowledge. In a case of this kind, the Principal will be prepared, if necessary, to examine a nominee at the annual scholarship examination and to report on his suitability.

27. In addition to the English diploma course there is also a Vernacular Course.

The following are the rules for it :—

(1) This course of practical agriculture is given in the vernacular every year for the sons of agriculturists, who have passed through the upper primary school course. The course will be taken on the college estate which is 486 killas in extent. There is a large assortment of implements including grain threshers, reaping machines, chaff cutters of various types, plough, etc., which can be studied on the farm. A small hand power dairy is also attached where practice in butter-making, separating of cream etc., can be obtained. The course will prove very useful to those wishing to act as agents for small estates and for the sons of zamindars. The work is practical throughout.

(2) Boys between 16 and 20 whose fathers are actual cultivators will be preferred.

(3) Applications for enrolment should be sent to the Principal of the college by August 1st.

(4) The course will be from October 1st to December 20th and from February 1st to April 30th. Further training, especially in the interculture of cotton and maize, will be given during July and August if required. If possible, a month or so will be spent at Gurdaspur for study of *barani* cultivation.

(5) About 20 boys will be taken each year.

(6) The expenses of the course are Rs. 5 per mensem for food and lodging. There are no other charges.

(7) Two scholarships of Rs. 5 per mensem each, tenable for six months, have been given by Khan Bahadur Sheikh Riaz Hussain, to be held by the residents of the Multan district, attending the course. Four scholarships of Rs. 5 each, tenable for six months, have also been awarded by the District Board of Multan : and other District Boards and private individuals have offered single scholarships tenable for one year.

(8) The course will cover the following subjects :—

(1) *Soils.*—Their composition, suitability for different crops, treatment of different soils, soil improvement.

(2) *Cultivation.*—Various methods, efficiency of hand labour (digging), and bullock labour (ploughing) compared. Object of ploughing, time of, methods of sowing and interculture of crops.

(3) *Implements.*—Different kinds of ploughs, harrows, sohaga, roller with special reference to the conservation of moisture, reapers, fodder-cutters, etc.

(4) *Seed selection.*

(5) *Manuring.*—Preservation of manures, green manuring.

(6) *Water lifts.*—Capacity, cost, efficiency. The Persian wheel, centrifugal pumps, etc.

(7) *Cattle feeding.*—Comparative value of various foods.

(8) *Dairying.*

(9) *Botanical.*—Sampling of seed, purity, germination, crossing, types of cotton and wheat.

(10) *Entomological.*—Life history of common pests such as :—

(*i*) Gram caterpillars,

(*ii*) Boll- worms,

(*iii*) Grass-hoppers,

(*iv*) Sugarcane borers,

(*v*) White-ants,

(*vi*) Aphis,

and methods of combating these pests.

(11) *Veterinary*.—The common diseases of animals and their treatment—tumours and wounds in cattle.

SYLLABUS OF THE DIPLOMA COURSE OF THE PUNJAB AGRICULTURAL COLLEGE, LYALLPUR.

FIRST PART OR TWO YEARS' COURSE.

SYALLABUS.

Agriculture.—Including agricultural chemistry, agricultural botany and entomology.

There will be a two years' course of lectures and field work; about three hours a week being devoted to lectures and about twenty hours a weekto practical work on the farm. Two essential features in this practical work are—

(a) that each student will have a plot of land in his charge throughout the two years; and

(b) that on two days a week the student will spend the whole day on the ordinary farm work keeping farm and not college hours.

The syllabus of the agricultural instruction has been classified into periods corresponding to the main operations of farming practised during the year. The lectures in agricultural chemistry, agricultural botany and entomology will be given by the professors of these sciences. They will bear directly on the instruction being given in agriculture and will be delivered during the period to which they correspond.

FIRST YEAR.

First period. Implements and Preliminary cultivation, July 20th to September 25th.—About 24 lectures and field instruction on implements and preliminary cultivation on the farm. This will include the study of implements, both Indian and foreign. Classification of farm soils, conservation of soil moisture, tillage.

During this period about ten lectures will be given by the Agricultural Chemist on the origin of soils by the mechanical disintegration of rocks under the agency of heat and cold. The transport of rock debris in nature by ice and water and the formation of soils; the classification of soils and their mechanical separation into clay and sand; some of the principal chemical substances present in soil and their properties—calcium carbonate, magnesium carbonate, silica, salts of sodium, potassium, iron and aluminium, carbonates, sulphates and chlorides.

About 8 lectures will be given during this period by the Economic Botanist, Punjab, on the structure of a seedling; the external morphology of the root; the stem and the leaf and their functions; the flower, its structure and the functions of the various parts.

Second period. Seeds and sowing, October 10th to November 20th.—About 10 lectures together with field instruction in various methods of sowing; the depths of sowing for various crops, drills and sowing in lines; storing and care of the seed.

About 5 lectures will be given during this period by the Agricultural Chemist on seeds; the germination of the grain; reserve food; supply of starch and oil in the seeds of barley and castor oil; the ferment changes which take place during germination resulting in the production of soluble food substances capable of absorption by the young plant.

About six lectures will be given during this period by the Economic Botanist on seeds:—methods of estimating the purity of seeds; capacity for germination; identification of the seeds of the more common crops.

3rd period. Weeding and cultivation, November 20th to February 15th.—(beginning before and continuing after the Christmas vacation.) There will be about 27 lectures together with field work in weeding and after cultivation—hand weeding *versus* bullock power; transplanting; irrigation, water lifts; drainage; rotation of crops.

About three lectures will be given by the Agricultural Chemist during this period on the movement of water on the soil; capillarity and drainage; the temperature of the soil and the evaporation of the soil water; deposition of salts on the surface of soils and the nature and cause of alkali lands.

Fourth period.—Manures and manuring—February 15th to March 20th.—This will consist of about 12 lectures on the common manures available in India—storing of farm yard manure; green manuring; artificial fertilizers.

About 10 lectures will be given during this period by the Agricultural Chemist on manures and manuring—the manurial constituents present in the soil necessary for the growth of plants and their functions; potash; phosphates; nitrogenous substances and nitrates; the physical process of osmosis whereby these substances enter the plant through the root hairs.

About 4 lectures will be given during this period by the Economic Botanist on the physiology of plants; plant food and its composition; the processes of nutrition, respiration, transpiration and growth.

Fifth period. Harvesting—March 20th to April 10th.—About 12 lectures and farm instruction in different methods of harvesting and their relative cost; seed selection.

Sixth period. Threshing, April 10th to April 30th.—About six lectures with practical instruction in methods of threshing; treatment of various crops; threshers and winnowers.

Seventh period. Marketing and storing, April 30th to May 20th.—This will consist of about six lectures and farm instruction on the stacking of fodder crops and bhusa; ensilage; grain storing; sorting; marketing of vegetables.

SECOND YEAR.

First period. Crops—July 20th to September 25th.—About 25 lectures will be given on the crops—wheat, cotton, toria, barley and their position in rotation; the importance of leguminous crops; soils suitable for various crops; distribution in the province; methods of cultivation and a study of all the Punjab crops from the point of view of cultivation, fallowing.

The Agricultural Chemist will deliver six lectures on what the plant is made of:—The chief compounds present in plant tissue, carbo-hydrates, fats, proteins and ash and the chemical nature of these substances; the function of the leaf, how the plant grows; the carbon dioxide of the air; the source of all carbon compounds present in plant tissues; the formation of starch and sugars in the green leaf; light the source of energy; transpiration of the water by the leaf; the source of this water and the chemical and physical uses made of it by the growing plant in its passage through the tissue; the work of the roots; how the water and salts enter the cells of the roots; the chemical change attendant on the life history of the plant as a whole in the three periods of growth, reproduction and decay; how these natural changes affect the farmer and the degree to which they are under his control.

The Economic Botanist will deliver eight lectures on the main divisions of the vegetable kingdom with special reference to field and garden crops of the province—plant propagation—various methods of plant propagation; improvement of crops—improvement of crop by hybridization and plant selection.

The Professor of Entomology will deliver 5 lectures on the insect as a living organism, illustrated by a brief study of life history of the two commonly occurring insects—(1) the grass-hopper, (2) the butterfly; the occurrence of insect life on the farm and the different types of insects found there; sequence of insect life during the year and the dependence of this on the food supply available; insects of direct use to mankind—the silkworm.

Second period. Live Stock, October 10th to December 20th.—There will be given about 20 lectures with field instruction on the Punjab livestock—the cattle, horses and sheep of the province, their breeds and purposes for which they are bred; the principles of breeding of live stock.

The Agricultural Chemist will deliver six lectures on *plants as a source of food for animals*; the use of food to the animal; how animals absorb their food; *digestion*; the digestive juices and their effect; saliva and its effect on starch; the pancreatic fluid and its effect on fats and the peptic juices and the breaking down of proteins; *food as a source of energy* and the heat value of various foods; maintenance rations; nitrogenous foods required to repair tissue waste.

The composition of cattle food in terms of carbo-hydrates, fats, proteins and fibre; the nature of the various cattle foods in use on the farm.

The feeding of growing stock.—Starch value of foods; albuminoid ratio and food rations.

Farm yard manures.—Animal excreta—the elements contained in the excreta of farm stock, the collection and utilization of farm yard manure; waste of manure by loss of nitrogen and carbon.

The Professor of Entomology will deliver eleven lectures on—

Injurious insects commonly termed *crop pests* and methods of combating them. The chief pests—

Cane	... ...	Cane-borers.
Wheat	... ...	Aphis Wheat weevils.
Maize	... ...	Grass-hoppers.
Cotton	... ...	Boll-worm
Toria	... ...	Aphis.

General methods of combating these and other pests

Third period. Dairying, January 5th to February 1st.—About 10 lectures together with practical instruction will be given in this period in dairying—Indian and European methods compared; the care of dairy cows; butter; cream; skimmed milk; dahi, ghi, etc. Dairy buildings and the feeding of dairy cows.

The Agricultural Chemist will deliver two lectures on *milk and milk products.* The composition of milk, butter and ghi; the utilization of milk by the young animal; the ferment rennet and its effect on milk; the souring of milk dahi; bacteria; milk a conveyor of disease; milk analysis.

The Economic Botanist will deliver 4 lectures on *fruit culture.* The more important fruits of the province—practical tuition in budding, grafting, layering and pruning; protection and care of fruit trees.

Fourth period. Feeding of livestock, February 1st to March 15th.—About 20 lectures with practical farm instruction will be given in this period on the feeding of livestock; the concentrated and the coarse fodders; the valuation of foods and feeding stuffs; mixing the feeding of young growing and working and resting animals.

The Agricultural Chemist will deliver two lectures on *bacteria in soil*—the chemical effect of bacteria in the decomposition of animal and vegetable tissue; the use of this in nature; bacteria of use in oxidising atmospheric nitrogen; the chemical relation between carbon and oxygen; the source of the energy; the source of combined nitrogen in plants and animals; the nitrogen cycle.

The Economic Botanist will deliver six lectures on plant diseases—the habits of fungi; the more important fungoid diseases of field and garden crops of the province—remedial measures.

Fifth period. Farm equipment, capital, buildings, co-operative credit, March 15th to May 20th.—About 25 lectures will be given on farm equipment—capital and buildings required; equipment under barani (rainfall), chahi (well irrigation) and nahri (canal irrigation) conditions and its cost; necessary capital; the arrangement and cost of farm buildings; the principles of co-operative credit, buying and marketing; labour; machinery; the value of machinery and its care; estimation of profits derived from the use of labour-saving machinery.

FIRST PART—FIRST AND SECOND YEAR.

Agricultural Engineering.

FIRST AND SECOND YEAR.

Materials—preliminary works—Foundations.

Choice of materials used in works. Timber, stone, bricks, limes, mortars, concrete, iron steel, copper, brass and gun metal. Safe stresses on materials. Preservation of materials. Preliminary works. Surveys. Investigation of physical conditions, borings and trial pits.

Classification of foundations, in water-bearing strata, well foundations, sinking wells, loads on foundations.

Roads, buildings, farm lands.

Roads.—Laying out, formation, metalling, rolling, maintenance, wear, influence of materials and strata, traffic effects, repairs.

Buildings.—Plans elevations and sections, masonry of various classes, damp proofing, standard sizes of materials used in construction; the different stresses materials are subjected to. Arches, abutments, piers, culverts, syphons, retaining walls, sheds, floors and roofs.

Farm lands.—Laying out and division into fields, earthwork, embankments, fencing.

Hydraulics.

Sources and storage of water-supply, irrigation channels, loss of water by absorption and evaporation; quantity of water required for irrigation. Wells and well sinking, boring, tube wells, water lifts, pumps, deep well pumps, raising water by compressed air. Flow of water in pipes and channels, over weirs and notches and from orifices.

Machinery.

Horse power, transmission of power, gearing, chain, rope and belt drive, friction. Steam and internal combustion engines, electro-motors, efficiency of power units, selection of suitable power units. Comparison of various power units with regard to initial and maintenance costs. General attention to machines, wear, replacements, lubrication and lubricants. Erection of machines.

(Practical Course.)

FIRST AND SECOND YEAR.

Carpentry and joinery.

The use of hand tools, splicing, mortising, dovetailing, rebated, tongued and grooved, grooved and filleted, rebated and filleted joints, etc., repairs to implements, temporary wood substitutes for damaged metal parts of implements.

Metal work.

Rivets, bolts and nuts, single and double riveted lap joints, riveted butt joints with single and double cover plates, welding, brazing and soldering, repairs to broken parts of machines. Setting up patterns for replacement of damaged cast iron gear wheels and other parts of machines. Simple expedients for prolonging the life of country made implements, carts, etc.

Surveying.

Gauging flow of water in channels.

Veterinary Science.

About 20 lectures will be given in the first year and about 20 lectures in the second year in veterinary science. In addition there will be given practical tuition in the civil veterinary hospital and on the college farm.

FIRST YEAR.

Two hours a week will be devoted to the subject of veterinary science. The course will be divided into the following four periods :—

I.—External anatomy of the horse, ox, buffalo, sheep and goat. The names of the different parts of the body as seen in living animals and their functions.

II.—Internal anatomy—the skeleton ; the names of the principal bones, and joints and their use.

III.—Physiology—the parts and functions of each of the following systems—digestive ; respiratory, circulatory, nervous, urinary, lymphatic, generative, sensory, the skin, hair, horn and hoof.

IV.—Hygiene—the sanitary location of stables ; ventilation ; drinking water ; wholesome food ; cleanliness and stable management.

SECOND YEAR.

Two hours a week will be devoted to the subject of veterinary science. The course will be divided into the following three periods :—

I.—Materia Medica and Pharmacy—

(a) The names, uses, actions and doses of the common English and country drugs.

(b) The methods of compounding medicines including demonstration in making infusions, decoctions, balls, powders, ointments and liniments.

(c) The recognition of the more common poisonous plants and poisons.

II.—Medicine and Surgery—

(a) The names and symptoms of the common epidemic diseases, and measures for their suppression and control.

(b) The names, symptoms and simple treatment of the more common ailments of the animals of the farm.

(c) Minor surgery including the treatment of wounds, simple lameness and shoeing.

III.—*Practical.*—Handling of animals—The use of the clinical thermometer and methods of taking pulse grading ; the administration of medicines.

English.

FIRST YEAR.

During the First Part about three hours a week of the students' time will be devoted to the study of English. In the first year the tuition will consist of —

(a) The reading of a text-book including explanations of the Grammar and Syntax.

(b) Dictation.

(c) Composition and essay writing.

(d) Grammar and Syntax.

SECOND YEAR.

Reading of a text-book with essay writing.

Text-books.

Reader ... [First Year] ...	... Cambridge Nature Study Series : Volume I, Lessons, on soil by Russell ; Cambridge University Press, 1911. Cost Rs. 1-2-0, obtainable from Messrs. A. J. Combridge, Bombay.
Readers ... [Second Year]	... *J. H. Fabre.* Life and Love of the Insect. Price Rs. 5-4-0.
	J. H. Fabre. Spiders. Rs. 9-3-0.
	H. S. Harwood. The New Earth : Macmillan. Price Rs. 6-9-0.
Grammar and Syntax	Morris Elementary Class Books in Grammar and Syntax. Macmillan— Price Re. 1-2-0.

Arithmetic.

FIRST YEAR.

Addition, subtraction, multiplication and division ; the use of signs ; substitution of letters for figures ; mental exercises in the above ; weights and measures—Indian, English and Metric ; factors ; fractions ; decimals ; p.actice—simple and compound ; Invoices and book-keeping ; recurring decimals ; the measurement of surface and cubic contents ; the unitary method ; simple and compound proportion ; problems of time and distance ; percentage; simple and compound interest ; discount ; profit and loss ; stocks, exchange ; square and cubic roots.

SECOND YEAR.

Continuation of the above arithmetical course together with simple instruction in algebra.

Text-books.

Arithmetic	... Arithmetic for Indian Schools by Lock and Lewis. Macmillan ... Price Rs. 1-12-0.
Algebra	... Smith's Elementary Algebra. Macmillan ... Price Rs. 2-13-0.

Workshop Course.

A practical course extending over two years in the use of tools for the working of wood and iron will be given by the Agricultural Engineer. In this course, the students will be rendered familiar by practical tuition with the simple working in wood and iron ; forging and tempering ; the construction and repair of simple implements in use on them far ; fitting together of European agricultural implements such as reapers, winnowers, chaff cutting machines, etc.

Land Surveying.

About twelve lectures, including practical instruction in the methods of land surveying will be given in the second year. The course will consist of :—

I.—Object of land surveying and the use of maps.

II.—Linear measurements and how made. The use of scales and the chain.

III.—Measurement of straight lines in the field and on paper.

IV.—The use of the cross staff.

V.—Rectangles, squares—their diagonals.

VI.—Area of the square, rectangle and triangle and the application to field measurement. Practical way of calculating area by stepping.

VII.—Mapping. The preparation of a field map.

VIII.—Square system. Practice of square laying. How to plot fieldson the square system.

IX.—Calculation of area in bighas, ghumaos and acres.

X.—Comparison of square work with results of the revenue survey.

XI.—How to check an old map.

XII.—Tracing.

SECOND PART—3RD AND 4TH YEAR COURSES.

THIRD YEAR.

Chemistry.

Inorganic Chemistry.

(1) The aim of science in general and of chemistry in particular. Dis tinction between physical and chemical change. Molecules and atoms. Elements, compounds and mixtures. Symbols, formulæ and equations. Modes of chemical action. Chemical nomenclature. Laws of Chemical combination. Atomic theory. Chemical equivalents. Vapour density determination. Modes of determining molecular weights. Valency of the elements.

(2) General properties of gases, relations to heat and pressure, liquefactions, diffusion. The kinetic theory of gases.

(3) General properties of liquids. Diffusion in liquids. Solution pressure. Osmotic pressure. The relation between the vapour pressure of a solution and the molecular weight of a solute. The relation between the boiling and freezing points of a solution and the molecular weight of the solute.

(4) Electrolysis.

(5) Dissociation and Mass action.

(6) Thermo-chemistry.

(7) Systematic study of the following elements and compounds, their occurrence in nature, usual methods of preparation and chief properties; oxygen, ozone, hydrogen, water, hydrogen peroxide, nitrogen, its oxides, nitric and nitrous acid, nitrates and nitrites, ammonia, chlorine, hydrogen chloride, bleaching powder, chlorates, perchlorates, bromine, hydrobromic acid, iodine, hydriodic acid, sulphur, its oxides, hydrogensulphide and the sulphides, sulphurous and sulphuric acids and salts, thiosulphates, carbon disulphide, phosphorus, phosphorus and phosphoric acids, phosphine, arsenic; carbon, its oxides, the nature of combustion, structure of flame, oxidation and reduction. A brief description of the following metals :—sodium, potassium, ammonium, iron. The separation of metals, a description of the metallurgical process in separating the metals—iron, copper and lead. The application of electricity for the separation of copper and the manufacture of alkali.

1st term, sections 1 *and* 2 ...	Mondays, Wednesdays and Fridays, *4th hour.*
2nd term, sections 3 *to* 7 ...	Mondays and Wednesdays, *4th hour.*
3rd term, section 7 ...	Mondays, *4th hour.*

Organic Chemistry.

(1) A brief history of the development of organic chemistry. Sources of organic compounds and their purification. *Qualitative analysis.*—Detection of carbon, hydrogen, nitrogen, sulphur, phosphorus and halogens. *Quantitative Analysis.* Estimation of carbon, hydrogen, oxygen, nitrogen sulphur, phosphorus and halogens. Determination of empirical formulæ. Determination of molecular weight—(1) Vapour density method ; (2) by lowering of the freezing point and the rise of the boiling point of the substance in solution ; (3) by preparing a salt of one of the noble metals from acids and bases. Isomerism and structure of organic compounds. Classification into fatty and aromatic organic compounds.

The general principles of organic chemistry will then be studied by means of a *selection* from the following substances :—

(2) Hydrocarbons of the Methane series. General methods of preparation. Preparation of methane, chemical properties, and structure of methane, ethane, propane, butane, pentane and higher members. Petroleum.

(3) Halogen derivatives. Preparation and reactions of alkyl halides, chloroform, iodoform, carbon tetrachloride.

(4) Monohydric saturated alcohols. Methods of formation, constitution, nomenclature and isomerism. General properties of methyl alcohol, ethyl alcohol, absolute alcohol, alcoholic beverages, analysis of alcoholic beverages. Propyl alcohols, butyl alcohols, amyl alcohols. Stereoisomerism.

(5) Aldehydes and ketones. Nomenclature of aldehydes and ketones. Structure and general methods of preparation of formaldehyde, acetaldehyde and acetone. Reactions of aldehydes and ketones.

(6) Ethers. Structure, general methods of preparation, methyl ether, ethyl ether, reactions.

(7) Monobasic fatty acids. General methods of preparation. Constitution of formic acid, acetic acid, propionic acid, stearic acid and palmitic acid. Degradation and synthesis of fatty acids.

(8) Derivatives of the fatty acids obtained by modifying the carboxyl group :—acid amides, acid chlorides, acid anhydrides, esters, their preparation and reactions. Fats, soaps, candles and butter.

(9) Sulphur compounds, their similarity to oxygen compounds, mercaptains, thioethers, sulphonal, sulphonic acids and sulphonates.

(10) Nitrogen compounds. Cyanogen, its preparation and properties, contrast with halogens. Preparation, reaction and constitution of hydrocyanic acid, methylcyanide, ethylcyanide, isocyanides, cyanic acid, cyanates, isothiocyanates, thiocyanic acid and thiocayanates. Preparation, reaction, constitution and identification of amines, methylamine, dimethylamine, trimethylamine and tetramethylamine hydroxide, homologues of methylamine.

(11) Nitro compounds. Preparation, constitution, and reactions of nitro methane, nitro ethane.

(12) Alkyl radicals linked to arsenic, phosphorus. Cacodyl compounds, arsines, phosphines and their comparison with amines.

(13) Alkyl radicals linked to metals, sodium, zinc and magnesium. Preparations and reactions of sodium alkyls, zinc alkyls, magnesium alkyl compounds (Grignard's creation).

(14) Unsaturated hydrocarbons, alcohols and acids. Preparation, constitution and reactions of ethylene and acetylene. Nature of double and triple bonds. Allyl alcohol, oleic acid.

(15) Polyhydric alcohols, preparation, constitution and reactions of glycol and glycerol.

(16) Polybasic acids. Oxalic, malonic, succinic, isosuccinic. Malonic ester synthesis.

(17) Compounds containing two unlike substituents.

(i) Halogen substitution products of the acids, consideration of chloracetic acid, dichloracetic and trichloracetic acids and *a*-brompropionic acid, *b*-iodopropionic acid.

(ii) Hydroxy acids, consideration of glycollic acid, lactic acid, glyceric acid, tartronic acid, malic acid, *d* tartaric acid, racemic acid, *l* tartaric acid, mesotartaric acid.

(iii) Amino acids.

(18) Acetoacetic ester synthesis and tautomerism.

(19) Carbohydrates, classification, general properties, constitution, preparation of dex rose, (d) fructose, (l) fructose, sucrose, lactose, starch, dextrin, glycogen, cellulose.

(20) Aromatic compounds. Coal gas manufacture and its byproducts, benzene and its homologues, constitution of benzene, diphenylmethane, triphenylmethane, diphenyl, naphthalene, anthracene, characteristic properties of aromatic compounds, constitution of benzene.

(21) Nitro compounds, nitro benzene, identification of nitro compounds.

(22) Sulphonic acids, benzene sulphonic acid, benzene sulphonyl chloride, benzene sulphonamide, identification of sulphonic acid.

(23) Halogen derivatives of aromatic hydrocarbons, their preparation and reaction, brombenzene, chlorotoluene, benzyl chloride, influence of the nature of the radicals present in a compound on the position taken by entering group.

(24) Aromatic amines and other reduction products of nitro compounds. Primary amines secondary amines, tertiary amines, aniline, acetanilide, toluidine, benzylamine, naphthylamine, diphenylamine, identification of aromatic amines.

(25) Diazo compounds and the diazo reactions.

(26) Aromatic alcohols, phenols, and ethers, methods of preparing and reactions and structure of benzyl alcohol, phenol, pyrogallol and anisol.

(27) Aromatic acids, preparation and properties of benzoic acid, benzoyl chloride, benzoic anhydride, cinnamic acid, phthalic acid, phthalyl chloride, pathalic anhydride, phthalimide, isophthalic acid, and terphthalic acid.

(28) Aromatic aldehydes, ketones and quinones. Preparation and reaction of benzaldehyde, benzophenone, benzalacetone, benzil, quinone, naphthoquinone and anthraquinone.

(29) Consideration of aromatic compounds containing two or more groups. Phenol sulphonic acids, sulphanilic acid, sulphobenzoic acid, aminobenzoic acid, salicylicaldehyde, salicylic acid, tyrosine, gallic acid, tannic acid.

(30) Dyes. Substantive yes, mordants, nitro dyes. Methylorange. Bismark brown, alizarine, pararosaniline, rosaniline, malachite green, phenolphthalein, fluorescein.

(31) Hetrocyclic compounds. Preparation and reactions of thiophene, furfural dehyde, pyrrole, indole, skatol, indigo, natural and synthetic.

(32) Alkaloids. Pyridine and quinoline, isoquinoline. The alkaloids. Preparation and properties of morphine, strychnine, quinine and cocaine. Constituents of alkaloids. Pyridine, quinoline, isoquinoline, constitution of piperine, piperidine and piperic acid. Nicotine, nicotinic acid. Animal alkaloids. Ptomains.

(33) Proteins, reaction of proteid substances.

2nd term, sections 1—5 ... Fridays, 4th hour.

3rd term, sections 6—33 ... Wednesdays and Friday 4th hour.

[*Practical Chemistry.*]

... Mondays, Wednesdays and Fridays, 1st, 2nd and 3rd hours, throughout the season.

1st Part.

1. Comparison of the effect of heat on iron wire and wood.

2. Comparison of the effect of heat on ammonium chloride and sugar.

3. Comparison of the effect of heat on a mixture of sand and ammonium chloride with its effect on a mixture of lime and ammonium chloride.

4. To contrast the action of water on salt with the action of diluted sulphuric acid on iron.

5. Preparation and properties of hydrogen prepared by the action of dilute sulphuric acid on zinc.

6. Preparation and properties of carbon dioxide prepared from marble and dilute hydrochloric acid.

7. Preparation and properties of oxygen prepared by heating potassium chlorate.

8. Determination of the chemical equivalent of metals—

(*a*) of zinc and magnesium by measuring the volume of hydrogen evolved on treatment with an acid;

(*b*) of copper by its conversion into copper nitrate and finally into oxide;

(*c*) by the electrodeposition of copper and silver. The use of gas and mercury voltmeters in the above experiment—Faraday's Law.

9. Estimation of carbon dioxide in calcium carbonate.

10. Principles of volumetric analysis. The use of standard solutions and the meaning of "*Normal*" solution. Graduation of measuring vessels, burettes, pipettes, measuring flasks. The application of volumetric analysis to the estimation of acids and bases.

11. Quantitative analysis. Principal reactions of the following acids and bases.

Acids.—Hydrogen sulphide, sulphurous acid, sulphuric acid, thiosulphuric acid, phosphoric acid, nitric acid, nitrous acid, hydrochloric acid, hydrobromic acid, hydriodic acid, chloric acid, silicic acid, acetic acid, oxalic acid, tartaric acid.

Bases.—Lead, silver, mercury, copper, bismuth, cadmium, tin, arsenic, antimony, iron, aluminium, chromium, manganese, zinc, cobalt, nickel, calcium, barium, strontium, magnesium, potassium, sodium, ammonium.

12. Solubilities. The meaning of the terms '*solvent*' and '*solute*'. Application of the principle to qualitative analysis, and of organic substances.

13. The use of the blowpipe. The Bunsen flame, oxidation and reduction in the flame.

14. Identification of simple salts consisting of one base and one acid.

15. Analysis of mixtures (generally two bases and two acids).

2nd Part.

16. Volumetric analysis—

A.—Process of estimation by oxidation and reduction—

(*i*) The use of potassium dichromate solution to the estimation of iron in its *ferrous* compounds.

(*ii*) Use of potassium permanganate solution to the estimation of (*a*) *ferrous and ferric* iron in its compounds, (*b*) oxalate in solution, (*c*) calcium in solution.

(*iii*) Use of iodine solution to the estimation of (*a*) antimony in tartar emetic, (*b*) arsenic in arsenious oxide, (*c*) hydrogen sulphide in solution, (*d*) sulphur dioxide in solution, (*e*) thiosulphate in solution.

(*iv*) Use of potassium iodide and standard sodium thiosulphate solution to the estimation of (*a*) chlorine or bromine in solution, (*b*) bleaching powder, (*c*) manganese dioxide, (*d*) chromate in solution, (*e*) copper in solution.

B.—(*i*) Estimation of chlorides and cyanides by standard silver nitrate solution.

(*ii*) Estimation of copper in solution by standard cyanide solution.

17. Preparation of chemical substances. Process of crystallization, sublimation, distillation, distillation with steam, separation of liquid mixtures, separation by extraction, drying substances and determining their purity. Determination of boiling point, melting point. The flash point of an oil. Preparation of a *selection* of the following substances:—

(1) ferrous ammonium sulphate in a state of purity;

(2) cane sugar,

(3) alcohol by fermentation and distillation,

(4) ethyl bromide;

(5) acetyl chloride;

(6) aceticanhydride;

(7) acetamide;

(8) acetaldehyde.

(9) nitrobenzene and dinitrobenzene;

(10) chloroform;

(11) aniline;

(12) phenol;

(13) phenylhydrazine;

(14) sulphanilic acid;

(15) helianthine.

18. Methods of identifying—

(1) alcohols;

(2) ethers;

(3) aldehydes,

(4) acids and anhydrides;

(5) phenols;

(6) sugars, starch, dextrine, glucosides;

(7) hydrocarbons;

(8) bodies containing carbon, hydrogen, oxygen and nitrogen, nitro bodies, nitriles (mustard oil), amines, alkaloids, amides.

19. Quantitative analysis. Estimation of the copper and sulphion in copper sulphate by weighing as copper oxide, barium sulphate, and copper by the electrolysis of copper sulphates.

Physics.

1st term	...	Tuesdays and Thursdays, 5th hour.
2nd and third terms	...	Mondays and Fridays, 5th hour.

1. *Mechanics.*—Rectilineal motion; composition of motions; inertia and momentum; Newton's Laws of motion; units and measurement of force; the force of gravitation, work and energy, composition and resolution of forces including parallel forces; centre of gravity; conditions of equilibrium; stable, unstable and neutral equilibrium; simple illustrations of conditions of equilibrium as in pulley, inclined plane and the lever.

Hydrostatics.—Pressure in liquid, its variation with depth, centre of pressure, pressure on immersed and floating bodies, transmission of liquid pressure; hydraulic press; density; relation between volume and pressure in gasses; atmospheric pressure.

2. *Sound.*—The production of sound by vibrating sources and its transmission through material media in longitudinal waves. The features of waves corresponding to loudness and pitch. Experimental determination of the velocity of sound in air; echoes; determination of frequency by simple methods, experimental investigation of the fundamental vibrations of strings by means of the sonometer. Experimental investigation of the vibrations of air pipes by resonance to tuning forks, organ pipes, positions of nodes and antinodes.

3. *Heat.*—Definition of temperature; construction and use of instruments for the measurement of temperature; expansion of solids, liquids and gases with rise of temperature; convection in fluids; quantity of heat; specific heat; change of state; latent heat; vapour pressure; boiling point; dew point; formation of cloud; fog and dew; conduction; definition of thermal conductivity; radiation, its emission, propagation, reflection, refraction and absorption, its relation to light.

4. *Light.*—Laws of propagation of light; measurement of velocity; laws of reflection and refraction; photometry; reflection at plane and spherical surfaces, and the formation of images; refraction at plane surfaces, and by prisms; minimum deviation; chromatic dispersion; formation of images by single lenses; long and short sight and their correction by lenses; the combination of two lenses to form a telescope or microscope; composition of light, the spectroscope.

5. *Magnetism and Electricity.*—Properties of magnets; simple phenomena of magnetism and of magnetic induction; the magnetic field; lines of force; the earth as a magnet; the simpler phenomena of electrified bodies; conduction and insulation; electrification by friction and by induction; quantity of electricity; the two kinds of electrification produced

or destroyed in equal amounts; distribution of electrification on conductors; electric field; strength of field; the inverse square law of electric force; potential; capacity; energy of charge; electric discharge; electric current; the various cells; accumulators; magnetic field of current; magnetic measurement of current; galvanometers; electromotive force; difference of potential; resistance; Ohm's law. The Volt; Ohm and Ampére; heating and chemical effects of currents; thermo-electricity; identification of current with electric discharge; action on current circuits in a magnetic field; electro-magnetic induction; Faraday's law; Lenz's law; induction coil.

Summer term.—July to September, sections 1 and 2.

Autumn term.—October to December, section 3.

Spring term.—January to April, sections 4 and 5.

Practical.

Second and third terms.—Tuesday and Thursday—5th and 6th hours.

1. Units of measurement.

   (*a*) C. G. S. system.

   (*b*) F. P. S. system.

2. Measurement of simple quantities—

   (*a*) Length measurement, the use of vernier, caliper, screw gauge, spherometer, the reading microscope.

   (*b*) Volume measurements, the use of balance, determination of volumes by weighing, testing the accuracy of the graduation of a burette.

3. Density and specific gravity—

   (*a*) The hydrostatic balance; determination of the specific gravity of a solid—(1) heavier than water, (2) lighter than water.

   (*b*) The specific gravity bottle; determination of the specific gravity of—(1) powder, (2) liquid.

   (*c*) The use of hydrometers.

4. Verification of Hook's law.

5. Inclined plane.

6. Parallelogram of forces.

7. The pendulum—determination of the acceleration of gravity by the pendulum.

8. Verification of Boyle's law.

9. Measurement of the surface tension of a liquid.

10. Determination of the velocity of sound in air by measurement of the length of a resonance tube corresponding to a given fork.

11. Calorimetry—

   (*a*) Method of mixtures; determination of the specific heat of (1) solid, (2) liquid. Determination of the latent heat of (3) water, (4) steam.

   (*b*) Method of cooling; graphic method of calculation.

12. Hygrometry—

   Dine's Hygrometer. The wet and dry bulb thermometer. Regnault's hygrometer Barnes' hygrometer.

13. Photometry—

   Bunsen's photometer, Rumford's photometer.

14. (1) Verification of the laws of reflection of light.

   (2) Tracing a ray of light through a glass plate and through a prism.

   (3) To find the refractive index of a prism.

   (4) Measurement of the focal length—(*a*) of a concave mirror, (*b*) of a convex lens.

15. Magnetism—

(1) Magnetisation of a steel bar, (2) tracing lines of magnetic force, (3) determination of the horizontal component of earth's magnetic force.

16. Preparation of cells—Bunsen, Daniell, Leclanche, Bichromate.

17. Determination of resistance of a wire by Wheatstone's bridge.

18. Tangent galvanometer and its use in the measurement of electric current.

1st term.

Botany (Lectures) ... Thursdays and Tuesdays, 3rd hour. Fridays, 5th hour.

2nd and 3rd terms.

Botany (Lectures) ... Tuesdays and Thursdays, 3rd hour. Fridays, 6th hour.

Throughout the season.

Botany (Practical) ... Tuesdays and Thursdays, 1st and 2nd hours.

Botany.

This will consist of a systematic study of the science of Botany and the application of its principles to the improvement of crops—

(1) General elementary botany. The chemical elements found in plants, plant cells and tissues. The root and stem—development; modifications and uses. The leaf structure, modifications, uses, fall and advantage of fall in autumn. Inflorescences and flowers—chief types, structure and uses. Seeds and fruits—structure, food stores of economic value, distribution. Development of a seedling.

(2) Physiological processes. Respiration, transpiration, absorption of food materials and the formation of food from them. The sources from which plants obtain their food materials.

(3) Classification of flowering plants with special reference to field and garden crops and weeds. Classification and study of types of the main groups of cryptogamic plants.

Mathematics.

Algebra.

Quadratic equations.—Methods of solution.

Irrational equations—

Theory of quadratic equations.—A quadratic equation cannot have more than two roots, nature of the roots, conditions for real, equal and imaginary roots.

Relation between the roots and the co-efficients of a quadratic equation.

Equations of higher degree solved as quadratic *simultaneous* equations of the second degree.

Indices and surds.—Some important propositions.

Arithmetical progression.—Sum of n terms of an arithmetical progression.

Insertion of arithmetical means.—Examples.

Geometrical progression.—Sum of n terms of geometrical progression. Sum of infinite geometrical progression. Insertion of geometric means. Reduction of a recurring decimal. Sum of n terms of an arithmetico-geometric series.

Harmonical Progression.—Reciprocals of quantities in arithmetical progression. Harmonic mean. Formulæ connecting A.M., G.M., and H.M. Sum of special series. Sum of squares of n natural numbers. Sum of the cubes of n natural numbers.

Permutations and combinations.—Preliminary propositions; number of permutations of n things r at a time. Number of combinations of n things r at a time. To find the value of r when the expression nCr is greatest.

Binomial theorem—

Positive integral index.—Expansion of $(x+a)^n$; general term of expansion; expansion of $(1+x)^n$; co-efficients of terms equidistant from the beginning and the end are equal; sum of the co-efficients, coefficients of odd terms are equal to the co-efficients of even terms.

Any index.—Euler's proof, general term in the expansion of $(1+x)^n$. General term in the expansion of $(1-x)^{-n}$; particular cases of $(1-x)^{-n}$.

Geometry.

(*a*) Plane Geometry of the straight line and circle, as for the Matriculation Examination, with the following additions :—

1. If ABC be a triangle, and AD a median, $AB^2+AC^2=2BD^2+2AD^2$.

2. If ABC be a traingle, and AD the bisector of an angle, $BA.AC=BD.DC+AD^2$.

3. If ABC be a triangle, and AD the perpendicular on the base from A, and AE the diameter of the circumcircle through A, $BA.AC=EA.AD$.

4. If ABCD be a quadrilateral inscribed in a circle $AC.BD=AB.CD+BCAD$.

(*b*) Solid Geometry—

1. One and only one plane may be made to pass through any two intersecting straight lines.

2. Two intersecting planes cut each other in a straight line.

3. If a straight line be perpendicular to each of the two intersecting straight lines at their point of intersection, it is lso perpendicular to the plane in which they are.

4. All straight line drawn perpendicular to a given straight line at a given point are coplaner.

5. If one of two parallel straight lines be normal to a plane, the other will be so also.

6. Of all straight lines drawn from an external point to a plane the perpendicular is the shortest ; of obliques drawn from the given point, those which cut the plane at equal distances from the foot of the perpendicular are equal.

7. Straight lines parallel to a given straight line are parallel to one another.

8. The projection of a straight line on a plane is itself a straight line.

9. If a straight line be perpendicular to a plane, any plane through it is also perpendicular to the given plane.

10. If two intersecting planes be each perpendicular to a third plane, their line of section is also perpendicular to that plane.

11. In a trihedral angle, the sum of any two face angles is greater than the third.

12. In a convex solid angle, the sum of the face angles is less than four right angles.

Trigonometry.

Measurement of quantities.

The relation between the circumference and the diameter of a circle. Measurement of angle. Three systems of measurement. French system of measurement. English system and the circular measure. The relation between the three systems.

Trigonometrical ratios of an angle. Trigonometrical ratios of angles of 30°, 45°, 60°.

Practical applications.

Relation between the trigonometrical ratios of the same angle. Changes in sine, cosine and tangent of an angle as the angle changes from 0° to 360°.

The use of signs plus and minus in trigonometry and the trigonometrical ratios of angles greater than a right angle and of any angle.

Trigonometrical functions of sum or difference of two angles and of multiple angles.

Logarithms.—Definition.

Propositions $\log mn=\log m+\log n$.

$$\log \frac{m}{n}=\log m-\log n.$$

$$\log \frac{k}{m} =k \log m.$$

Common system of logarithms.

Characteristic ; mantissa.

Mathematical tables, rule of proportional parts. Relation between the sides and angles of a triangle.

Solution of triangles given—

(1) Three sides.
(2) One side and two angles.
(3) Two sides and the angle between them.
(4) Two sides and angle opposite to one of them.

Measurements of heights and distances.

Triangles.—Area of a triangle.

Triangles and circles—

Radius of circumscribed circle.
Radius of the inscribed circle, expressed in three forms.
Radius of the escribed circle, expressed in three forms.

Circles.—Area of a circle, area of a segment, area of a sector.

Applied Mathematics.

Definitions—

A body, a force, rest, statics, dynamics, a particle, a rigid body, equal forces, mass, weight.

2. Measurement of forces, forces represented by straight lines.
3. *Sub-divisions of forces*—Attraction, tension, reaction.
4. Composition and resolution of forces.
5. Parallelogram of forces.
6. Triangle of forces. Polygon of forces.

Parallel forces (*a*) like parallel forces, (*b*) unlike parallel forces.

Resultant of two parallel forces.

Moments—Definition, geometrical representation of a moment.

Theorem.—The algebraic sum of the moments of any two forces about any point in their plane is equal to the moment of their resultant about the same point.

Couple—

Centre of gravity. Definition. A uniform rod, uniform parallelogram, uniform traingle

Stable, unstable and neutral equilibrium, explained by familiar examples.

Machines—

1. Lever, three classes explained by familiar examples.
2. Pulleys, single pulley, system of pulleys.

   First system, second system, third system, mechanical advantage.
3. Inclined plane, relation between power, weight and reaction.
4. The wheel and axle, relation between power and weight. Differential axle and wheel.
5. The steel yards, common, Danish.
6. Screw, relation between power and weight.

   Hunter's differential screw.

Friction.—Definition. *Laws of friction.*

Limiting friction, co-efficient of friction, angle of friction, to determine the co-efficient of friction experimentally.

Dynamics—

Definition, speed, displacement, velocity.

Parallelogram of velocities, resultant and components.

Polygon of velocities.

Relative motion and relative velocities.

Angular velocities.

Change of velocity—Acceleration.

Theorem.—A point moves in a straight line starting with velocity u, and moving with acceleration f in its direction of motion, if v be its velocity at the end of time t, and s be its distance at that instant from its starting point then—

$v = u + ft.$

$s = ut + \frac{1}{2} ft^2$

$v^2 = u^2 + 2 fs$

familiar examples of above law—motion under gravity.

Three laws of motion.—Explained thoroughly.

Density. Weight. Momentum.

Impulse.—Definition. *Impulsive force.*

Work.—Measurement of work.

Energy, kinetic and potential; conservation of energy.

Projectiles. Hodograph and normal accelerations.

Hydrostatics.

The Bramah Press.—Transmission of pressure by water—Pascal's aw—essential parts of Bramah Press. Hydrostatic paradox.

Pressure of a fluid against a plane area.

Surface of a fluid at rest—when area is small and when area is large. To find the pressure on the bottom and sides of a vessel—when sides are vertical, when slanting; resultant ressure on bodies partly and wholly immersed in a fluid.

Principles of Archimedes. Centre of pressure.

Equilibrium of floating bodies, metacentre.

Conditions of equilibrium—stable and unstable equilibrium of floating bodies, metacentre

Veterinary Science.

Part I.—One lecture.

(1) Definition of life and death, animal anatomy, physiology and pathology.

Part II.—Two lectures.

(1) External anatomy of the horse, *viz.*, the names of the different parts of the livin body.

(2) External anatomy of cattle (ox, buffalo).

Part III.—Seven lectures.

Osteology—

(1) The bone, its parts, construction, nourishment, classification and the skeleton of the horse.

(2) The principal bones of head.

(3) Bones of cervical, dorsal, lumbar, sacral, coccygeal, pelvic, ribs, sternum and osin nominatum.

(4) Principal bones of anterior limb.

(5) Principal bones of hind limb.

(6) Arthrology, its object, principal ligaments, *viz.*, suspensory, check, ligaments of fetlock, ligamentum nuchæ and flexor-tendons.

(7) What is myology.

Part IV.—Three lectures.

Digestion—

(1) Names of different parts of alimentary canal. Names of preparatory organs, essential organs of digestion, expulsive, and accessory organs of digestion.

(2) Process of digestion.

(3) Process of rumination.

Part V.—Two lectures.

Circulation of blood—

(1) The object of circulation of blood, the different organs or parts of the system.

(2) The blood and its ingredients.

Part VI.—Two lectures.

Respiration—

(1) The object of the respiratory system, its different parts and their comparison in horse and cattle.

(2) Respiration, inspiration and expiration.

Part VII.—Two lectures.

Nervous—

(1) Different parts of cerebrospinal and sympathetic systems.

(2) Brain, its division and spinal cord.

Part VIII.—Three lectures.

Reproduction—

(1) The generative organs of male and female.

(2) Urinary system, its object and different parts.

Part IX.—Three lectures.

Sensory—

(1) Organs of special and common sense *Eye,* its tunics and humours. Appendages of the eye, vision.

Ear—

(2) External, middle and internal. *Skin* and its different layers.

(3) Hairs, different colours of horses and descriptive marks.

Part X.—One lecture.

Hoofs and its parts—

(1) Sensitive structures of the hoof liable to certain diseases.

Part XI.—One lecture.

Hygiene—

(1) The sanitary location of stables, ventilation, drinking water, wholesome food, cleaniness and stable management.

Entomology.

(1) The position of insects in the animal kingdom, and their distinguishing features.

(2) *Structure—*

(*a*) External and internal structure of a typical insect (*e. g.*, grasshopper).

(*b*) Variations in form and colour among insects—

(*i*) General adaptation to habitat and environment.

(*ii*) Various types of mouth-parts and the types of food for which each is adapted.

(*iii*) Sexual differences.

(*iv*) Variations in colour, *viz.*—

Protective coloration.

Warning coloration.

Deceptive coloration.

(3) *Life history of insects*—

(*a*) Metamorphosis—

Life history of two insects showing typical, complete and incomplete metamorphosis.

(*b*) Effect of food and climate on the appearance of insects, hibernation and æstivation.

(4) *Classification*—

General description of the main orders of insects, their differences and the way in which they may be distinguished.

(5) *Insect pests, their study and control*—

(*a*) Insect life in nature, rate of insect reproduction, natural checks and the balance of life.

(*b*) How insects become pests, human interference, suspension of natural checks, and the extension of food supply by cultivation.

(*c*) Methods of control, *e. g.*—

Agricultural methods.

Mechanical methods

Insecticidal methods.

The use of parasites.

(*d*) Insecticides, their preparation and application. Spraying machinery and its-upkeep.

(Practical works.)

1. Examination of the external characters and appendages of a grasshopper and a dissect on of the internal organs.

2. Dissection of the various types of mouth-parts. Examination of insects to show the uses of form and colour.

3. Examination of the stages of insects, showing complete and incom plete metamorphosis.

4. Examination of the types of different orders. General collection of common insects and their classification into their respective groups.

5. The preparation of different insecticides. Examination and working of the spraying machinery.

Sections 1 and 2 in first term.

Sections 3 and 4 in second term.

Section 5 in third term.

Three periods a week, including lecture and practical.

FOURTH YEAR.

Agriculture.

(*Lectures one hour a week throughout the year. One day's excursion on the last Saturday in each month throughout the year.*)

1. Capital and credit with special reference to the Co-operative Credit Societies. Discussion of Co-operative Credit Societies for buying and selling.

2. Machinery and labour. Efficiency of agricultural labour. Comparison with conditions in Europe and Canada.

3. Choice of crops with reference to soil, market and other factors.

4. Comparison of the advantages and disadvantages of different systems of rotation.

5. Agricultural experiments, methods of conducting and interpretation of results. Testing of land, size of plots, etc.

6. Demonstration work, seed distribution methods.

7. Foods and feeding, study of common rations from the energy standpoint.

8. Agricultural improvements in the Punjab.

Agricultural Chemistry.

(Lecture one hour a week throughout the year.)

1. *Soils*—

The origin of soils, classification, chemical, physical and biological, relationship between the soil and the plant. Analysis of soils, available plant food. The moisture of the soil, movement of water in the soil. The effect of heat on the soil.

Specific heat of soils; soil density. Fertile and barren soils. Alkaline soils; cause of alkalinity; method of curing alkali soils.

Drainage and aeration of soils.

2. *Manures*—

General history of agricultural chemistry from the earliest time and the relationship between progress in science and the arts, and progress in agriculture.

Plant food, the essential elements necessary for the growth of the plant. The sources of manurial constituents, methods of application and effect on the plant organism.

3. *Biochemistry*—

Chemical action in living matter, catalysis and enzymic action; colloids and crystalloids; osmotic pressure. Simple cells, bacteria, fungi and yeasts. The study of optically active substances; sugars and glucosides, amygdaline and its decomposition products (a) and (β) methyl glucoside; hydrolysis of glucosides.

Germination of wheat or barley, preparation and properties of *amylase*; function of *amylase* in germination, condition of formation of *amylase*.

Preparation and properties of *invertase* and *maltase*.

Alcoholic fermentation of sugar, *zymase*, condition of the reaction.

Acid fermentation of alcohols and carbohydrates, acetic and lactic acid fermentation Fermentation of cellulose and allied bodies.

Fat splitting enzymes, *lipáse*.

Oxidases (*tyrosinase*). The clotting enzymes *rennet* and *thrombose*.

Decomposition of the albumins, action of *pepsin* and *trypsin*, albuminoses and peptones, polypeptides and the amino acids, conditions of digestion and absorption of food.

Elementary chemistry of the albumins.

The mono-amino acids glycol; skatol and indol; alanine and tyrosin.

Hydroxy-amino acids, serin.

Diamino acids, arginin, guanidine and lysine.

Sulphur bodies, cystol.

Ptomains.

Preparation of albumins ex. Edestin from hemp seed.

The nitrogen cycle. Nitrification and denitrification, nitrogen fixations in the soil.

The sulphur cycle.

Special fermentation of manufacturing processes ; indigo, tea, coffee, cocoa and tobacco The fermentation of farm yard manure.

Treatment and purification of sewage—

Part 1	First term.
Part 2	Second term.
Part 3	Third term.

Text-books recommended—

Hall's	Soils.
Russell's	Soils.
Hall's	Fertilisers and Manures.
Hall's	How Plants and Animals Feed.
Fowler's	Bacteriological and Enzymic Chemistry.

Practical Chemistry

Tuesdays and Thursdays, 1st, 2nd and 3rd hours throughout the year.

1. *Analysis.*—Gravimetric and volumetric analysis.

(1) Preparation of standard solutions and the estimation of the metals, copper, lead, iron, aluminium, zinc, calcium, magnesium, sodium and potassium, sulphates and chlorides, silicic acid.

(2) (*a*) Estimation of nitrates and use of Lunge's nitrometer.

(*b*) Nitrates by means of phenol sulphuric acid.

(3) Estimation of nitrites, phosphoric acid, separated as phosphomolybdate and weighed as magnesium pyrophosphate.

(4) Total nitrogen by Kjeldahl's method.

2. *Analysis of soil.*—

Mechanical analysis of soil.

Sedimentation.

Chemical analysis of soil.

Estimation of lime, carbon dioxide, insoluble matter.

Total nitrogen, phosphates and potash.

Empirical analysis for available plant food material.

Analysis of alkali soils. Separation by means of Berkfield filter.

3. *Manures*—

Analysis and valuation of the following manures :—

Farm yard manure. Oil cake. Potash manures.

Phosphatic manures. Superphosphate and basic slag.

Calcium cyanamide.

5. *Analysis of farm products*—

Milk analysis—

(*a*) Total solids by the absolute method, the use of Richmond's scale.

(*b*) Specific gravity of milk.

(*c*) Fat. Absolute method by extraction with ether (Werner's method), use of Liste Gerber's apparatus in estimating fat in milk.

(*d*) Proteins by Kjeldahl's method.

5. *Butter*—

Analysis for fat, moisture, added substances, examination of butter fat, physical and chemical constants of butter fat. Refractive index of fats and the use of the refractometer and butyrometer.

6. *Analysis of fats and oils*—

The estimation of oil in oil-cakes.

The determination of saponification equivalent.

Acid value, acetyl value, iodine value of fats.

Example.—Butter fat (ghi), cocoanut oil, castor oil, linseed oil, cotton-seed oil.

7. *Sugar analysis*—

Determination of the amount of juice and bagasse yielded by an ordinary farm mill.

Analysis of juice. Specific gravity of juice.

Determination of total solids from sugar density tables. The estimation of sugar, the use of polarimeter and saccharimeter. The determination of reducing sugar and use of Fehlinge solution.

8. *Fermentation*—

(1) The alcoholic fermentation of gur solution by common yeasts. The estimation of alcohol. Alcohol tables, measurement of the contraction of alcohol on dilution.

(2) Germination—The germination of barley and the preparation of malt. Preparation of *amylase* from barley and its action on starch. Diastatic power of commercial malt.

(3) Action of *trypsin* and *pepsin*.

(4) *Rennet* and coagulation of milk.

(5) Determination of oxidation value of soils.

9. *Protein reaction.*

Text books recommended—

Clowes and Coleman	... ...	Quantitative Analysis.
Auld and Ker	... ...	Practical Agricultural Chemistry.

Other books of reference will be provided in the college library.

Botany.

Lectures	... ...	Mondays, Wednesdays and Fridays, three hours throughout the year.
Practical	... ...	Mondays, Wednesdays and Fridays, 1st and 2nd hours throughout the year.

(1) Detailed study of agricultural crops (mainly in the fields)—

Influence of environment; effects of climate and cultivation on plants.

Seeds—Advanced study and practice of the methods of estimating purity and germinating capacity. Further identification of seeds of common crops and weeds.

Plant propagation—Further study of the influence of various methods on the produce.

Plant variation—Mendel's laws of inheritance. Further study of the improvements of crops by plant selection and hybridization. Possibilities of developing improved types. Study of common plant products. Characters, common uses, detection of impurities, macroscopically and microscopically.

(2) Fruit culture—

A study of the chief fruits of the province. Their requirements for successful growth. Selection of orchard sites. Principles and practical use of budding, grafting, layering, hybridizing and pruning. Points to be observed in transplanting. Protection of the trees by wind breaks, mulches, etc. Harvesting, storing and marketing of fruits, etc. The students will be associated as far as possible in the experiments under Economic Botanist in the botanical area.

(3). Mycology—

The nature of fungi. Their position in the vegetable kingdom. Structures of hyphæ, mycelia, sporophores, spores. Methods of reproduction. Habits and habitats of fungi. Food and food stores. Saprophytes and parasites and their modifications. How fungi spread. Manner of infection. Effect of the parasite on the host tissues and organs. Predisposition to disease, immunity.

Classification of fungi—Characters of the main groups and of the important families.

The special study of those common diseases of field and garden crops which have been sufficiently worked out.

Remedies and their modes of action. Preparation and practical application of fungicides.

(4) An elementary study of bacteria, more specially in relation to fixation of free nitrogen in leguminous crops. Symptoms and prevention of disease.

This course will consist of lectures combined with practical work in the laboratories and in the field.

Veterinary Science.

(Three hours a week during 2nd and 3rd terms: one hour a week during first term.)

Part I.—Thirteen lectures.

Different terms used in administering medicines, *viz.*, Antiseptics, Disinfectants, Deodorizers, Demulcents, Counter irritants, Caustics, Stimulants, Antispasmodics, Astringents, Anthelmentics, Febrifuges, Tonics, Alteratives, Stomachics, Purgatives, Expectorants, Dieuretics and Diaphoretics.

The uses, actions and doses of the following aloes :—

Prohibition of snares and traps and nets.

2. The setting of traps, nets and snares except by the special permission of the Divisional Forest Officer is prohibited. This rule does not apply to the trapping of musk deer, or the snaring of hawks, which are governed by rule 6.

Prohibition of driving in the snow.

3. The driving and killing of big game in the snow are absolutely prohibited.

Big game licenses.

4. The shooting of big game is absolutely prohibited except under license to be granted by the Divisional Forest Officer:

Provided that no officers or men actually serving with any Gurkha regiment stationed for the time being at Dharmsala shall be required to take out a license under this rule, except for the purpose of shooting big game in the Kulu Sub-Division or Bangahal. Such officers and men will, however, be subject to the prohibitions and restrictions contained in the proviso to rule 5 below, and will not be entitled to shoot big game in any forest closed to sport by the Conservator of Forests.

Big game license.

5. A license, for which the sum of Rs. 20 in the case of Kulu, Lahaul, Spiti and Bara Bangahal and of Rs. 5 in the rest of the Kangra District, will be charged, will permit the holder to shoot big game in any forest which has not been closed to sport by the Conservator subject to the provision of Punjab Government notification No. 1390-S. (Forests), dated 5th September 1916, and provided that he does not kill (a) more than the following numbers of the animals specified, or (b) immature specimens, or (c) females other than she-bears :—

(1)	Ibex or Tangrol (Capra sibirica) ...	3 (no head to measure less than 30")
(2)	Nyan (Ovis hodgsoni) ...	1 (minimum head 42").

(7)	Serow or Yamu (Nemorhœdus bubalinus).	1
(8)	Barking deer or Kakar (Cervulus muntjac).	3
(9)	Red bear (Ursus arctus) ...	2
(10)	Spotted deer or Chital (Cervus axis) ...	2 (minimum head 30").
(11)	Indian antelope or Hiran (Antilope cervicapra).	3 (minimum head 20").

Musk-deer: hawks.

6. The shooting of musk-deer, both male and female, is prohibited, and no such animal may be taken except as provided by the terms of the Forest Settlement, or under license of the Assistant Commissioner, Kulu Sub-Division. The snaring of hawks is prohibited except under the terms of the Kulu Forest Settlement and under license of the Assistant Commissioner, Kulu. All such licenses issued for the trapping and snaring of musk-deer or hawks shall specify the kind of trap or snare to be employed and the manner in which it is to be set.

Special permission as to licenses.

7. Licenses to shoot big game will remain in force for twelve months from the 1st January of the year of issue, and are not transferable. Every license must be returned to the office of issue within a fortnight of the date of its expiry, and the license holder must endorse upon it the number and kind of big game killed. The Conservator of Forests may (*a*) in the case of residents of Kulu other than officials, issue a family license to cover shooting by all members of the family of the holder residing in his house, and (*b*) in the case of officers travelling on duty, issue a temporary permit for a period not exceeding 30 days on payment of Rs. 5.

NOTE.—The number of animals which may be killed under a family license is restricted to the number fixed in rule 5.

Applications for licenses

8. Applications for licenses should be sent by registered post to the Divisional Forest Officer, Kulu, or to the Divisional Forest Officer, Kangra Forests Division, according to the locality in which it is proposed to shoot.

The Conservator of Forests, Punjab, may at his discretion limit the number of licenses to be in force at any one time.

NOTE.—Bara Bangahal and Chota Bangahal are in Kangra Division, Lahaul and Spiti are in Kulu Division. All forests lying west of Bangahal are in Kangra Division.

Employment of shikaris.

9. All holders of licenses to shoot big game in Kulu and Lahaul must employ a shikari registered on the list of shikaris maintained in the Divisional Forest Office at Naggar. The Divisional Forest Officer, Kulu, may at his discretion refuse to enter any name on this register, and may strike off any name therefrom. No man not so registered may be employed as a shikari. The yearly registration fee is Re. 1 in exchange for which a badge and certificate will be issued.

Penalties.

10. Breaches of these rules are punishable under sections 25 (1) and 32 of Act VII, 1878, or by the confiscation of any privilege granted under them, or both.

Rights of the Rai of Rupi.

11. Apart from rule 5 nothing in these rules shall be deemed to interfere with the recorded "sporting rights" of the Rai of Rupi within the limits of his own jagir.

Sheep killers.

12. Nothing in these rules shall prevent the destruction of any red bear known to be a sheep killer, either in defence of property or with the permission in writing of the Assistant Commissioner or the Divisional Forest Officer, Kulu.

13. The Conservator of Forests may prepare in October of each year a list of forests which shall be closed to the public generally for hunting and shooting as sanctuaries for the protection of game. The list shall be published in the *Punjab Gazette*, a copy shall be hung up for information in the offices of the Deputy Commissioner and Divisional Forest Officer, and a copy shall be given to every person taking out a shooting license.

14. A license may be cancelled at any time by the officer granting it, or by the Conservator of Forests. Any breach of the Forest Act or of any rule made under the Act, if committed by the holder of the license or any of his retainers or followers, shall render the

license liable to cancellation. Licenses are liable to be declared invalid in regard to any particular forest in case of fire breaking out in any part of that forest or in case of unwarrantable interference with forest work.

15. The holder of a license is not exempted from liability under the Forest Act, or any other law for anything done in contravention of such Act or law, or for any damage caused by him, his retainers or followers.

NOTE.—Sections 25 (i) and 32 (h) of the Forest Act prescribe penalties for breach of these rules, and section 67 of that Act empowers the Divisional Forest Officer to compound any such breach on payment of a sum of money.

No 1394-*S*.—*Notification*.—Under the provisions of sections 25, clause (*i*), 31, clause (*j*), and 75, clause (*d*), of the Indian Forest Act, VII of 1878, the Lieutenant-Governor is pleased to make the following rules to regulate the shooting, trapping or killing in any way of Urial in reserved and protected forests in the Attock, Jhelum, Shahpur and Mianwali districts. This notification cancels all previous shooting notices relating to these forests, except notification No. 76, dated the 7th May 1891, which will remain in force :—

RULES.

1. The shooting, trapping or killing in any way of Urial is absolutely prohibited between September 16th and March 14th, inclusive, and at all other times except under license to be granted on payment of a fee of Rs. 20 by the Deputy Commissioner of the district concerned, provided that the Deputy Commissioner may delegate authority to grant licenses to the Forest Officer of the division.

2. The following rules will govern the issue of licenses :—

(*a*) One person will not ordinarily be allowed to shoot more than 2 male Urial in one shooting season.

(*b*) No male Urial having horns less than 23 inches in length may be shot.

(*c*) A license will not ordinarily be granted for a period of more than 10 days.

(*d*) An application for a license will not be considered more than one month before the date on which the license is required.

(*e*) All licenses are issued subject to the conditions printed therein.

(*f*) In the absence of any future notice which may be issued by the Conservator of Forests, Punjab, persons requiring licenses should apply to the Deputy Commissioner of the district concerned.

3. The total number of Urial which may be shot in any district during each shooting season will be settled by the Conservator of Forests, Punjab, in consultation with the local officers.

4. Gazetted Officers serving the Punjab Government when on tour within their district may shoot without obtaining a license, provided that—

(*i*) they do not visit any block at the time when it has been assigned to another licensee;

(*ii*) they are bound by the shooting rules in all other respects.

5. Deputy Commissioners of the districts specified may exempt individual land-holders in the possession of arms-licenses from the operation of these rules.

MILITARY.

The 18th September 1916.

No. 68-Mily.-II-15.—Notification.—In exercise of the powers conferred by section (4) (i) of the Punjab Military Transport Act, 1916 (I of 1916), the Lieutenant-Governor of the Punjab is pleased hereby to declare that all Tahsildars, Naib Tahsildars and zaildars shall be Transport Assistants for the purposes of the said Act within their tahsils and zails, respectively.

In districts where no zaildars have been appointed, the halkadar, ilakadar or inamdar, as the case may be, shall be the Transport Assistant within the limits of his circle.

No. 68-Mily.-II-16.—Notification.—In exercise of the powers conferred by section 30 of the Punjab Military Transport Act, 1916 (I of 1916), the Lieutenant-Governor of the Punjab is pleased hereby to make the following rules :—

RULES UNDER THE PUNJAB MILITARY TRANSPORT ACT, I OF 1916.

Powers and duties of Transport Inspection Officers and of Transport Assistants.

1. Subject to the general control of the Deputy Commissioner, the Transport Inspection Officer may inspect all animals and things liable to impressment within the area in which he exercises his powers under the Act.

2. Every Transport Inspection Officer will send to the Deputy Commissioner concerned a programme of the tour of inspection which he proposes to make.

3. Every Transport Inspection Officer may issue such orders as he may deem necessary for the due discharge of his duties under the Act to any Transport Assistant in his circle ; but orders for the collection of animals or things for inspection shall ordinarily be sent by him direct to the Zaildar Transport Assistants and not to the Tahsildar.

4. Every Transport Assistant shall obey to the best of his ability all orders which he may receive from the Transport Inspection Officer.

5. Every Zaildar Transport Assistant shall render all reasonable aid to the patwaris of his zail in the biennial enumeration of camels and mules made under these rules.

6. Every Zaildar Transport Assistant shall keep a memorandum of the number of bullocks fit for military transport available in each village in his zail.

7. It shall be the duty of every Transport Assistant receiving a requisition for the supply of animals or things for military transport to see that only fit animals or things are sent to the collecting centre.

Enumeration of mules and camels.

8. During the first week of August in every alternate year commencing from the year 1917 every patwari shall make a count of all mules and camels present in his circle, and shall enter in a register to be known as the Patwari's Military Transport Register the total number of mules, the total number of male camels of 6 years of age and over, the total number of male camels under 6 years of age, and the total number of female camels. In the case of mules and camels which do not belong to his circle, he shall make a note showing the principal areas or districts from which they come and the gross number from each such area or district. The register shall be in Form 1 appended to these rules.

9. Every owner or person in charge of any mule or camel and every lambardar shall be bound to give to the best of his ability any information which the patwari may require to fill up the entries in his register, and every owner or person in charge shall be bound, if so required by the patwari, to produce such animal or camel for enumeration at such time and place within the limits of his village as the patwari may fix.

10. The patwari shall be bound to produce his register for inspection by the Transport Inspection Officer whenever the latter may so order.

11. The patwari shall take or send his register to the tahsil not later than the 15th of August for the purpose of filling up the entries in the Tahsil Military Transport Register, which shall be in Form 2 appended to these rules. The Patwari's Register shall be returned to the patwari not later than the end of August. Before the 15th of September the Tahsil Register shall be sent to the district head-quarters for the purpose of filling up the entries in the District Military Transport Register, Form 3. The Transport Inspection Officer may examine any of these registers.

12. In municipalities and in notified areas the Deputy Commissioner may require the committee to have the enumeration of camels and mules carried out as aforesaid by servants of the municipal committee or notified area. The committee shall send its returns to the office of the Deputy Commissioner and they shall be entered in the District Register, but it shall not be necessary for the committee to maintain a register of its own. In other respects the above rules shall apply in the case of this agency equally as in the case of the patwari.

Inspections.

13. When a Transport Inspection Officer wishes to hold an inspection of any animals or things liable to impressment, he shall give notice in good time to the Deputy Commissioner of his intended visit, and shall also send an intimation to the Transport Assistant concerned, stating what animals or things he wishes to inspect and the places and times at which he will inspect them.

14. The Transport Assistant shall on receipt of this intimation take all necessary steps to ensure the presence of the animals or things at the times and places appointed. He will ordinarily cause a notice of the inspection to be proclaimed in each village or town where such inspection is to take place, and may in such notice call upon any owner or person in charge of animals or things then present in the town or village to produce them at the time and place appointed, and may also require any person owning land or resident in the village to bring in for inspection any animals or things belonging to him which may be in the neighbouring villages.

15. Every lambardar and village watchman shall be bound to give the Transport Inspection Officer and the Transport Assistant all reasonable aid in procuring the presence of the said animals or things.

16. Every owner or person in charge of any animal or thing shall be bound to give the Transport Inspection Officer such information as he may require regarding the fitness of the animal or thing for purposes of military transport, and shall in the case of camels and mules state, if required, their permanent abodes and the places where they usually ply for hire.

Distribution list for purposes of requisition.

17. The Collector in consultation with the Transport Inspection Officer shall prepare a distribution statement (Form 4) showing the number of bullocks which are available for requisition for purposes of military transport from his district, the figures being given by tahsils. This statement shall be entered in the District Military Transport Register. Similarly, the Tahsildar shall prepare a distribution statement (Form 5) for his tahsil, giving the figures by zails and entering the figures in his Tahsil Military Transport Register. The zaildar shall keep a memorandum showing the number of bullocks available from each village in his zail.

The distribution statements shall be revised from time to time, as may be necessary. Copies of the original statements and of the revised statements shall be forwarded by the Collector to the Director of Land Records, Punjab.

Committees of Assessment.

18. The Committee of Assessment to be constituted under section 12 shall consist of the following members :—

(1) A civil officer not below the rank of an Extra Assistant Commissioner, to be nominated by the Deputy Commissioner.

(2) A land-owner of the district, to be nominated by the Deputy Commissioner.

(3) The officer authorized under section 11* or any person deputed by him or nominated by the General Officer Commanding the Division for this purpose.

19. The Register of Assessment to be maintained by the Committee shall be in Form 6 appended to these rules.

Impressment for hire in times of peace.

20. The Collector may impress for hire for the purposes of military transport on occasions other than active service and grave emergency all animals and things liable to impressment under the Act. The terms and conditions of hire are set out in the appendix to these rules.

Powers of entry.

21. Except in cases of suspected concealment of animals or things liable to impressment, the power of entry conferred by section 21 of the Act shall not be exercised after sunset or before sunrise.

22. In cases of entry under section 21 of the Act, reasonable opportunity shall be given to the women of the household to withdraw.

Establishment of depots.

23. The Collector shall provide at least one depôt at each collecting centre in his district, and shall provide the necessary establishment for the same.

24. The Collector shall make adequate arrangements for the safeguarding of goods deposited in each depôt, and for their protection from weather and insect pests and vermin.

25. The person appointed by the Collector to be in charge of the depôt shall maintain a register of deposits in Form 7 appended to these rules, and such other records as may be prescribed by the Collector.

26. A receipt in Form 8 shall be given by the person in charge of the depot for all goods deposited in the depôt.

*NOTE.—When impressment for active service or grave emergency becomes necessary, the Local Government will authorise an officer, who will be nominated by the Military Department, under section 11 of the Act.

27. The person in charge of the depôt shall cause a number to be marked in clear figures on each separate article or package to enable it to be readily identified.

28. Any person depositing any goods in a depôt shall draw the attention of the person in charge of the depôt to any goods of a perishable nature among those deposited by him, and the person in charge shall without delay obtain the orders of the Collector regarding their sale or disposal.

29. Subject to the provisions of section 25 (4) of the Act, goods deposited in a depôt shall be returnable to the person making the deposit or to the consignee declared by the person making the deposit.

30. The Collector shall in the notice to the consignee in which he calls upon him to take delivery warn him that if delivery is not taken within three months, the goods will be sold by auction.

31. Auction sales shall be held by a person deputed for this purpose by the Collector.

32. No goods shall be deposited in a depôt except goods taken from an animal or things purchased or hired under this Act for active service or for an occasion of grave emergency. The depôt shall not be available for the deposit of goods taken from animals or things hired in times of peace, or from animals or things before they are approved for hire or purchase by the officer appointed under section 11.

33. No fees shall be chargeable in respect of the deposit of goods in a depôt or for their sale by auction.

34. The deposit of goods in a depôt shall not be compulsory, but the owners or persons in charge of animals or things impressed should be informed that loads can be deposited in a depôt free of charge.

General.

35. On occasions of active service or grave emergency all animals or things, except boats, impressed shall be purchased and not hired. This rule does not apply to grantee camels.

36. The Register of Assessment referred to in rule 19 shall be kept in the office of the Deputy Commissioner of the district concerned.

37. It shall not be necessary to assess the value of animals or things impressed for hire in times of peace.

38. Owners of animals collected as a collecting centre in pursuance of an order under section 8 of the Act shall receive from the purchasing officer, *if the animals are not accepted,* a subsistence allowance at the following rates :—

—	If seized or collected within 15 miles from the collecting centre.	If seized or collected over 15 miles and within 30 miles from the collecting centre.	If seized or collected beyond 30 miles from the collecting centre.

Appendix I.

H.—CARRIAGE.

(NOTE.—As this appendix is Part of Financial Commissioners' Standing Order No. 58 and is subject to amendment from time to time that Standing Order should be referred to. A copy of it is in every District Office.)

I.—The following are the Military Rules on this subject—*vide* Appendix VII, Army Regulations, India, Volume X, edition 1912 :—

1. Requisition on the civil authorities for hired carriage required for the movements of troops or stores should be prepared on I. A. F. S. 1675, giving full details of requirements and sent so as to reach the District or Political Officer concerned, if possible, not less than fifteen days (one month in Gwalior State) before the carriage is required. Correction Slip No. 144 S. O., dated 9th January 1911.

2. Hired carriage will not ordinarily be required to proceed beyond the limits of the next civil district on the route, but will be exchanged, if possible, at such stations therein as may be fixed by the local civil authorities. It will be paid for at the authorised local hire rate from the date on which it is engaged by the civil officer for the march to the date of its discharge, both inclusive, but if taken double marches double rates will be paid for each such march. Return hire will only be admissible when the carriage is necessarily taken beyond the nearest exchanging station, when half the full hire rate will be paid for each route book or other recognized stage on the return journey, without any allowance for halts. When circumstances render it necessary to collect the carriage before the date on which it is required, the civil authorities will always notify to the indenting officer the time required for collection prior to the start, and the probable extra expense that will be incurred. Similarly, any carriage indented for which may be found in excess of final requirements and discharged before the march commences will be paid for at the full hire rate, for each day or part of a day for which it is retained. If carriage is declared unserviceable by a committee of officers (which should include a civil officer), it will not be paid for. When chaudhris are engaged to collect carriage, their fees at local rates will be paid by the owners and not by the Military Department. Correction Slip No. 144 S. O., dated 9th January 1911.

3. On engagement of the carriage, the civil or political officer will advance to the owners half the estimated hire for the full journey, and will send the carriage to the place required in charge of a tahsil or darbar official, who will hand to the requisitioning officer a detail of the composition of the carriage, authorised loads, hire rates, owners' names, amount advanced and receipts for the same, and intimation as to the station at which the carriage should be exchanged (see I. A. F. S. 1675). The amount advanced will be at once repaid to the civil officer by the Supply and Transport Corps.

4. The civil officer supplying the carriage will at the same time warn the civil officer at the first exchanging station of the transport requiring exchange, and the date and place at which it will be required. The latter will then proceed as in paragraph 3 and warn the next exchanging station. Similar action will be taken at each exchanging station on the route.

5. Should any change be required *en-route* in the original quantity and description of transport supplied, the Officer Commanding the troops must give the civil officer at the exchanging station concerned as much notice as possible.

6. Carriage breaking down between exchanging stations should be replaced on the spot in communication with the local civil officials, and paid off. If the advance received has not been liquidated, the owner must refund the amount then due.

7. On arrival at an exchanging station or at destination, the carriage should be at once released and paid off by the Supply and Transport Officer if there is one, otherwise by a British Officer of the marching unit in the presence of the civil official attached to the troops, the acquittance roll being signed by both and countersigned by the Officer Commanding. Any disputes will be referred to and settled by the district civil officer at the place at which the transport is released.

8. If carts are brought from a distance and detained at a camp of exercise, etc., the full rate of hire will be paid for each day for such detention. Carriage should not, however, be detained at a camp which lasts for five days or over, except in very special circumstances. Correction Slip No. 144 S. O., dated 9th January 1911.

9. When carriage is discharged, a certificate in English and the Vernacular should be given by the civil officer at the exchanging station or by the civil officer accompanying the troops, to each person in charge thereof, to protect the carriage from being taken for the use of troops while on its return journey, unless such troops are marching in the direction of the owner's home. If so employed, the full hire rate will be paid.

[*Para. 224, Army Regulations, India, Volume X.*]

10. The Officer Commanding will be responsible that animals are not overladen nor ill-treated, and that on arrival at destination or an exchanging station all carriage is released as early as possible. Animals must always be unloaded when crossing rivers in boats. Hired transport establishments not being amenable to Military discipline, any serious misbehaviour on their part must be dealt with in communication with the civil authorities.

II.—The following supplementary rules are issued by the Financial Commissioner with the approval of the Local Government :—

1. The responsibility for the supply of carriage for the movement of troops or for individuals in Military employ, authorised to travel at the public expense, or for stores, rests, in the first instance, with the Supply and Transport Corps. It is only when that Corps is unable to meet the demand that a call will be made on the civil authorities.

2. A copy of Form I. A. F. S. 1675, referred to in Rule I (1), is given as Appendix A to this Standing Order; the exchanging stations referred to in Rule I (2) are detailed in Appendix B and the local hire rates in Appendix C.

3. The cost of return hire for carriage taken beyond an exchanging station [Rule I (2)] will be a charge against the Military Department if the Commanding Officer of the regiment has failed to give due notice of his requirements, or if a relief has been provided by the civil officer responsible, but has not been taken up by the regiment or detachment for which it is supplied. If such relief has not been provided in spite of due notice to the civil officers the excess payment will ordinarily be a charge against the Civil Department. The District Officer should report to the Commissioner each case in which he has declined to furnish a relief, assigning reasons for the same. The Commissioner will notice any cases in which the reasons are not satisfactory; for much of the hardship entailed under existing arrangements upon owners of cattle is owing to the rules regarding relief not being attended to.

4. For carriage, employed in any part of the Punjab during the rainy season or between the 1st of June and 1st of October, an additional charge will be made equivalent to 25 per cent. on the hire that would be leviable according to the local rates. This rule is subject to the special provisions of the Simla rules, which allow half rates for halts and back hire in certain cases, and dispense with the additional charge of 25 per cent. This rule does not apply to the Gurdáspur, Attock and Ráwalpindi Districts, rates for which are specially provided. Correction Slip No. 144 S. O., dated 9th January 1911.

5. Ordinarily chaudhris will arrange with the owners of carriages as to the scale of fees to be paid, but in the absence of any special engagement, they will be entitled to 6 pies or half-an-anna per rupee on the total hire due for carriage from the station at which it is engaged to the station at which it ought to be relieved. In the case of coolies and bearers the chaudhri' fees will be 6 pies or half-an-anna per man.

(6) An exception to the Military Rule, which lays down that chaudhri's fees will be paid by the owners, exists in the Simla District, where chaudhri's fees are added to the rates of hire fixed by the Local Government, and are therefore paid by the hirers of carriage.

(7) (i) The civil officer furnishing the carriage is bound to see that the advance referred to in Rule I (3) is made before the carriage is made over to the applicant. He is also bound, before granting the passport referred to in Rule I (8) and formally discharging the carriage, to satisfy himself that the owners have been paid in full according to the prescribed rates.

(ii) This advance will be drawn from the Treasury on a simple receipt, and on its being recouped by the Supply and Transport Corps will be refunded into the Treasury.

(8) The owner of carriage should be supplied with a copy of the requisition filled up in English and Urdu characters.

(9) All tolls will be payable by the hirer of carriage in cash or by free pass.

(10) The rules and tables of rates should be hung up in dák bungalows, serais, tahsils, thanas and other public places.

(11) Monthly rates, when not specified, will be determined by mutual agreement.

(12) For the purpose of calculating remuneration for carriage, a part of a stage must be treated as equivalent to a whole stage.

Correction Slips No. 144 S. O., and No. 300 S. O., dated 9th January 1911 and 22nd January 1913.

(13) The authorized loads, except in the Ráwalpindi, Attock and Gurdáspur Districts, and the Kúlu Sub-Division of the Kángra District, are as follows:—

COMMERCE AND INDUSTRY DEPARTMENT.

The 27th September 1916.

No. 910.—*Notification.*—The following draft rules which the Lieutenant-Governor proposes to make, in exercise of the powers conferred by section II of the Indian Motor Vehicles Act, VIII of 1914, are published for general information, and notice is hereby given that the said draft rules will be taken into consideration on or after the 15th November 1916, and any objections or suggestions received by that date will be duly considered :—

DRAFT RULES.

Motor vehicles on the Rawalpindi, Murree and Kohála Road.

1. No motor vehicle shall be let or plied for hire on the Ráwalpindi-Murree-Kohála Road unless it is granted a special road certificate each year for this purpose by the District Magistrate of Ráwalpindi.

2. Before registering such a vehicle the District Magistrate shall be satisfied—

(*a*) that it is provided with two independent brakes or other means of stoppage in good working order and of such efficiency that the application of either is capable of promptly stopping the motor vehicle, whether going forwards or backwards ;

(*b*) that, except in the case of a heavy motor vehicle as defined in the rules in Government notification No. 553 of 1st April 1915, it is provided with pneumatic tyres or tyres of a soft or elastic material, and its greatest breadth does not exceed 6′ 6″.

3. On every motor vehicle registered under these rules the owner shall cause to be affixed to some conspicuous part of the vehicle a card containing the following particulars in the English language and signed by the District Magistrate :—

(*a*) Registered No. of the car.

(*b*) Owner's name and address.

(*c*) Date up to which the road certificate is in force.

(*d*) The maximum number of passengers permissible, excluding the driver.

4. Every motor vehicle granted a road certificate under these rules shall be produced for examination by the District Magistrate from time to time as he may direct, and if he is of opinion that the motor vehicle has ceased to comply with the requirements of any of these rules or that it is unserviceable or unsafe or unfit for public accommodation or use, he may, after notice to the registered owner, cancel the road certificate until such time as the defects are rectified to his satisfaction.

5. On the portion of the road between Murree and the Toll Bar the speed at which a motor vehicle is driven shall not exceed 15 miles per hour.

6. No motor vehicle other than a heavy motor vehicle, defined in rule 1 (3) of the "Heavy Motor Vehicles Rules" shall be driven on the Ráwalpindi-Murree-Kohála Road if it is so loaded that the maximum breadth of the vehicle and the luggage on it shall exceed the limit of 6′ 6″ laid down in Rule 2.

7. No driver shall drive a motor which is let or plied for hire on the Ráwalpindi-Murree-Kohála Road unless he is specially licensed for that purpose by the District Magistrate.

8. The District Magistrate may refuse to grant a license to drive under rule 7 to any person who does not prove to his satisfaction that he is competent to drive a car with safety on a hill road or who is shown to his satisfaction to be guilty of rash or negligent driving.

An appeal shall lie to the Commissioner of the Division from the District Magistrate's refusal to grant a license.

9. A breach of rules 1, 3, 5, 6 or 7 will be punishable under section 16 of Act VIII of 1914.

10. The following fees in addition to any fees payable under Act VIII of 1914 and the other rules thereunder are payable :—

(*i*) For a road certificate for a motor vehicle a fee of Rs. 5 per annum from the 1st of April in each year.

(*ii*) For a license to drive under these rules a fee of Rs. 5 per annum from the 1st of April in each year, provided that only half fees shall be charged for a license or road certificate granted after September 1st in any year under these rules.

The 3rd October 1916.

No. 9-Medl.-5.—*Notification.*—In exercise of the powers conferred by section 24 (1) (i) of the Punjab Registration of Medical Practitioners Act, II of 1916, the Lieutenant-Governor of the Punjab is pleased hereby to make the following rules for the *First* Election of Members of the Punjab Medical Council, under clauses (c), (d), (e) and (f) of section 5 (1) read with the proviso to section 6 of the said Act :—

Preliminary.

1. "Returning Officer" means the Inspector-General of Civil Hospitals, Punjab, and includes any person deputed by him to perform his duties.

Electoral groups.

2. Members are to be elected by the following electoral groups :—

(a) Two members by medical practitioners who are registered under the British Medical Acts.

(b) Three members by the practitioners who are Graduates or Licentiates in Medicine of the University of the Punjab.

(c) One member by the practitioners who hold a diploma from the Punjab Government declaring them to be qualified to perform the duties of a Hospital Assistant or a Sub-Assistant Surgeon.

(d) One member by all other practitioners in the Punjab who are qualified to be registered under clause (a) or (b) of section 13 of the Act.

Electoral Rolls.

3. The electoral roll for each electoral group shall be published in the *Punjab Gazette* on or before the 24th November 1916.

4. Any person claiming to have his name included in any electoral roll shall apply to the Inspector-General of Civil Hospitals, Punjab, on or before the 10th November 1916.

In his application he shall state the particulars required by Form I of the Appendix to these rules.

[NOTE.—The electoral roll prepared under these Rules is of a temporary character only, and is made solely for the purpose of the *First* Election of Members to the Council. Inclusion in it will of itself give no right to inclusion in the permanent register to be prepared subsequently by the Medical Council.]

5. If the Inspector-General of Civil Hospitals, Punjab, is satisfied that the applicant is entitled to have his name entered in the electoral roll for which he applies, he shall enter his name accordingly.

6. The decision of the Inspector-General of Civil Hospitals, Punjab, whether any person is entitled to have his name entered in an electoral roll shall be final, and the electoral roll shall be conclusive evidence for the purpose of determining whether any person is an elector or not under these rules.

Nomination of candidates for election.

7. (1) Any person whose name is included in the electoral roll of any electoral group may be nominated as a candidate for that or any other group.

(2) Such nomination shall be made by means of a nomination paper in Form No. II in the Appendix to these rules, which shall be supplied by the Returning Officer concerned to any elector who may apply for the same.

(3) Each nomination paper shall be subscribed by two electors as proposer and seconder, who shall belong to the group for which the candidate is nominated.

Provided that no elector shall propose or second the nomination of more than one candidate for the same group.

8. If more nomination papers than one for any group be subscribed by the same elector, then only the nomination paper first received by the Returning Officer shall, if otherwise in order, be held to be valid, but if the Returning Officer is unable to determine which of such nomination papers was first received by him, all of such nomination papers shall be held to be invalid.

9. On receipt of each nomination paper the Returning Officer shall forthwith endorse thereon the date and hour of receipt.

Nomination papers which are not received by the Returning Officer before 11 A.M. on the 11th December 1916 shall be rejected.

Scrutiny of nomination papers.

10. (1) Every candidate and his proposer and seconder may attend at 11 A.M. on the 13th December 1916 at the office of the Inspector-General of Civil Hospitals, Punjab, at Lahore, and the Returning Officer shall allow them to examine the nomination papers of all candidates for their group which have been received by him as aforesaid.

(2) The Returning Officer shall examine the nomination papers and may, either of his motion or on objection made, decide all questions which may arise as to the validity of any nomination, and his decision on any such question shall, subject to the provisions of rules 18 and 19, be final.

Voting.

11. (1) If, for any group, the number of duly nominated candidates who stand for election does not exceed the number of members to be elected for that group, the Returning Officer shall forthwith declare such candidate or candidates to be elected.

(2) If the number of such candidates exceeds the number of members to be so elected, the Returning Officer shall—

(*a*) cause the names and addresses of the candidates to be entered in voting papers in Form III in the Appendix to these rules ; and

(*b*) not later than the 22nd December 1916 publish the said names and addresses in the *Punjab Government Gazette.*

(3) The Returning Officer shall send to each elector one such voting paper :

Provided that—

(*a*) such a voting paper shall also be supplied to any elector on his applying to the Returning Officer for the same at any time before the date appointed for the counting of votes ; and

(*b*) no election shall be invalid by reason of the non-receipt by an elector of his voting paper.

12. Every elector desirous of recording his vote shall send his voting paper by registered post to the Returning Officer after recording his vote thereon in the manner prescribed therein :

Provided that voting papers which are not received by the Returning Officer before 11 A.M. on the 15th January 1917 shall be rejected.

Counting of votes and declaration and publication of result of election.

13. (1) On receipt of the voting papers the Returning Officer shall endorse thereon the date and hour of receipt and examine them to see whether they have been correctly filled up.

(2) The Returning Officer shall endorse "rejected" on any voting paper which he may reject under the proviso to rule 12 or on the ground that it does not comply with the instructions on the voting paper.

(3) The Returning Officer shall fold the lower portion of every voting paper, whether valid or invalid, along the dotted line on the back, so as to conceal the name of the elector, and shall seal down the portion thus folded.

14. (1) The Returning Officer shall attend for the purpose of counting the votes at 11 A.M. on 30th January 1917 at the office of the Inspector-General of Civil Hospitals, Punjab, at Lahore.

(2) Every candidate may be present in person or may send a representative, duly authorised by him in writing, to watch the process of counting.

(3) The Returning Officer shall show the voting papers sealed as provided by Rule 13 (3) to the candidates or their representatives.

(4) If any objection is made to any voting paper on the ground that it is invalid under these rules, or to the rejection by the Returning Officer of a voting paper, such objection shall be decided at once by the Returning Officer, whose decision shall, subject to the provisions of Rules 18 and 19, be final.

15. (1) When the counting of the votes has been completed, the Returning Officer shall forthwith declare the candidate or candidates, as the case may be, to whom the largest number of votes have been given to be elected.

(2) When an equality of votes is found to exist between any candidates, and the addition of a vote will entitle any of the said candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by a lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

16. Upon the completion of the counting and after the result has been declared by him, the Returning Officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months and thereafter cause them to be destroyed.

17. The Returning Officer shall publish the names of the elected candidates in the *Punjab Government Gazette*.

Finality of decisions of the Local Government.

18. The Local Government may, of its own motion or on objection made, declare any election to the Council to be void on account of corrupt practice or any other sufficient cause, and may call on the electorates to make a fresh election within a specified date, and any decision of the Local Government under this rule shall be final.

19. The decision of the Local Government on any question that may arise as to the intention, construction or application of these rules shall be final.

MEDICAL.

[Second publication.]

The 3rd October 1916.

No. 9-*Medl.*-5.—*Notification.*—In exercise of the powers conferred by section 24 (1) (*i* of the Punjab Registration of Medical Practitioners Act, II of 1916, the Lieutenant-Governor of the Punjab is pleased hereby to make the following rules for the *First* Election of Members of the Punjab Medical Council, under clauses (*c*), (*d*), (*e*) and (*f*) of section 5 (1) read with the proviso to section 6 of the said Act :—

Preliminary.

1. "Returning Officer" means the Inspector-General of Civil Hospitals, Punjab, and includes any person deputed by him to perform his duties.

Electoral groups.

2. Members are to be elected by the following electoral groups :—

(*a*) Two members by medical practitioners who are registered under the British Medical Acts.

(*b*) Three members by the practitioners who are Graduates or Licentiates in Medicine of the University of the Punjab.

(*c*) One member by the practitioners who hold a diploma from the Punjab Government declaring them to be qualified to perform the duties of a Hospital Assistant or a Sub-Assistant Surgeon.

(*d*) One member by all other practitioners in the Punjab who are qualified to be registered under clause (*a*) or (*b*) of section 13 of the Act.

Electoral Rolls.

3. The electoral roll for each electoral group shall be published in the *Punjab Gazette* on or before the 24th November 1916.

4. Any person claiming to have his name included in any electoral roll shall apply to the Inspector-General of Civil Hospitals, Punjab, on or before the 10th November 1916.

In his application he shall state the particulars required by Form I of the Appendix to these rules.

[NOTE.—The electoral roll prepared under these Rules is of a temporary character only, and is made solely for the purpose of the *First* Election of Members to the Council. Inclusion in it will of itself give no right to inclusion in the permanent register to be prepared subsequently by the Medical Council.]

5. If the Inspector-General of Civil Hospitals, Punjab, is satisfied that the applicant is entitled to have his name entered in the electoral roll for which he applies, he shall enter his name accordingly.

6. The decision of the Inspector-General of Civil Hospitals, Punjab, whether any person is entitled to have his name entered in an electoral roll shall be final, and the electoral roll shall be conclusive evidence for the purpose of determining whether any person is an elector or not under these rules.

Nomination of candidates for election.

7. (1) Any person whose name is included in the electoral roll of any electoral group may be nominated as a candidate for that or any other group.

(2) Such nomination shall be made by means of a nomination paper in Form No. II in the Appendix to these rules, which shall be supplied by the Returning Officer concerned to any elector who may apply for the same.

(3) Each nomination paper shall be subscribed by two electors as proposer and seconder who shall belong to the group for which the candidate is nominated.

Provided that no elector shall propose or second the nomination of more than one candidate for the same group.

8. If more nomination papers than one for any group be subscribed by the same elector, then only the nomination paper first received by the Returning Officer shall, if otherwise in order, be held to be valid, but if the Returning Officer is unable to determine which of such nomination papers was first received by him, all of such nomination papers shall be held to be invalid.

9. On receipt of each nomination paper the Returning Officer shall forthwith endorse thereon the date and hour of receipt.

Nomination papers which are not received by the Returning Officer before 11 A.M. on the 11th December 1916 shall be rejected.

Scrutiny of nomination papers.

10. (1) Every candidate and his proposer and seconder may attend at 11 A.M. on the 13th December 1916 at the office of the Inspector-General of Civil Hospitals, Punjab, at Lahore, and the Returning Officer shall allow them to examine the nomination papers of all candidates for their group which have been received by him as aforesaid.

(2) The Returning Officer shall examine the nomination papers and may, either of his motion or on objection made, decide all questions which may arise as to the validity of any nomination, and his decision on any such question shall, subject to the provisions of rules 18 and 19, be final.

Voting.

11. (1) If, for any group, the number of duly nominated candidates who stand for election does not exceed the number of members to be elected for that group, the Returning Officer shall forthwith declare such candidate or candidates to be elected.

(2) If the number of such candidates exceeds the number of members to be so elected, the Returning Officer shall—

(a) cause the names and addresses of the candidates to be entered in voting papers in Form III in the Appendix to these rules; and

(b) not later than the 22nd December 1916 publish the said names and addresses in the *Punjab Government Gazette*.

(3) The Returning Officer shall send to each elector one such voting paper:

Provided that—

(a) such a voting paper shall also be supplied to any elector on his applying to the Returning Officer for the same at any time before the date appointed for the counting of votes; and

(b) no election shall be invalid by reason of the non-receipt by an elector of his voting paper.

12. Every elector desirous of recording his vote shall send his voting paper by registered post to the Returning Officer after recording his vote thereon in the manner prescribed therein:

Provided that voting papers which are not received by the Returning Officer before 11 A.M. on the 15th January 1917 shall be rejected.

Counting of votes and declaration and publication of result of election.

13. (1) On receipt of the voting papers the Returning Officer shall endorse thereon the date and hour of receipt and examine them to see whether they have been correctly filled up.

(2) The Returning Officer shall endorse "rejected" on any voting paper which he may reject under the proviso to rule 12 or on the ground that it does not comply with the instructions on the voting paper.

(3) The Returning Officer shall fold the lower portion of every voting paper, whether valid or invalid, along the dotted line on the back, so as to conceal the name of the elector, and shall seal down the portion thus folded.

14. (1) The Returning Officer shall attend for the purpose of counting the votes at 11 A.M. on 30th January 1917 at the office of the Inspector-General of Civil Hospitals, Punjab, at Lahore.

(2) Every candidate may be present in person or may send a representative, duly authorised by him in writing, to watch the process of counting.

(3) The Returning Officer shall show the voting papers sealed as provided by Rule 13 (3) to the candidates or their representatives.

(4) If any objection is made to any voting paper on the ground that it is invalid under these rules, or to the rejection by the Returning Officer of a voting paper, such objection shall be decided at once by the Returning Officer, whose decision shall, subject to the provisions of Rules 18 and 19, be final.

15. (1) When the counting of the votes has been completed, the Returning Officer shall forthwith declare the candidate or candidates, as the case may be, to whom the largest number of votes have been given to be elected.

(2) When an equality of votes is found to exist between any candidates, and the addition of a vote will entitle any of the said candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by a lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

16. Upon the completion of the counting and after the result has been declared by him, the Returning Officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months and thereafter cause them to be destroyed.

17. The Returning Officer shall publish the names of the elected candidates in the *Punjab Government Gazette.*

Finality of decisions of the Local Government

18. The Local Government may, of its own motion or on objection made, declare any election to the Council to be void on account of corrupt practice or any other sufficient cause, and may call on the electorates to make a fresh election within a specified date, and any decision of the Local Government under this rule shall be final.

19. The decision of the Local Government on any question that may arise as to the intention, construction or application of these rules shall be final.

(*l*) the expression "Civil Surgeon" means the Civil Surgeon or other Principal Medical Officer of a district;

(*m*) the expression "District Excise Officer" means the Assistant or Extra Assistant Commissioner appointed by name by the Collector to exercise certain of the functions of the Collector under the Punjab Excise Act, 1914, in virtue of Punjab Government Notification No. 259 (C. & I.), dated 11th February 1915;

(*n*) the expression "Excise Officer" means and includes every officer invested with the powers of an Excise Officer under the Punjab Excise Act, 1914).

2. (1) All transactions in opium on account of the Government may be carried on without restriction.

(2) The preparations specified in the annexed schedule may be imported, exported, transported, possessed and sold without restriction, provided that the import of these preparations from foreign countries is permitted only by means other than that of the post.

3. Save as provided in rule 2, the import, export or transport of opium into, from or within the Punjab is permitted only by means other than that of the post.

(*b*) *Cultivation and licenses for cultivation of the poppy.*

4. The poppy may be cultivated in any local area in respect of which the Local Government has, by notification published in the official Gazette, declared that the cultivation thereof within the limits of such local area is permitted, and then only by a person holding a license granted in the manner hereinafter in these rules provided, and subject to the conditions in such license specified.

5. Every declaration permitting the cultivation of the poppy, made and notified under rule 4 in respect of any local area, may be revoked by a declaration to that effect similarly made and notified; and upon the revocation of any such declaration in respect of any local area, the cultivation of the poppy within such local area shall forthwith cease and all cultivating licenses subsisting at the time of such revocation of any such declaration shall forthwith determine except as to any crop of poppy standing on any land at the time of such revocation.

6. Any person cultivating the poppy within the limits of any local area in which such cultivation is permitted under these rules must inform the patwari of the fact when the patwari comes to his village to measure the areas under poppy, and the patwari shall furnish to the cultivator a license in such form and subject to such conditions, consistent with the provisions of the Opium Act, 1878, and of these rules, as the Financial Commissioner may, from time to time, prescribe.

7. (1) Every person cultivating the poppy under license granted under these rules shall be liable to pay duty on the area cultivated at such rates as the Local Government may, with the previous sanction of the Governor-General in Council, from time to time, by notification in the official Gazette, fix in that behalf.

(2) Every person cultivating the poppy under a license granted under these rules shall in disposing of the produce of such cultivation, conform to the requirements following, namely—

(*a*) he shall not consume, or permit any person under his authority or control to consume, any part of the produce of his own cultivation;

(b) he shall not sell such produce, or manufacture opium or sell opium otherwise than in accordance with the rules for the time being in force regulating the sale and manufacture, respectively, of opium.

8. Every license for the cultivation of the poppy granted under these rules shall be in such form as the Financial Commissioner may from time to time prescribe, and shall have endorsed thereupon, as the conditions thereof to be observed by the license-holder and all persons acting under his orders or by his authority or on his behalf, under the license, the provisions of rules 7, 9, 10, 11, 12, 23, 39, and 47, and such other conditions, consistent with the provisions of the Opium Act, 1878, and of these rules, as the Financial Commissioner may, from time to time, prescribe in that behalf.

9. The Collector of the district in which any license for the cultivation of the poppy is held may, at any time, withdraw the same by written order stating his reasons therefor:

Provided that unless a license is withdrawn by reason of breach of its conditions, no such license shall be withdrawn before the 1st of May or after the 1st of October in any calendar year.

10. If a person to whom a license for the cultivation of the poppy has been granted does not sow poppy-seeds for such cultivation before the 1st of December of any year, he shall, not later than the 15th of that month, surrender his license to the officer in charge of the tahsil within the limits of which he is permitted under his license to cultivate the poppy.

11. Any produce of his cultivation remaining unsold in the possession of a person from whom a cultivating license has been withdrawn in accordance with rule 9, or who has surrendered his license as provided in rule 10, or whose license has determined under rule 5, or has expired, shall be disposed of by such cultivator in such manner as the Collector of the district in which such license was held may in his discretion direct.

(c) *Manufacture of opium.*

12. Every person holding a license for the cultivation of the poppy may, without further license, manufacture pure opium from the produce of his own cultivation.

13. (1) Opium, other than preparations or admixtures of opium used for smoking, may be manufactured by any officer of Government who in the course of his official duty or for the purposes of such duty is required to manufacture the same.

(2) Opium, other than pure opium and preparations or admixtures of opium used for smoking, may be manufactured by a licensed druggist or medical practitioner.

(3) Subject to the limitations as to quantity prescribed in the rules relating to the possession of opium, any person may, without a license, manufacture for his own domestic use, but not for any other purpose, either—

(a) preparations or admixtures of pure opium other than morphia and its preparations or

(b) decoctions from poppy-heads:

Provided that such manufacture is from pure opium or poppy-heads lawfully possessed under rule 37.

(d) *Import of opium.*

14. (1) The import of poppy-heads or decoctions made from poppy-heads is permitted only by a Government servant acting in regard to such import in the performance of his official duties.

(2) The import of preparations and admixtures of opium, other than those used for smoking, in excess of the quantity which may under rule 37 below be possessed without a license, is permitted only by—

(a) a Government officer acting in regard to such import in the performance of his official duties,

(b) a visitor of distinction from beyond the borders of India or from Kashmir in respect of opium personally imported from beyond the borders of India or from Kashmir which he is allowed to possess under the provisions of rule 43,

(c) a licensed druggist or medical practitioner in respect of opium imported from other provinces of India or from beyond the borders of India.

(3) The import of pure opium in excess of the quantity which may under rule 37 below be possessed without a license is permitted only by—

(a) the persons noted in rule 14 (2) above subject to the restrictions severally noted therein,

(*b*) a horse dealer in respect of opium personally imported by him in such quantity as he is permitted by the provisions of rule 44 to possess for the use of his horses,

(*c*) any person licensed to sell opium wholesale or retail in the Punjab in respect of opium produced or manufactured or purchased in any of the Simla Hill States or in the States of Chamba, Mandi, Nahan or Suket or in the North-West Frontier Province,

(*d*) the Excise authorities of a Native State in respect of opium imported from the Government Opium Factory at Ghazipur.

15. (1) The provisions in this rule apply to pure opium and preparations and admixtures of opium other than those used for smoking.

(2) A visitor of distinction who is permitted under rules 14 (2) (*b*) and 14 (3) (*a*) to import opium must first obtain a special permit in that behalf from the Collector of the Punjab district into which the opium is to be first brought. Every application for such special permit shall be in writing and shall, if granted, be granted free of charge.

(3) A licensed druggist or medical practitioner who is permitted to import opium under rules 14 (2) (*c*) and 14 (3) (*a*) above shall pay in respect of such opium, when imported by sea, such duty as may be leviable thereon under the India Tariff Act, or any other law for the time being in force, and shall comply with any further conditions regulating such import as may be prescribed by the Financial Commissioner from time to time.

16. (1) The provisions in this rule apply to the import of pure opium. Wherever in this rule the word opium occurs pure opium only shall be understood.

(2) A horse-dealer, who personally imports pure opium in such quantity as he is permitted by the provisions of rule 44 to possess for the use of his horses, shall pay duty thereon at the rate prescribed by the Governor-General in Council in respect of the import of pure opium.

(3) Opium imported by a person holding a license to sell opium wholesale or retail in the Punjab who is permitted under rule 14 (3) (*c*) above to import opium, shall be imported—

(*a*) in quantities of not less than ten seers at a time ;

(*b*) under cover of an import pass, or in the case of imports from the North-West Frontier Province, of an export pass obtained in the manner hereinafter provided ; and

(*c*) subject to the payment of such import duty as may, from time to time, be imposed by the Governor-General in Council in exercise of the power conferred by section 6 of the Opium Act, 1878.

(4) Any person licensed to sell opium in the Punjab, who requires a pass for the import of opium from any of the territories except the North-West Frontier Province from which such import is under clause (*c*) of sub-rule (3), rule 14, permissible, may apply for such pass to the Collector of the district into which the opium which he intends to import is, on first reaching British India, to be brought.

(5) The application shall be in writing, and shall contain the following particulars, namely—

(*a*) the name and description of the applicant ;

(*b*) the name of the district in which he is licensed to sell opium, and the nature of his license ; and

(*c*) the quantity of opium which he wishes to import.

(6) The application shall be accompanied by a permit from the Collector or District Excise Officer of the district in which the applicant holds his license to sell opium, stating that he has permission to bring the opium which he proposes to import into such district.

(7) Any person licensed to sell opium in the Punjab who requires a pass for the import of opium from the North-West Frontier Province shall first obtain a permit from the Collector or District Excise Officer of the district in which the applicant holds his license to sell opium, and may then apply to the Deputy Commissioner of the district of the North-West Frontier Province, from which he intends to import, for an export pass to cover the removal of the opium which he wishes to export, and such export pass, if granted in accordance with the rules regulating the grant of such passes, which may from time to time be in force in the North-West Frontier Province, shall be sufficient authority to cover the import of the opium into the Punjab and for the further transport of it to the district in which the importer is licensed to sell opium.

(8) Every import pass or permit granted under these rules shall be granted by such authority, and in such form and subject to such conditions in addition to those hereinafter following, as the Financial Commissioner may, from time to time, prescribe:—

(a) All opium imported under an import pass shall on being brought into the Punjab be taken with bulk unbroken by the person in charge thereof direct to the office specified in the pass.

(b) On arrival at such office the opium, together with the import pass, shall be delivered to the officer named in that behalf in such import pass.

(c) The opium so delivered shall not be returned to the importer thereof until the duty leviable thereon referred to in rule 16 (3), clause (c), has been paid into the treasury and a treasury receipt for the same produced

(d) After the duty has been paid thereon, the opium shall not be removed from the place at which it was delivered under clause (b) preceding, otherwise than in accordance with the rules regulating the transport of opium within the Punjab.

17. (1) Provided that the amounts annually allotted by the Lieutenant-Governor of the Punjab are not exceeded, opium may be imported by such of the Native States under the political control of the Lieutenant-Governor of the Punjab as may be permitted to import direct from the Government Opium Factory at Ghazipur, on payment of the cost price, *viz.*, Rs 11 per seer, or such rate as may from time to time be prescribed, *plus* the carriage charges:

Provided that if any opium in excess of the annual sanctioned allotment is required to be imported by any such Native State, such excess quantity shall, if so directed by the Lieutenant-Governor of the Punjab, be paid for at the rate per seer at which it is sold from the treasury to licensees in the Punjab in addition to the carriage charges:

Provided, also, that the quantity to be imported shall be imported in whole chests (one-and-a-half maunds) and not in any other manner.

(2) The annual allotments so sanctioned shall be communicated early in each financial year to the Native States concerned and to the Financial Commissioner of the Punjab, who shall arrange in communication with the States concerned and the Factory Superintendent at Ghazipur, for the direct supply of the opium, the instalments in which, the dates on which and the officer to whom it shall be sent.

(c) *Export of opium.*

18. (1) The visitors of distinction and foreign horse-dealers referred to in rule 14 may take out of the Punjab, on leaving the Province, any opium of which they are in possession in accordance with rules 43 and 44 of these rules.

(2) Opium may be exported by any officer of Government under the orders of Government.

(3) Poppy-heads may be exported only from places outside the Kot Khai Tahsil of Simla or the Kulu Sub-Division of the Kangra District.

(4) Pure opium and, subject to the provisions in clause (3) of this rule, poppy-heads may be exported to the North-West Frontier Province, or to Baluchistan, or to any Native State under the political control of the Local Government, or to Kashmir territory, by any person who has obtained a pass, in respect of export to the North-West Frontier Province or to Baluchistan, from the Collector of any district in the Punjab, or, in respect of export to any such Native State or to Kashmir, from the Collector of a district, adjoining any such Native State or Kashmir, into or through the limits of which he intends to export the same, or, in respect of export to Ladakh, from the Assistant Commissioner of the Kulu Sub-Division of the Kangra District:

Provided that no pass for the export of pure opium or poppy-heads to any district of the North-West Frontier Province or of Baluchistan, or to any Native State under the political control of the Local Government, or to Kashmir territory (except as regards export from Kulu to Ladakh), shall be granted otherwise than on production of a permit signed by a Deputy Commissioner or Political Agent, as the case may be, of a district of the North-West Frontier Province or of Baluchistan or by an officer duly empowered to sign such permit by the Government of such Native State or territory, authorising the permit-holder to apply for an export pass:

Provided, further, that in the case of any export in accordance with this rule of pure opium or poppy-heads in respect of which the previous import or transport pass, if any, as the case may be, has been granted by an officer other than the officer specified herein, the further pass required by this rule may be granted by the same authority:

Provided, further, that in the case of opium produced in the Kot KhaiTahsil of the Simla District or the Kulu or Saraj Tahsils of the Kangra District passes for the export of pure opium to Native States under the political control of the Local Government may be granted also by the District Excise Officer or by any other Excise Officer who has been specially empowered by the Collector to grant such passes.

(5) A copy of every export pass granted under clause (4) of this rule shall be sent to the officer who issued the permit authorising application to be made for such export pass.

(6) Every export pass shall be in such form, and shall contain such particulars as the Financial Commissioner may, from time to time, prescribe.

19. Opium may be exported from the Kot Khai Tahsil of the Simla District or from any tahsil in the Kulu Sub-Division of the Kangra District, when an export duty at the rate of seven rupees per seer on exports from the Kot Khai Tahsil, or six rupees per seer on exports from the Kulu Sub-Division (or such other rates as the Local Government may, with the previous sanction of the Governor-General in Council, from time to time, fix in that behalf) has been paid in respect thereof and the treasury receipt for such duty has been delivered to the officer granting the export pass :

Provided that the said duty shall not be leviable in respect of opium produced in the Hill States of the Punjab on which import duty has already been paid.

20. Subject to the provisions in rules 17 (1), 18 (1) and (2) and 19, opium may be exported from the Punjab when an export duty at such rate as the Local Government may, with the previous sanction of the Governor-General in Council, from time to time, fix in that behalf, has been paid in respect thereof and the treasury receipt for such duty has been delivered to the officer granting the export pass :

Provided that the said duty shall not be leviable in respect of opium on which import or transport duty has already been paid.

(f) Transport of opium within the Punjab.

21. Subject to the provisions of the following rules any person may transport opium in any quantity which he may, under the rules regulating the possession thereof, lawfully possess.

22. Pure opium upon which duty at the prescribed rate has not been paid may be transported only within the limits of the Kulu Sub-Division of the Kangra District and the Kot Khai Tahsil of the Simla District and by the persons and in the circumstances specified below—

(a) by a licensed cultivator taking the produce of his fields to the nearest place prescribed for weighment ;

(b) by a licensed vendor under a transport pass requiring the opium to be produced for weighment at a place named in the pass ; and

(c) by a person taking pure opium in transit through the Punjab under an import or export pass.

23. (1) A licensed cultivator of the poppy, who has paid duty on the area cultivated, may transport the poppy-heads produced therefrom from any one place situate within the limits of the tahsil in which he is licensed to any other place situate within the same limits.

(2) A licensed cultivator whose cultivation is not subject to duty may transport the pure opium produced therefrom to the prescribed place of weighment.

24. Opium may be transported by—

(a) any Government officer acting, in regard to such transport, in the performance of his official duties ;

(b) any licensed druggist duly licensed to sell opium in such quantity as added to his stock in hand shall not exceed that specified in his license and for the purposes of his business as such druggist.

25. Any person licensed to sell opium wholesale or retail may, subject to the restriction contained in rule 22 and to the conditions of his license, transport pure opium or poppy-heads in such quantities as he may require for the purposes of such license or the business carried on thereunder :

Provided that such pure opium or poppy-heads shall not be transported from any place within the limits of one tahsil to any place within the limits of another tahsil otherwise than under a pass obtained in manner hereinafter provided.

26. Opium may be transported from the Kot Khai Tahsil of the Simla District or the Kulu or Saraj Tahsils of the Kangra District to any place in the Punjab when a transport duty at the rate of seven rupees per seer on opium transported from the Kot Khai Tahsil or six rupees per seer on opium transported from the Kulu Sub-Division (or at such other rates as the Local Government may, with the previous sanction of the Governor-General in Council, from time to time fix in that behalf) has been paid in respect thereof and the treasury receipt for such duty has been delivered to the officer granting the transport pass :

Provided that the said duty shall not be leviable in respect of opium produced in the Hill States of the Punjab on which import duty has already been paid.

27. Any person licensed to sell opium in a Native State under the political control of the Local Government may, on obtaining a special transport pass in the manner hereinafter provided (rule 29), and subject to the terms and conditions of such pass, transport pure opium or poppy-heads through British territory in the Punjab for the purpose of conveying the same from any one part of such Native State to any other part thereof.

28. Transport passes (rule 25) may be granted—

(*a*) if required to authorise the transport of pure opium or poppy-heads from any place situate within the limits of any one tahsil to any place situate within the limits of any other tahsil of the same district—by the Tahsildar of the tahsil from which the same is to be transported, or by any excise officer who has been specially empowered by the Collector to grant such passes ;

(*b*) if required to authorise the transport of pure opium or poppy-heads from any place situate within the limits of any one district to any place situate within the limits of any other district—by the Collector or the District Excise Officer of the district from which the transport is to be made, or by any other Excise Officer who has been specially empowered by the Collector to grant such passes :

Provided that no pass for the transport of pure opium or poppy-heads from any place situate within the limits of any one district to any place situate within the limits of any other district shall be granted unless and until the applicant for the pass shall produce a permit from the Collector or the District Excise Officer of the district into which such transport is to be made, authorising the grant of a pass for the purpose.

29. Special transport passes (rule 27) may be granted by either the Collector or the District Excise Officer of any one of the districts through the limits of which it is intended to convey the pure opium or poppy-heads :

Provided that no such pass shall be granted unless and until the applicant therefor shall produce a certificate signed by an officer duly empowered to sign such certificates on behalf of the Native State concerned stating that the applicant is authorised—

(*a*) to sell opium within such State ;

(*b*) to apply for a pass :

Provided further that no such pass shall in any case be granted for the transport of opium from the Kanaundh and Narnaul Parganas of the Patiala State, or from the Bahawal and Kanti Parganas of the Nabha State, or from the Dadri Pargana of the Jind State, or from the Nahar villages of the Dujana State, to the other parganas or villages of those States.

30. Every transport pass, permit, special transport pass and certificate granted under these rules shall be in such form and shall contain such particulars, in addition to those hereinafter following, as the Financial Commissioner may, from time to time, prescribe :—

(i) Particulars to be contained in every transport pass.

(1) The name of the applicant and of the tahsil and district in which he is licensed to sell opium and poppy-heads.

(2) The places from and to which, and the route by which, transport is to be effected, and the name of the consignee.

(3) The number and date of the permit (if any) produced by the applicant, and the name of the office from which the permit was granted.

(4) The number of packages and the contents and gross weight of each package.

(5) The name and description of the office to which the consignment is to be taken for examination and weighment on arrival at the tahsil or district of destination.

(6) The period for which the pass is to remain in force.

(7) The date on which the pass is granted and the signature and official designation of the officer granting the pass.

(ii) Particulars to be contained in every special transport pass.

(1) The name of the applicant and the Native State in which he is licensed to sell opium.

(2) The places within the territories of the Native State from and to which, and the route by which, transport is to be effected, and the name of the consignee.

(3) The number and date of the certificate produced by the person applying for the pass, and the official designation of the officer who granted it.

(4) The districts of the Punjab through the limits of which transport is to be effected, and the route to be followed.

(5) The number of packages and the contents and gross weight of each package.

(6) The period for which the pass is to remain in force.

(7) The date on which the pass is granted, and the signature and official designation of the officer granting the pass.

(iii) Particulars to be contained in every permit.

(1) The name of the person to whom the permit is granted.

(2) The nature of his license.

(3) The name of the place for transport to which he is authorized to apply for a pass.

(4) The name and situation of the office (if any) to which the consignment is to be taken for examination and weighment in case a pass for its transport be granted.

(5) The date on which the permit is granted and the signature and official designation of the officer granting the same.

31. (1) Every transport pass granted under these rules shall be prepared in triplicate. One copy shall be delivered to the applicant; another copy shall be sent to the office to which the consignment is to be taken for examination and weighment on arrival at the district or tahsil of destination; and the remaining copy shall be placed on record in the office of issue.

(2) Such number of copies of every special transport pass shall be prepared as may be necessary to comply with the following directions:—

One copy shall be delivered to the applicant; one copy shall be sent to the Collector of every district through the limits of which the consignment is to be conveyed; and one copy shall be placed on record in the office of issue.

(3) Every permit authorising an application for a transport pass shall be prepared in duplicate; one copy shall be delivered to the applicant, and the other copy shall be placed on record in the office of issue.

32. The Collector or the District Excise Officer of any district through which a consignment of pure opium or poppy-heads may be passing under cover of a transport or special transport pass may, on due cause being shown by the consignor, consignee or person in charge of the consignment, extend the period for which such transport or special transport pass, as the case may be, is to remain in force. Every extension of time so granted shall be endorsed upon

the pass by the Collector or the District Excise Officer granting it, and every such endorsement shall be dated and signed by him.

33. (1) Pure opium or poppy-heads transported under cover of a transport pass shall, on arrival within the limits of tahsil or district in which its place of destination is situate, be taken for examination and weighment direct to the office designated in the transport pass in that behalf.

(2) On arrival at such office, the consignee or person in charge of the consignment shall deliver up his copy of the transport pass and all the pure opium or poppy-heads in his posssssion—

(a) if the office be at the head-quarters of a district—to the Collector, District Excise Officer, or other officer deputed by the Collector to examine and weigh such consignments under transport;

(b) if the office be at the head-quarters of a tahsil—to the Tahsildar or other person deputed by the Tahsildar to examine and weigh such consignments.

(g) *Further general provisions regulating import, export and transport of opium.*

34. Every consignment of pure opium or poppy-heads to be imported, exported or transported under these rules shall be properly packed and firmly secured and sealed, so that it cannot be opened and its contents tampered with or extracted without breakage of or damage to the seals or packing materials.

35. (1) Every Collector and every Excise Officer of the first or second class is authorised to detain, so long as may be necessary for the inspection of the same, and to inspect any consignment of opium in transit through his jurisdiction and to call for the production of the pass under which such opium is being transported, imported or exported.

(2) If, upon any inspection made under the powers conferred by this rule, any excess or deficiency between the quantity of pure opium or poppy-heads specified in the pass and the actual quantity contained in any parcel or package to which the pass relates is found to exist, and the consignor, consignee or person in charge thereof cannot satisfactorily account for such excess or deficiency, the fact shall forthwith be reported to the Collector of the district in which such inspection is made, and, pending the orders of such Collector, the parcel or package in question shall be detained by the inspecting officer.

(3) If when any pure opium or poppy-heads shall be weighed under the provisions of clause (2) of rule 33, or in the course of any inspection made under the provisions of this rule a deficiency between the quantity specified in the pass and the actual quantity contained in any parcel or package to which the pass relates is found to exist, such allowance on account of dryage shall be made in reduction of that deficiency as may from time to time be prescribed by the Financial Commissioner in that behalf.

36. (1) Save when otherwise ordered by a Collector in the case of any particular consignment or consignments, the import, export or transport of pure opium exceeding two tolas in weight, or poppy-heads exceeding two seers in weight, by railway, is permitted only in accordance with the following regulations:—

(a) The consignment shall be covered by an import, export or transport pass (as the case may be) issued in accordance with the provisions of these rules and under such subsidiary instructions as the Financial Commissioner may, from time to time, prescribe.

(b) Each package thereof shall, whether any person responsible therefor is travelling by rail along with the consignment or not, be handed over to the custody of the railway officials, and by them be booked through from the railway station at which it is brought on to the railway to the railway station at which it is to be taken off the railway:

Provided that sub-clause (a) shall not apply to any consignment in transit by rail from one station in a Native State under the political control of the Local Government to another station in the same or any other Native State under the political control of the Local

Government, where no portion of the railway line between such two stations is situated within a British district.

Explanation.—For the purpose of this proviso railway lands situated within the limits of a Native State over which jurisdiction has been ceded to the British Government are not deemed to be included in a British district.

(2) Any consignment of pure opium or poppy-heads which is in course of transit by rail, but which is not covered by a pass or has not been booked through as provided by clause (1) of this rule, may be seized and detained by any Railway, Police or Excise Officer.

(h) Possession of opium.

37. Any person may without a license at any one time have in his possession—

(a) poppy-heads in any quantity not exceeding two seers ; or

(b) decoctions from poppy-heads in any quantity not exceeding two tolas ; or

(c) pure opium in any quantity not exceeding two tolas ; or

(d) preparations or admixtures of pure opium, other than those used for smoking in any quantity not exceeding in the aggregate two tolas ; or

(e) any combination of (b), (c) and (d) or of any of them not exceeding in the aggregate two tolas :

Provided that the opium and poppy-heads shall have been manufactured, imported or purchased in a manner authorised by these rules.

38. (1) Any person may without a license at any one time have in his possession preparations or admixtures of opium used for smoking in any quantity not exceeding half a tola.

(2) Any two or more persons may without a license at any one time have in their possession collectively preparations or admixtures of opium used for smoking in any quantity not exceeding one tola :

Provided that the said preparations or admixtures shall have been manufactured for private consumption from opium, imported or purchased in a manner authorised by these rules.

39. Subject to the conditions of his license, a person licensed to cultivate poppy may possess any pure opium manufactured from poppy produced from his own cultivation under his license, and any poppy-heads which are the produce of his cultivation.

40. Subject to the conditions of his license, a person licensed to sell opium wholesale or retail may possess any quantity of pure opium and poppy-heads which has been either—

(a) imported by him, or under his authority, in accordance with the rules hereinafter prescribed for the importation of opium ; or

(b) purchased by him, or under his authority, from a person licensed—

(1) to cultivate poppy in the Punjab,

(2) to sell opium wholesale in the Punjab or in the North-West Frontier Province ; or

(c) purchased by him, or under his authority, from the Government or, with the consent of the Collector, from any person other than a person specified in the preceeding clause.

41. Subject to the conditions of his license, a licensed druggist may possess opium other than preparations or admixtures of opium used for smoking, in quantity not exceeding that specified in his license.

41-A. A medical practitioner may possess opium other than preparations or admixtures of opium used for smoking, for use in the exercise of his profession, in quantities not exceeding those specified below :—

Pure opium—8 ozs.

Opium powder—4 ozs.

Poppy-heads—5 seers.

42. A person who has, in manner hereinafter provided, obtained a pass for the import export or transport of opium may, subject to the conditions of such pass possess opium, other than preparations or admixtures of opium used for smoking, in quantity not exceeding that specified in the pass.

43. Any visitor of distinction from beyond the borders of India or from Kashmir or from the territory west of the Indus beyond the Punjab frontier may, during the period of his temporary sojourn in the Punjab, possess, for the personal use of himself and his attendants and followers, opium produced out of India or in Kashmir or in such trans-frontier territory as the case may be :

Provided that such opium be imported under a special permit granted in the manner hereinbefore provided (rule 14), and that the quantity of such opium does not exceed two seers in the aggregate.

44. A horse-dealer, not being a British subject, who imports horses into the Punjab from any country beyond the limits of British India, may, during the period of his temporary sojourn in the Punjab, possess, for the use of his horses, pure opium produced or manufactured out of British India not exceeding in weight one tola in respect of each horse which he has so imported, and which is for the time being in his possession, in addition to the quantity of such opium which may lawfully be possessed by himself for his own consumption.

45. Any officer of Government may, as such, possess opium which has come into his possession in the course of his official duties;

Provided that he shall dispose of such opium in such manner as may be directed by his superior officer or required by the rules made or instructions given by Government in that behalf.

(i) Sale of opium.

46. Opium, other than preparations or admixtures of opium used for smoking, may be sold by any Government officer, on behalf of Government, in accordance with such directions as the Financial Commissioner may, from time to time, issue in that behalf.

47. Opium may be sold by a licensed cultivator in the following circumstances:—

(*a*) A licensed cultivator whose cultivation is not subject to duty at acreage rate may sell the produce of his cultivation, in the form of pure opium manufactured by him from poppy grown by himself, to any one holding a license to sell opium wholesale or retail in the Punjab, or to Government.

(*b*) A licensed cultivator whose cultivation is subject to duty at acreage rates may sell the produce of his cultivation in the form of poppy-heads to any one holding a license to sell opium wholesale or retail in the Punjab, or to Government.

(*c*) In selling pure opium or poppy-heads, as permitted by clauses (*a*) and (*b*) of this rule, a licensed cultivator shall not sell less than two seers of opium nor less than two maunds of poppy-heads at any one time:

Provided that, if his whole or remaining stock of pure opium be less than two seers, or if his whole or remaining stock of poppy-heads be less than two maunds, he may sell the whole of such remaining stock at one time.

(*d*) Whenever a licensed cultivator sells any of his standing crops of poppy or any of the produce of his cultivation in the form of poppy-heads or any pure opium manufactured by him from poppy grown by himself, he shall enter, or cause to be entered, on his cultivating license the particulars of such sale, and such particulars shall include the nature and quantity of the produce sold, the date of the sale, and the name, description and residence of the purchaser.

48. Save as provided by rules 46 and 47, the sale of opium is permitted only in accordance with the terms and conditions of a license granted as provided in the following rules.

49. (1) Licenses for the sale of opium, other than preparations or admixtures of opium used for smoking, may be granted either—

(*a*) for wholesale vend; or

(*b*) for retail vend; or

(*c*) for sale by a licensed druggist for medicinal purposes only:

Provided that opium shall not be sold in the same shop as hemp drugs.

(2) Every license for the sale of opium, other than preparations or admixtures of opium used for smoking by wholesale (hereinafter called a wholesale license), shall be granted subject to the provisions of rules 50, 53, 54, 56 and 57, and shall be in such form and shall be subject, in addition to the conditions hereinafter prescribed, to such conditions, consistent with the provisions of the Opium Act, 1878, and of these rules, as the Financial Commissioner may from time to time prescribe:—

(*a*) The license-holder may sell pure opium and poppy-heads only. He may not keep in stock, or sell, any chloral hydrate.

(*b*) The license-holder shall not sell pure opium or poppy-heads other than such as he has himself either imported, in manner in these rules provided in that behalf, or purchased in the Punjab, from some person duly authorised under these rules to sell the same to him.

(c) The license-holder shall not sell at one time pure opium in less quantity than one seer or poppy-heads in less quantity than five seers.

(d) The license-holder shall not sell pure opium or poppy-heads to any person other than a person licensed to sell pure opium or poppy-heads wholesale or retail in the Punjab, or a person who has obtained, in manner in these rules provided in that behalf, a pass for the export of pure opium or poppy-heads, as the case may be, from the Punjab to the North-West Frontier Province, or to Baluchistan, or to a Native State, or to a licensed druggist or medical practitioner, or to Government:

Provided that in selling pure opium or poppy-heads to a licensed druggist or medical practitioner he shall sell the same only in such quantities as such licensed druggist or medical practitioner may be entitled to posses.

(e) The license-holder shall not boil before sale for any purpose whatever any opium which he is permitted to sell under his license, and such opium must be sold in an unboiled state.

(f) The license-holder shall not hold directly or indirectly through an agent any license in a Native State for the vend of opium or of spirit fermented liquors or intoxicating drugs as defined in the Excise Act for the time being in force in the Punjab, nor shall he act as the agent of any person holding such a license.

(g) Whenever the licensee sells any pure opium to any person he shall give the purchaser a certificate in such form as the Financial Commissioner may prescribe, and shall send a copy of the same to the Collector of the district into which the purchaser intends to take the opium he has purchased. He shall also enter up an abstract of each certificate granted by him in the counterfoil of his register of certificates of sale.

(h) The licensee shall keep correct daily accounts of sales of opium and poppy-heads in such form as the Financial Commissioner may from time to time prescribe, and shall at the end of each month prepare and submit to the Collector a monthly abstract of his receipts and sales.

(3) Every license for the sale of opium, other than preparations or admixtures of opium used for the smoking, by retail (hereinafter called a retail license) shall be granted subject to the provisions of rules 51, 53, 54, 56 and 57, and shall be in such form and shall be subject, in addition to the conditions hereinafter following, to such conditions, consistent with the provisions of the Opium Act, 1878, and of these rules, as the Financial Commissioner may from time to time prescribe :—

(a) The license-holder may sell pure opium and poppy-heads only. He may not keep in stock or sell any chloral hydrate.

(b) The license-holder shall not sell pure opium or poppy-heads other than such as he has himself either imported, in manner in these rules provided in that behalf, or purchased in the Punjab from some person duly authorised under these rules to sell the same to him.

(c) The license-holder shall not sell to any one person, at one time, pure opium in greater quantity than two tolas, or poppy-heads in greater quantity than two seers at a time.

(d) The license-holder shall not boil before sale for any purpose whatever any opium which he is permitted to sell under his license, and such opium must be sold in an unboiled state.

(e) The license-holder shall not hold directly or indirectly through an agent any license in a Native State for the vend of opium or of spirit, fermented liquors or intoxicating drugs as defined in the Excise Act for the time being in force in the Punjab, nor shall he act as the agent of any person holding such a license.

(f) The licensee shall keep correct daily accounts of sales of opium and poppy-heads in such form as the Financial Commissioner may from time to time prescribe, and shall at the end of each month prepare and submit to the Collector a monthly abstract of his receipts and sales.

(g) The license-holder shall not have directly or indirectly any interest in a shop for the retail vend of hemp drugs in the same city, town or village.

50. (1) Licenses to sell opium wholesale in the Punjab may be granted by the Collector of the district in which the business under such license is to be carried on.

(2) Wholesale licenses may be granted for a period of one year only, and every such license shall determine on the expiry of the financial year in which it was granted.

(3) The fee for a wholesale license shall be Rs. 16 or such other sum not exceeding Rs. 50 as the Financial Commissioner may from time to time prescribe, and shall be payable before the license is granted.

51. (1) Licenses to sell opium by retail in the Punjab may be granted by the Collector of the district in which the business under such licenses is to be carried on.

(2) Retail licenses may be granted in respect of such places in each district as the Collector shall determine.

(3) Retail licenses may be granted for a period of one year only, and every such license shall cease to operate and determine on the expiry of the financial year in which it was granted :

Provided that the Financial Commissioner may sanction the grant of a retail license for any period, and every license so granted shall remain in force for the period which the Financial Commissioner may sanction in respect thereof.

(4) For the purpose of fixing the fee payable for any retail license, or for all or any of such licenses to be held within the limits of any one district or part of a district, the Collector may either direct that such retail license or licenses be put up for sale by public auction or call for tenders for such license or licenses as he may think fit.

(5) The Financial Commissioner may from time to time prescribe the conditions subject to which the sale by auction or tender of any retail license shall be conducted, and the instalments in which, and the time and places at which, the fee for any such license shall be paid.

52. (1) The Collector may, on receiving a written application, grant licenses to approved druggists to sell opium, other than preparations or admixtures of opium used for smoking, for medicinal purposes only.

A fee, at such rate (if any), not exceeding Rs. 20, as the Financial Commissioner may, from time to time, prescribe, shall be leviable in respect of every such license.

(2) The Collector shall, in respect of each such license, fix, and shall record in the license the maximum quantity of pure opium, opium powder, poppy-heads, respectively, or any similar preparation, which the licensee may possess at any one time, for the purpose of vend or of making admixtures and preparations therefrom :

Provided that he shall not fix less than the following quantities, namely :—

8 oz. pure opium,

4 oz. opium powder,

5 seers poppy-heads.

(3) Every license for the sale of opium by a licensed druggist for medicinal purposes shall be granted subject to the provisions of rules 53, 54, 56 and 57, and shall be in such form and shall be subject, in addition to the conditions hereinafter following, to such conditions, consistent with the provisions of the Opium Act, 1878, and of these rules, as the Financial Commissioner may from time to time prescribe :—

(a) The license-holder shall not sell any pure opium, opium powder, preparation of, or decoction from, poppy-heads, or any preparation or admixture of pure opium for any purpose other than a medicinal purpose, nor shall he sell any of the said articles to any person at one time in quantities exceeding those which such person is authorized under these rules to possess.

(b) The license-holder shall procure his supplies of pure opium or poppy-heads either from persons licensed to sell opium in the Punjab or by importation.

(c) The license-holder shall procure his preparations or admixtures of pure opium either by importing them or by preparing them himself from the pure opium which he is allowed to possess.

(d) The license-holder shall himself make up such decoctions of poppy-heads as he may require from poppy-heads which he is allowed to possess.

(i) General rules as to licenses for the sale of opium.

53. (1) It shall be in the discretion of the Collector to refuse to grant a license under these rules to any person, until such person shall have given a bond for the due performance of the conditions subject to which it is proposed that such license shall be granted, and binding himself, in the event of his committing a breach of any of such conditions, or causing or permitting any such breach to be committed, or in the event of his abandoning

the business connected with such license before the expiry of the term for which such license may be granted, to pay such compensation, not exceeding the amount named in the bond, as the Collector may fix.

(2) The payment of compensation under clause (1) of this rule shall not operate as a bar to, or otherwise affect, any other proceedings which may lawfully be taken against the licensee in respect of the infringement of the conditions of his license.

54. (1) If any person who has held a license to sell opium shall have in his possession, on the expiration or determination for any other cause of his license, any opium which he is authorised under the conditions of his license to sell, but is unable forthwith to dispose of by private sale in accordance with the provisions of these rules to other persons holding licenses to sell opium wholesale or retail or for medicinal purposes, he shall at once surrender the same to the Collector. The Collector shall make such opium over, in any quantity not exceeding that which the transferee is likely to sell within two months, to the incoming licensed vendor who is taking the place of the licensed vendor who surrendered the opium to the Collector or otherwise to any licensed vendor within the district:

Provided that if any such opium, or any part thereof, be declared by the Civil Surgeon or other duly qualified officer to be unfit for use, the Collector shall cause the same to be destroyed.

(2) The licensed vendor to whom opium is made over by the Collector under clause (1) of this rule shall be bound to pay such price for the opium as the Collector in his discretion may fix. In the event of the said licensed vendor refusing or failing to pay such price, the Collector may forthwith revoke and determine his license.

(3) The Collector shall tender the price so paid to the outgoing licensed vendor by whom the opium was surrendered, and such licensed vendor shall not be entitled to any price, payment or compensation whatsoever in respect of opium surrendered under clause (1) of this rule other than the sum so tendered.

(k) General provisions applicable to all licenses under these rules.

55. (1) Any officer empowered under any of these rules to grant a license, pass or permit thereunder may in his discretion either grant the license, pass or permit (as the case may be) applied for, or, by order in writing, refuse to grant such license pass or permit.

(2) A person whose application for any license, pass or permit has been refused shall not be entitled to be informed of the reasons upon which such refusal is based.

56. (1) Every license granted under these rules shall be held to have been granted personally to the licensee named therein, and shall not be transferable.

(2) If any license-holder die before, or during the period of the currency of, his license, such license shall forthwith determine:

Provided that the Collector may in his discretion continue any such license in force in favour of the legal representative of the deceased license-holder.

57. (1) Any license granted under these rules may at any time be forthwith revoked and cancelled by the Collector—

(a) if the license-holder infringe or cause or permit any other person to infringe any of the conditions of his license, or any rule for the time being in force under, or any provision of, the Opium Act, 1878;

(b) if the license-holder become physically or mentally or otherwise incapable, for any period exceeding one month, of personally carrying on his business under his license;

(c) if the license-holder be declared insolvent or be imprisoned for any criminal offence;

(d) for any other sufficient cause:

Provided that the Collector may in his discretion renew any license which has been cancelled by him under this clause, on payment of such sum not exceeding Rs. 50 as he may think proper.

(2) When a Collector cancels a license under sub-clause (d) of the clause preceding, he shall remit a sum equal to the amount of the fee for fifteen days, and shall either give fifteen days' previous notice of his intention to cancel the license, or shall, in addition to remitting the sum aforesaid, make such compensation for default of notice as the Commissioner directs. On the expiration of the notice, or on the payment of the additional compensation, the Collector may cancel the license. Otherwise no person to whom any license has been granted under these rules shall be entitled to demand, recover or receive any payment or compensation whatsoever, or any refund of fees or instalment of fees already paid by him, or any remission of any sum

due from him to Government, in respect of the revocation, cancellation or other determination of such license in accordance with any of the provisions of these rules or of any condition of such license.

(3) The revocation, cancellation or other determination of any license granted to any person, under any power conferred by these rules, shall not operate as a bar to, or otherwise in any way affect, any proceeding which may lawfully be taken against such person in respect of anything done under, or arising out of, or connected with, anything done under such license, nor shall such revocation, cancellation or other determination relieve such person of any liability or penalty incurred by him under any provision of Opium Act, 1878, or other law for the time being in force regulating the cultivation, manufacture, import, export, transport and possession of opium or any of these matters or the rules made under that Act or such law.

(l) Disposal of things confiscated.

58. (1) All things in regard to which an order is passed under the provisions of the Opium Act, 1878, that they be confiscated, shall be delivered to the Collector of the district in which such order is passed.

(2) If the thing confiscated be pure opium, the Collector shall send such opium—

(*a*) if it has been confiscated in the town or suburbs of Lahore—to the Chemical Examiner of the Punjab Government,

(*b*) in every other case—to the Civil Surgeon of the district in which the order of confiscation was passed,

for examination and report.

On receipt of the Chemical Examiner's or Civil Surgeon's report, as the case may be, the Collector shall deal with the opium in such manner as the Financial Commissioner may from time to time direct.

(3) If the thing confiscated be an admixture of opium or admixtures of opium prepared for use in smoking, then such thing shall be destroyed.

(4) If the thing confiscated be poppy-heads, it shall be disposed of in such manner as the Collector may direct.

(5) In every other case the thing confiscated shall be sold and the proceeds of the sale shall be credited to Government in the treasury.

(m) Rewards.

59. The Financial Commissioner may either of his own motion or on application made by or through the Commissioner of a Division grant rewards for information regarding offences against the Opium Act or rules made thereunder, although no judicial proceedings be taken in connection with such information, or no person be convicted of any offence in connection therewith.

60. After the conviction of an offender—

(*i*) the Collector may grant on his own authority rewards not exceeding Rs. 100 in any one case, without regard to the amount of fine realised or imposed ;

(*ii*) the Commissioner may sanction rewards not exceeding Rs. 500 in any one case ;

(*iii*) if rewards exceeding Rs. 500 in any one case are proposed, the sanction of the Financial Commissioner must be obtained through the Commissioner ;

(*iv*) rewards may be disbursed as soon as the trying magistrate has recorded an order of conviction, unless the Collector sees reason for believing the case to be a false one, in which case the decision of the appellate court shall be awaited ;

(*v*) if a reward is proposed for any official of status higher than a Naib-tahsildar or a Sub-Inspector of Police or Excise, the previous sanction of the Financial Commissioner shall be obtained ;

(*vi*) any reward payable to an informer may be disbursed on the receipt of the Collector, without requiring the attendance of the actual payee or a receipt from him.

(n) Appeal and revision.

61. An appeal shall lie from an original or appellate order of an excise officer as follows, namely :—

(*a*) to the Collector when the order is made by an excise officer below the rank of Collector ;

(*b*) to the Commissioner when the order is made by a Collector ;

(*c*) to the Financial Commissioner when the order is made by a Commissioner :

Provided that—

(i) when an original order is confirmed on first appeal, a further appeal shall no lie ;

(ii) when any such order is modified or reversed by the Collector on appeal, the order made by the Commissioner on further appeal, if any, shall be final.

62. Every memorandum of appeal must be presented within one month from the date of the order appealed against.

Every memorandum of appeal shall be accompanied by the order appealed against, in original, or by an authenticated copy of such order, unless the omission to produce such order or copy is explained to the satisfaction of the appellate authority.

63. The Financial Commissioner, a Commissioner or a Collector may revise any order passed by an Excise Officer subordinate to him under these rules.

No 955.—*Notification.*—In exercise of the powers conferred by sections 5 and 13 of the Opium Act, 1878, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of the Punjab is pleased to make the following rules to regulate the possession, sale, manufacture, export. import and transport of morphiain the Punjab, and to direct that they shall have effect from the date of the issue of this notification :—

RULES.

(*a*)—*Possession of morphia.*

1. Any person may, without a license at any one time, have in his possession morphia or its preparations not exceeding 10 grains.

(*b*)—*Sale of morphia.*

2. (1) The Collector may, on receiving a written application, grant licenses to medical practitioners to sell morphia for medicinal purposes only.

A fee, at such rate (if any), not exceeding Rs. 20, as the Financial Commissioner may, from time to time, prescribe, shall be leviable in respect of every such license.

(2) The Collector shall, in respect of each such license, fix and shall record in the license the maximum quantity of morphia and preparations thereof, which the licensee may possess at any one time, for the purpose of vend or of making admixtures and preparations therefrom :

Provided that he shall not fix less than the following quantity, namely —1 oz.

(*c*)—*Disposal of morphia confiscated.*

3. (1) All morphia in regard to which an order is passed under the provisions of the Opium Act, 1878, that it be confiscated shall be delivered to the Collector of the district in which such order is passed.

(2) The Collector shall send such morphia —

(*a*) if it has been confiscated in the town or suburbs of Lahore—to the Chemical Examiner of the Punjab Government,

(*b*) in every other case—to the Civil Surgeon of the district in which the order of confiscation was passed,

for examination and report.

On receipt of the Chemical Examiner's or Civil Surgeon's report, as the case may be, the Collector shall deal with the morphia in such manner as the Financial Commissioner may from time to time direct.

(d)—Manufacture of morphia.

4. Morphia may be manufactured by any officer of Government who in the course of his official duty or for the purposes of such duty is required to manufacture the same.

5. A medical practitioner holding a license to sell morphia under Rule 2 may, subject to the limitation as to quantity which he may possess under his license, manufacture morphia from opium lawfully in his possession.

(e)—Import, export and transport of morphia.

6. Morphia may be imported, exported or transported by any officer of Government who is required to do so in the course of his official duty or for the purposes of such duty.

7 Subject to the provisions of the following rule, any person may transport or import morphia in any quantity which he may under the rule regulating the possession thereof lawfully possess, provided that no morphia other than morphia transmitted by an officer of Government shall be transmitted through the post.

8. Morphia may be imported or transported by any medical practitioner duly licensed to sell the same in such quantity as added to his stock in hand shall not exceed that specified in his license and for the purposes of his business as such practitioner: Provided that in the case of morphia imported by sea he shall pay in respect of such morphia such duty as may be leviable thereon under the Indian Tariff Act, 1894, as amended by the Indian Tariff Amendment Act, 1896, or any other law for the time being in force, and shall comply with any further conditions regulating such import as may be prescribed by the Financial Commissioner from time to time.

The 17th October 1916.

No. 956.—*Notification.*—In exercise of the powers conferred by section 13 of the Indian Motor Vahicles Act VIII of 1914, the Lieutenant-Governor of the Punjab is pleased hereby to declare that the provisions of sections 6 and 10 of the said Act and of Rule 2 of the Punjab Motor Vehicles Rules of 1915 shall not be applicable within the Punjab to (*a*) military motor ambulances, (*b*) armoured motor-cars or (*c*) motor vehicles belonging to any Mechanical Transport Unit of His Majesty's Forces.

EDUCATION.

The 27th October 1916.

No. 266.—*Notification.*—It is hereby notified for general information that a State scholarship for technical training in England or other Western countries will be awarded during 1917 to a student who is a resident of the Punjab or its Dependencies. Law, Medicine, Forestry, Veterinary Science, Agriculture, Civil Engineering and Geology are considered to be outside the scope of the scheme, but Electrical and Mechanical Engineering are included. The conditions under which the scholarship is tenable and the rules for State technical scholars in England are appended to this notification.

2. Applications should be submitted to the Director of Public Instruction, Punjab, not later than the 1st December 1916, and applicants should state the particular industry in which they desire to be trained, full particulars as to education, practical experience of the industry, character, physique, etc., being given. The certificate of physical fitness should be signed by the Civil Surgeon of the district. The selected candidate will be required to leave India by the middle of August 1917.

APPENDIX I.

CONDITIONS.

1. The Government of India have decided to allot to the Punjab one State technical scholarship annually to enable Natives of India to pursue a course of study in Great Britain or other Western countries. The object is to qualify them to assist in promoting the improvement of existing native industries and development of new industries, wherever this may be possible.

2. The value of each scholarship has been fixed at £150 a year in addition to fees and travelling expenses; but if in any particular case this sum is regarded as insufficient, the Government of India will consider proposals for increasing it.

3. The scholarships are tenable in Great Britain, on the Continent of Europe, or in America, and are payable from the date of the scholar's arrival in the country selected for study. Each scholarship will be held for an average period of two years which may be increased or reduced in special cases.

4. The scholarships are tenable by persons who are natives of India within the meaning of section 6 of Statute 33, Victoria, chapter 3. A competent knowledge of English or of the language of the country selected for study will be expected.

5. No age limit has been fixed, but Government may limit the age in particular cases.

6. Candidates will be required to submit certificates of good moral character and physical fitness.

7. Before the successful candidate leaves India, his parent or guardian will be required to show that he has sent to the Secretary for Indian Students in London a sum of £15 for initial expenses.

8. The selection of candidates will not be determined by examination; Government will be guided by consideration of the candidate's capacity, intelligence, previous training, practical interest in the industry selected, and the assurance that he will devote himself to it on his return to India.

9. The scholars while in England or elsewhere will be under the control of the Secretary of State. Progress reports will be required from time to time, and when these are unsatisfactory, the scholars may be required to return to India.

10. After training no scholar will be bound on his return to India to take service with Government or a private firm, but he will be expected to avail himself of any suitable opportunity offered for the useful application of the results of his training.

REVISED RULES.

RULES FOR INDIAN GOVERNMENT TECHNICAL SCHOLARS IN ENGLAND.

1. All Government scholars are required to avail themselves of the information and advice which the Secretary for Indian Students and the Local Advisers at University centres are in a position to give them, and to apply to their Local Adviser for instructions as regards their studies and in any circumstances of difficulty. The Local Advisers at Oxford, Cambridge, Manchester, Edinburgh and Glasgow have charge of Government scholars studying at those Universities. Scholars studying elsewhere will be under the charge of the Educational Adviser in London. The Adviser is the proper person to bring before the Secretary for Indian Students any matter requiring the sanction of the Secretary of State in Council.

2. Every scholar should on reaching England at once report himself to the Educational Adviser in London at 21, Cromwell Road, S. W. Accommodation for new arrivals is provided in that house. After seeing the Educational Adviser in London, and consulting with him in regard to his course of study, he should also call on the Secretary for Indian Students at the India Office.

3. Every scholar must obey all instructions which he may receive, either through the Secretary for Indian Students or through his Local Adviser, and must consult his Local Adviser regularly in regard to his work. No course of study will be sanctioned which does not provide for an adequate practical training. Any course which has received the sanction of the Secretary of State will not be changed without similar sanction.

4. Every scholar must from time to time, whenever the Local Adviser requires it, submit a certificate from the proper College or University Authority, or from any other Authority under whom he is working, showing that his conduct and progress have been satisfactory.

5. Every scholar must give a written undertaking that he will devote himself exclusively, during the tenure of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

6. Every scholar will be required to keep a concise diary, to be submitted at the end of each term to his Local Adviser, and to be forwarded through the Local Adviser at the end of each academic year to the Secretary of State for transmission to India.

7. Scholars will be expected to continue their studies during vacations with the exception of three weeks in each year. Vacation study should, as far as possible, take form of practical work.

8. Plans for vacation work, accompanied by a complete estimate of any extra expenses for fees or travelling involved, should be sent in to the Local Adviser six weeks before the end of any academic term. Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during time spent on vacation work, but a scholar who receives permission to visit the Continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

9. Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the Local Adviser under whose charge he is. It will begin from the date of the scholar's reporting his arrival in England, and the Local Adviser will disburse it to the scholar in such instalments as convenience may indicate. Three months after the date of reporting arrival, the amount to the ensuing official Quarter Day* will be paid to the Local Adviser, and subsequent payments will be made in advance on or after each official Quarter Day. The allowance will, except in special cases, be at the rate of 150*l*. a year.

10. Every scholar is required to lodge with the Secretary for Indian Students at the India Office, London, before his arrival in England, the sum of 1 *l*. for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

11. Charges for University and College fees, premiums for practical training, and the necessary expenses of scholars by second class, or by third class if no second be available, will, if sanctioned, be defrayed by the Secretary of State. Applications for payment of all these charges should be made through the Local Adviser. But charges for private tuition, unless specially sanctioned, for books, instruments, hotel bills and medical attendance, must be paid by the scholar himself.

12. No claim can be admitted for the payment of any expenditure unless the scholar has obtained *previous* sanction from the Secretary of State.

13. The scholarship is granted in the first instance for two years, unless the Secretary of State in the exercise of his discretion sees reason to terminate it sooner. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to comply with the Rules here set forth. It may be terminated at any time if a scholar fails in health or conduct. It may also be extended for a third year or longer, if the Secretary of State decides that such an extension is required to complete the scholar's training.

14. On the expiration of the scholarship a scholar is provided by the India Office with a free second class passage to India, and he should apply for it without delay through his Local Adviser. He is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office. If a scholarship be forfeited, or if it be resigned before completion of its term, or if the holder of it, on completion of its term, declines to return to India when instructed to do so, the scholar will lose his claim to a free passage back to India.

J. C. GODLEY,

The Deputy Commissioner then read out the following address on behalf of the district board :—

To

THE HON'BLE SIR MICHAEL FRANCIS O'DWYER, K.C S.I., I.C.S.,

Lieutenant-Governor of the Punjab.

MAY IT PLEASE YOUR HONOUR,

We, the members of the Kángra District Board on behalf of His Majesty's loyal subjects of Kángra, beg leave to approach Your Honour with this humble address of welcome on your first visit to this ancient town.

The Fort of Kángra at whose gates Your Honour has chosen to hold this Darbar has a history stretching far back into the past and is full of warlike memories for the people of these hills. It is therefore fitting that they should be called together at this spot to meet Your Honour at a time when they in common with His Majesty's subjects throughout the world are engaged in the greatest War of all times.

We are glad to assure Your Honour that this district has remained unaffected by the seditious movements, which have lately affected the neighbouring districts in the plains, and we are proud to bring to Your Honour's notice the part played by Kángra in the Great War. When the War started there were in existence three Dogra Regiments mainly recruited from this district as well as 41 companies of infantry and 9½ squadrons of Cavalry, besides a large number of persons serving in batteries and other units, making a total of 5,531 men in the Indian Army. One of these regiments, *viz.*, the 41st Dogra, was among the first Indian Troops to be sent overseas, and after serving gallantly in France and Mesopotamia it has recently returned to its Headquarter at Jhelum. Another, the 37th Dogras, has also seen heavy fighting in Mesopotamia and is still on active service. A number of Kángra soldiers have been decorated for acts of bravery and one of them, Daffadar Gagna of the 57th Rifles, whose heroic exploits were cabled to this country as early as November 1914, is to receive his Medal at Your Honour's hands to-day.

In a war of this severity it has been no easy matter to keep the regiments up to their full strength, especially as the classes from which they were drawn were already very fully recruited when the war broke out So we are glad to say that so far 3,642 recruits have been sent up and fresh recruits are still forthcoming at the rate of between 80 and 90 a month. From Lahaul quite lately an offer has been received from Thakur Amar Chand to supply 100 labourers for war work. The Thakur will accompany them himself. Such a practical expression of loyalty from such an isolated tract is, we venture to think, worthy of Your Honour's notice.

The 1st King George's Own Rifles, though not recruited from this district, are permanently stationed at Dharmsála, and many of them have made their homes in neighbouring villages. The first battalion left for France on the outbreak of the war and is now in Mesopotamia. It has served throughout with distinction and has sustained severe losses of British Officers, Gurkha Officers, and rank and file. The second battalion was in Chatrál in August 1914 and returned in time to take a prominent part in the engagement at Chakdara and is now at Dharmsála in readiness to proceed wherever its services may be required. Since the war began the 1st Battalion has enlisted 1,392 recruits and the 2nd Battalion 1,280. This is an object lesson.

Turning to matters of more local interest while thanking the Punjab Government for the liberal grants made for repairing the damages caused by the great earthquake we beg to bring to Your Honour's notice the special needs of this district in the matters of communications and medical relief. We believe that with the exception of Dera Gházi Khan this is the only district in the Punjab not traversed by the Railway and we hope that the projected extension of the North-Western Railway Line from Patnánkote to Núrpur will soon be taken in hand. This will bring the cantonments of Dalhousie, Bakloh and Dharmsála within easy reach of the plains as well as doing much to open up the resources of the district. The question of communication with Kulu Valley and through Kulu with Central Asia is also one to which we wish to call Your Honour's attention. The Larji-Mandi road will, when finished, provide a cart road from Mandi to Kulu, and we venture to suggest that money will be well spent in improving the Pálampur-Mandi and Mandi-Phagwára road. Of hardly less importance to the prosperity of the district are the smaller roads for which the district board is responsible, and we trust that Your Honour's Government will continue to extend generous assistance towards their upkeep.

The Government has supplied us with a well equipped High School at Dharmsála, but the district is in other respects one of the most backward in education. In the matter of Medical relief also there is much room for progress. We trust that our requirements in these directions will meet with favourable considerations from the Government.

The revision of the land revenue settlement has been the occasion for raising afresh the consideration of the forest policy of Government and a certain amount of uneasiness has been occasioned by uncertainty as to Government's intention. Having full faith in Your Honour's Government we earnestly pray that this difficult question may be definitely settled at an early date.

In conclusion we wish once more to assure Your Honour of the unswerving loyalty of the people of this district to His Majesty's person and Government.

Your Honour's Most Obedient & Humble
Servants,

Members of the Kángra District Board,

Q. Q. HENRIQUES,
President.

MOTI LAL, KAISTHA,
Vice-Chairman.

BRIJ LAL,
Honorary Secretary.

After the Deputy Commissioner had presented the Members of the district board, His Honour replied as follows:—

I thank you very heartily for your warm welcome and your loyal address. It is a great pleasure to me to meet to-day the Rajas and leading men of this ancient and historic district in Darbar, and, as you have pointed out, it is particularly appropriate that this Darbar should be held at the gates of Kángra Fort, which though laid in ruins by the earthquake of 1905 has an eventful history stretching back to the days when Alexander of Macedon penetrated to the banks of the Beas. For over 2,000 years Kángra Fort has been the centre and the rallying point of the great Katoch clan, of whom I am glad to see so many worthy representatives present here to-day, and throughout its long history down almost to our own day has witnessed a succession of gallant struggles by the Katoch Chiefs to retain their independence against successive invaders. Mahmud of Ghazni, Feroz Shah Tughlak and Timur invested or captured it and laid violent hands on the treasures of the ancient temple which is regarded with such veneration by the Hindus of Northern India. That historic building also fell a victim to the earthquake, but I trust the pious efforts of those who have undertaken the work of restoring it will soon be brought to a successful completion.

2. Thereafter Moghals, Sikhs and Gurkhas in turn endeavoured to secure possession of this key to the Punjab hills. But though it surrendered in each case after a gallant resistance it was never taken by storm, and as you know when invested by British troops 70 years ago after the cession of these districts by the Lahore Darbar, the Sikh garrison still held out and finally was allowed to withdraw with honour.

3. The advent of British rule has substituted peace and security for the constant bloodshed and anarchy that prevailed in the past. The Kángra Rajas who had already lost their independence to the Sikhs were no doubt disappointed to find that ruling powers were not restored to them when the British Government took over the country; but they have become reconciled to a position in which their Jagirs and proprietary and feudal rights have been fully recognised; they exercise wide jurisdiction, civil and criminal, within their former principalities, and their hereditary influence among the people and loyal support are always at the disposal of the Government. In this great and loyal province of the Punjab there is no district where Chiefs and people are more loyal and law abiding. In no district is crime so light and, as you point out in your address, the revolutionary movement of last year which for a time disturbed the peace of adjoining districts in the plains met with no support here.

4. But while the people of Kángra have turned the Pax Brittanica to good account they have not allowed it to extinguish those splendid martial qualities for which they have been famous in the past. Of the 250 districts of the Indian Empire Kangra with a population of only two-thirds of a million ranks 5th in the number of fighting men it supplies to the Indian

Army. On the 1st of January last the number of Kángra men in the Indian Army was 7,450 and it was surpassed only by—

Ráwalpindi with 13,000

Jhelum with 12,000

Rohtak with 8,500

Hoshiárpur with 7,700.

All you will be proud to observe are Punjab districts. The fine fighting races known as Dogras (hill people) are primarily associated with Kángra which furnishes over 7,000 of the 13,000 Dogras in the Indian Army. You may therefore claim a great share in the exploits of the three famous Dogra regiments—the 37th, the 38th and the 41st—and of the many Dogra companies and squadrons in mixed regiments in the present war. Wherever they have faced the enemy—whether in France, Egypt, Africa or Mesopotamia—the Dogras by their steady discipline and splendid valour have proved themselves worthy descendants of the men who in the past held the Kángra Fort against Afghan, Turk, Moghal, Sikh and Gurkha. The Army Department has kindly furnished me with a list of special distinctions won by Dogras during the present war. They include—

Victoria Cross	...	1
Military Cross	...	1
Order of British India	...	5
Order of Merit	...	29
Distinguished Conduct Medal	...	56
Distinctions given by our Allies	...	4
Total	...	96

All honour to the men who have won such distinctions for themselves, the Army and the races to which they belong. Kángra will rejoice that a Kángra man has secured one of the seven Victoria Crosses awarded to the Indian Army. This hero is Lance Naik Lala of the 41st Dogras, a resident of Parol in Hamirpur, who at the battle of Umm el-Hannah in Mesopotamia on January 21st rescued two wounded British Officers, Captain Nicholson of the 37th Dogras and Lieutenant Lindot of the 41st, under the enemy's fire. I have heard the details through one of the officers whose life he saved at the risk of his own and they stand forth prominent among the many deeds of bravery and self-sacrifice which this war has witnessed. It is also my privilege to-day to confer the Russian decoration of St. George (which in Russia is the equivalent of the V. C.) on Havildar Gagna of the 37th Dogras whose heroic exploit early in the war in November 1914 caused a thrill of pride and delight to all who followed the doings of the Indian Army Corps in France.

5. But exploits such as these entail corresponding sacrifices and the problem for the men in Kángra is to provide recruits to make good the wastage and fill up the gaps caused in the Dogra regiments, companies and squadrons by 2 years' continuous warfare. This is no easy task for, as you point out, and as a comparison with other districts shows, Kángra had been heavily drawn on by the Army before the war broke out. Since then you have provided nearly 4,000 recruits, but this is not enough; further efforts are required and Government looks to you to make them. I know that your Rajas and leading men and in particular Lieutenant-Colonel Raja Jai Chand of Lambagraon, the Raja of Guler, T. Rajindra Pal of Kutlehr, Rai Megh Singh of Kulu are working, not only in their own Ilakas, but wherever Dogra recruits are to be found, to keep the Dogras at full strength and enable them to share in the final triumph of our Arms which is at last coming into sight. I appeal to you here to-day to join in this good work and thereby maintain the high reputation of Kángra as the nursery of brave men and loyal soldiers of the King Emperor. The action of the Thakur of Lahaul in raising 120 men among the sparse population of those snowy wastes for service under himself in the swamps of Mesopotamia is a fine example of patriotic enterprise which you have done well to cite and which I am glad publicly to acknowledge. It is his devotion to the task that has prevented him from attending to-day's Darbar.

6. Any reference to the Kángra troops would be incomplete if I failed to mention the two gallant battalions of the 1st King George's Own Gurkhas who in peace time are cantoned in the district and many of whom have made their homes here on retirement. The first battalion of the Regiment has covered itself with glory in France in the terrible battles of Festubert, Ypres, Neuve Chapelle, and if that were possible has added to its laurels in some of the bloodiest fighting in Mesopotamia. Its losses in officers and men have been enormous. The distinctions it has gained so far constitute a splendid record for a single battalion and include for British Officers 1 C.M.G., 1 D.S.O. and 2 M.C.S., and for the Indian Officers

and men 3 Russian Orders of St. George, 6 Indian Orders of Merit, 17 D. S. Medals. The 2nd battalion which has furnished the fine guard of honour at this Darbar was garrisoning distant Chitrál till a year after the outbreak of War, and on its way back to India took a prominent part in the fighting in the Swat Valley and at Shabkadar last autumn. It is now waiting impatiently to be sent to the Front when we may be sure it will rival, for it can hardly surpass, the gallant deeds of the 1st Battalion. Since the War began the 1st Battalion has enlisted 1,398 recruits and the 2nd 1,280. These figures are remarkable and I quote them in the hope that they will move the people of Kángra to friendly emulation.

7. Now I turn to the internal affairs of your district. I am glad to notice your recognition of the generous assistance given by Government and the outside public to repair the havoc of the terrible earthquake which devastated the district and shook the whole fabric of society eleven years ago, and you in your turn are to be congratulated on the sturdy self-reliance which has enabled you so rapidly to recover from that appalling disaster. The two questions of most moment in Kángra are the settlement of the Land Revenue and the forest administration. The revision of the former has now been completed and I think all will admit that it has been carried out with due regard to the circumstances of the agricultural population and to their reputation as a peaceful and law-abiding community whose small holdings and martial qualities entitle them to special consideration. Though since the last settlement prices have risen about 50 per cent., though cesses have been reduced and though there has been some increase in cultivation and irrigation the enhancements of land revenue have been very slight, *viz.*—

	Per cent.

The leniency which has been shown in Kángra is only an instance of the policy which Government applies in similar conditions to other districts. During my time of office the revised assessments of nearly all the districts of the Central Punjab have come before Government. Gujrát, Siálkot, Lahore, Amritsar, Ferozepore, Jullundur, Hoshiárpur have been dealt with. In all these cases while the enhancements owing mainly to the great extension of cultivation and irrigation were higher than in Kángra in not a single case did Government take more than one-third of the net profits of the land—though it might have taken up to one-half—while in many cases it took even less than one-quarter. Having seen a good deal of the revenue system in other provinces of India and in Native States I can assure you that nowhere is the land revenue assessment so lenient as in the Punjab; and I rejoice that it should be so for that leniency is a recognition of the fact that the Punjab is a land of small peasant proprietors who furnish the bulk of the Indian Army and therefore merit the special consideration of Government.

8. You have referred in your address to the question of the forests. Forest questions have always bulked large in Kángra and there has lately been a tendency to make out that the people have been ungenerously treated by Government in the matter. I hardly think that your grandfathers would have taken that view. In the days before the British Rule all the waste belonged to the local Rajas, and one of the first acts of the British Government in Barnes' Settlement was to confer on the Zamindars the valuable possession of the waste from the beds of the rivers to the crests of the mountains. That, Gentlemen, was not ungenerous treatment, and if you cross the passes into Kulu you will find that there the waste is still the property of Government, while in all the Hill States it is the property of the Rajas. But though Government conferred on you the waste it reserved to itself in the interests of future generations the right of property in the trees subject to reasonable rights of user by the Zamindars. At Lyall's Settlement Government went one step further and with certain limitations relinquished its claim to trees on private waste—another valuable gift to the Kángra Zamindars. The difficulties that have arisen in interpreting Lyall's records are familiar to most of you. The people only claim that Lyall's records should be acted upon, but it has been represented to me that hardship and inequality would arise in some cases if we were to give strict effect to his intentions, that Government would have to undertake the conservancy of innumerable small and scattered areas, and the result would be to increase the hardships of the people without really improving the forest growth. It has, therefore, been decided on the advice of the forest and revenue authorities to abandon Government's claims to trees on waste areas definitely regarded as *Dakhil Bachh* in Lyall's Settlement except where areas in *Dakhil Bachh* waste have been included in demarcated protected forests. In some cases, specially in the Hamirpur Tahsil, Lyall's record alone will not suffice to determine what land was *Dakhil Bachh* and what was *Kharij Bachh*, and there doubtless local enquiry and an examination of all

available papers will be necessary. But where Lyall's papers leave no room for doubt they will be accepted as the basis of decision. Government makes over this great property to you in trust for your children and your children's children, and it will be your duty to hand on the heritage unimpaired.

9. Another forest question which has occupied the attention of Government and the people has been the tax on buffaloes, goats and sheep. Here again the object of Government has been merely to arrest the ruin of forest growth which is proved to have taken place from excessive grazing and browsing of these animals in the forests and the waste. In the last twenty years sheep and goats have increased more than 50 per cent. and buffaloes 33 per cent. These increases were more than the waste and forests could bear. All those who are in a position to compare the forests now with what they have been in the past are unanimous in the opinion that they have steadily deteriorated from excessive browsing by sheep and goats which makes reproduction impossible. Mr. Hart who was your Forest Officer 12 years ago and is now Inspector-General of Forests in India came here on a tour of inspection a year ago and has put it on record that the change for the worse is appalling and unless checked will seriously affect the means of living of yourselves and your children. Government has, therefore, decided to intervene in their interest. That is the only object of the tax. Government has no desire to make money out of it, and I have already indicated my readiness to increase the grants-in-aid to the district boards by an amount equal to the proceeds of the tax so that the money may be spent for the benefit of the district. We do not propose to tax the buffaloes that are used by the Zamindars for ploughing or to supply their own families with milk and *ghi*, and the tax will fall only on the buffaloes that are kept for purposes of profit and trade. Similarly when the tax on goats is revised two years hence, those *tikas* that have cut down the number of goats to a reasonable quantity will find that they are more lightly taxed than their neighbours who have persisted in disregarding the warning. There is nothing in all this of which any one can reasonably complain. The taxes are not excessive in amount; they are in accordance with the old custom of the country and the existing practice in Kulu and adjoining hill States.

10. The general policy of Government in regard to the forests is to maintain a reasonable proportion of forests for the use of future generations. To secure this it is necessary in the areas selected for conservation to arrest the denudation which is now taking place and which not only prevents any new forest growth from springing up—the absence of young trees is obvious to any one who passes down the valley—but in many places threatens the safety of the cultivation. In pursuance of that policy a scheme is, as you know, now being worked out to mark off the areas in which effective protection should be retained or regeneration should be secured and to close in rotation portions of such areas for the period necessary for regeneration. The selection of those areas is being carried out by a Civil Officer and a Forest Officer in consultation with the Zamindars. In the remaining areas the administration of the Forest Department will as far as possible be removed and they will be transferred to the district authorities to be managed as unclassed forests in co-operation with the people, as has already been done in part of the Núrpur Tahsil.

You will see that the main object of Government is not to derive revenue from the forests, but to protect adequately such share of them as is necessary for future generations. Within the last 10 years the average annual income from the forests has been Rs. 85,000, the average expenditure Rs. 84,000, and the net gain to Government only Rs. 1,000 per annum But in the same period Government has paid an average of Rs. 14,000 to the people for their share of the profits of sales. These figures should remove any suspicion as to the intentions of Government, and I look to the people of Kángra to co-operate loyally with the policy I have now indicated. The sole object of Government is to put at the disposal of the people all forest areas which it is not essential to protect, and to protect efficiently, subject to reasonable user (bartan) by the people, the remaining areas in the best interests of the people and of their descendants."

11. You have referred in your address to the question of communications. For many years Kángra and Hoshiárpur were the only districts on this side of the Indus into which no railway had yet penetrated. Hoshiárpur has now its lines to Mukerián, Hoshiárpur and Garhshankar, and I hope that before many years have elapsed you in Kángra will have your railways too. The line from Pathánkot to Núrpur has been surveyed and I have placed the project high on the list of Punjab Railway Schemes. The cost will be about 13 lakhs, and I hope that it will be found possible, if the line is constructed by a company, to reserve a certain number of the shares for local investors. Whether we shall be able to extend the line further up the valley within the near future, I cannot say. Such an extension would be an administrative convenience and would stimulate the local and Central Asian trade. But there are many projects in the plains which promise to be more remunerative, and it will be time to think of further extensions when the Núrpur line has established itself as a paying concern. Meantime it is essential to improve and extend the communications by road, and

Government is doing its share in the matter. The metalling of the Baijnáth-Pálampur section of the cart road is now being completed. The cart road on to Mandi is being steadily improved by the Mandi Darbar, and Government intends, as funds allow, to extend the cart road from Mandi to Larji in the Kulu Valley, while the States concerned will, it is hoped, carry out the extension from Mandi to Suket, Biláspur, Nálágarh and on to Rúpar or Kálka.

12. The district as you say is still very backward in education and medical relief. I am glad to see that the district board is alive to the needs of the people and that two new dispensaries are about to be opened. In coming down this valley I was much struck with the keen desire for educational facilities among the people. One sign of this is the number of aided schools recently started which are receiving grants from the District Board and which when firmly established will, I hope, be converted into Board Schools. Last year no less than 18 new schools for boys and 3 for girls were opened in the district, which has now 219 schools for boys and 38 for girls. In the last two years primary schools for boys have increased by 36. Considering the limited resources of the District Board which finances most of the schools these results are satisfactory. I do not think in recent years you have had much reason to complain of the support given to the Board by Government. In 1914-15 you received grants-in-aid to the extent of Rs. 96,000 including Rs. 42,000 for education and Rs. 40,000 for roads, and in 1915-16 in spite of financial stringency the Government contributions amounted to Rs. 1,09,000 including Rs. 47,000 for education and Rs. 58,000 for roads and other civil works. At the same time I readily recognise that the District Board of Kangra with an area of nearly 10,000 square miles to administer merits specially favourable treatment. A scheme is now being worked out under which each District Board in the province will receive, as a supplement to its own income, a general grant-in-aid from Government which will enable it to maintain efficiently and expand to a reasonable extent the services for which it is responsible. This grant will not be earmarked as at present for special purposes, but will be left at the disposal of the Board thereby extending the system of responsibility and of local self-government which it is the object of Government to encourage. In calculating the extent of the grant-in-aid for Kángra full consideration will be given to the special circumstances of the district, and as I have already said Government will be willing to include in it the equivalent of the cattle-tax. I am confident that under this system the growing needs of this district in the matter of roads, schools, dispensaries for man and beast will be more adequately met and that the District Board will wisely expend its increased income for the benefit of the district.

13. I believe a generation or more has passed since a Darbar was held by the Lieutenant-Governor in Kángra, and it has therefore been a special pleasure to me to have the opportunity of meeting you and talking to you to-day. I hope that what I have said will convince you that though remote from the head-quarters of Government, Government is not ignorant of your history and services or unmindful of your conditions and your needs. The district has always been fortunate in having officers such as Barnes, Lyall and O'Brien who were deeply attached to the people of Kángra and staunch advocates of their interests, and I am revealing no secret when I say that your officers to-day possess the same qualities. This mutual confidence between the people and their leaders on one side and the Officers of Government on the other is the sure guarantee of the loyalty and contentment of the people, which I am proud to think are marked features of the Punjab generally and of your district in particular. No better proof of this could be forthcoming than the splendid behaviour of the province in furnishing 100,000 recruits to the combatant Army since the War began, besides tens of thousands of followers and non-combatants. In response to the sudden demand of the Military authorities we have in the first fortnight of October raised over 10,000 men for service as Sarvans, Drabis, etc., in Mesopotamia—a feat of which the Government and the people of the Punjab may be equally proud. In the rallying of the Punjab to the cause of the Empire Kángra has already done much and will, I trust, do what further is required. It only remains to me to thank you again for your presence here to-day and for your kindly welcome to me, to congratulate you on a healthy season and on the bountiful harvest which is now being reaped, and to assure you of the continued interest of myself and my Government in the welfare of Kángra, its Rajas and its people.

An Urdu translation of His Honour's speech having been read out by the Mir Munshi the Chief Secretary declared the Darbar closed and the Lieutenant-Governor left the Darbar tent with the same ceremonies as were observed on his arrival.

Proceedings of His Honour the Lieutenant-Governor of the Punjab in the Home (Police) Department, No. 45 Police, dated 15th November 1916.

READ—

Letter No. 2162-20, dated 28th August 1916, from the Inspector-General of Police, Punjab.

RESOLUTION.—During recent years the inadequacy of the pay of the lower ranks of the Police Force in the Province has been repeatedly forced on the attention of the Local Government. The rates of pay for constables and head constables in force prior to the 1st April 1916 were fixed as a result of the report of the Indian Police Commission in 1905; and the minimum rate of Rs. 8 per mensem for a constable, which was recommended by the Police Commission, was accepted by the Punjab Government and approved by the Government of India.

Starting from that minimum the pay of the constable rose as follows :—

After 3 years' service, Rs. 9 per mensem.
" 10 " " " 10 " "
" 17 " " " 11 " "

Economic conditions have, however, changed very materially since these rates were regarded as an adequate wage for the police constable. A careful analysis of the tables of prices and wages published by the Government of India shows that since 1905 prices generally have risen by 30 per cent and wages by about 40 per cent.

2. The question of revising the pay of the lower grades of the Police Force thus became one of great urgency. Increasing difficulty was experienced in maintaining the Force at full strength; and the need for immediate action was emphasised by the occurrence of large numbers of vacancies in the Force and the insistent complaints put forward from nearly every district that

recruits were reluctant. Resignations were unusually frequent in 1914: and the recruits obtainable in recent years were reported to be of an inferior stamp, as was demonstrated by the increasing tale of men discharged from the Force as unsuitable within three years of enrolment. The position had been further aggravated during the last two years by the extraordinary demands made by the Army and its subsidiary services on the manhood of the Province, and by the enlistment of recruits for the Police of two other Provinces, both offering higher rates of pay than those subsisting in the Punjab.

In view of all these circumstances the Lieutenant-Governor recommended to the Government of India that the rates of pay of the constable should be revised as follows :—

Up to 3 years, Rs. 10 per mensem.
After 3 " " 11 " "
" 10 " " 12 " "
" 17 " " 13 " "

3. Head constables had hitherto been graded in three classes, drawing respectively Rs. 15, Rs. 17-8-0 and Rs. 20 per mensem. In some respects the head constable is the backbone of the Force; for on his shoulders rests the largest share of responsibility for the discipline and *morale* of the rank and file, and it was felt that to improve the pay and prospects of the constable only, while neglecting the interests of the higher subordinate ranks, would react unfavourably on a body of men whose influence in the Force it is essential to strengthen. A further important consideration was the encouragement of a better educational standard in the higher grade of head constables from which promotions to the rank of Sub-Inspector are made.

Accordingly, it was recommended to the Government of India that in future head constables should be graded with the following rates of pay :—

		Rs.	A.	P.	
1st grade (15 per cent.)	...	25	0	0	per mensem.
2nd " (30 " ")	...	20	0	0	" "
3rd " (30 " ")	...	17	8	0	" "
4th " (25 " ")	...	15	0	0	" "

4. The above recommendations for the revision of the pay of constables and head constables were accepted in their entirety by the Secretary of State and were given effect to from the 1st April 1916 at a total extra cost to the Provincial revenues of Rs. 4,69,314.

5. Concurrently with the revision of the rates of pay of constables and head constables, a revision of the strength and a re-distribution of the Force in accordance with present conditions have been effected. In the last two decades the development of the Province has been substantial and rapid. The vast extension of canal irrigation, together with improved facilities of communication by road and rail, have naturally been followed by great fluctuations of population in some districts and by the growth of new, and the decline of many old, towns. It followed that the distribution of the Police Force was based on conditions which had, in some instances, undergone material change and, in others, entirely disappeared. The Lieutenant-Governor, accordingly, decided to place a police officer on special duty to enquire into and report on the more efficient distribution of the Force. The enquiry was commenced on the 1st January 1915 and brought to a conclusion by the end of March 1916. It embraced not only an examination of existing establishment and contingent expenditure, but also a scrutiny of a number of pending proposals for additions to establishment, which involved an anticipated total increase in annual charges of Rs. 1,22,000, apart

from an estimated non-recurring expenditure of Rs. 1,14,000 on the construction of new buildings. The proposals for the future strength of the Police in each district have been worked out in consultation with not only the local officers but also with the Deputy Inspector General and Commissioner and orders have been passed on each case by Government. The final results are epitomized in the orders which sanctioned the reduction of 34 Inspectors, 42 Sub-Inspectors and 842 constables from, and an addition of 117 head constables to, the permanent establishment. It has also been found possible to dispense with the construction of the buildings referred to above.

6. The reductions and additions to establishment thus made are founded on certain considerations and principles which the Lieutenant-Governor thinks may here be conveniently explained in brief detail for future guidance.

7. *Upper Subordinates.*—The decrease in the numbers of Inspectors has been effected mainly by the abolition of the Reserve Inspectors. These appointments have been found to be superfluous in all districts excepting those of Lahore, Amritsar, Ráwalpindi, Gurdáspur, Ambála, Jhelum and Dera Gházi Khan. In the last-named district the circumstances are at present special, and in time it should be possible to bring this post also under reduction. Further, 12 unnecessary posts of Circle Inspector and a number of posts of Staff Inspector, provided for duties in central training schools which though sanctioned have never been filled, have been struck off the cadre.

The reduction of Sub-Inspectors is chiefly due to the general abandonment of the scheme under which these officers have been duplicated in certain police stations.

The opinion of district officers is unanimously adverse to this system as conducive to friction and loss of power. The best remedy to apply where the duties in the jurisdiction of any police station are found too onerous for due performance by one Sub-Inspector is to partition the area served: and this course has been recently adopted where most urgently required. In a few jurisdictions, however, the second or junior Sub-Inspector has been retained in order to allow Government a further opportunity of gauging the comparative efficiency of the two systems. Further reductions of Sub-Inspectors have been rendered possible by a more equitable distribution of work which has been secured by re-adjustment of the limits of certain jurisdictions. The total decrease in the cadre of Sub-Inspectors would have been more substantial, but for the necessity of increasing the reserve by 33 officers in order to comply with the requirements of the Government of India who have fixed this reserve at 14 per cent. of the establishment employed on fixed duties.

8. *Lower Subordinates.*—In dealing with the establishment of Lower Subordinates different factors, generally, have come into play. The principal of these requiring consideration have been the reinforcement of the investigating staff at police stations by the addition of head constables to replace the second Sub-Inspectors brought under reduction; the abolition of superfluous outposts; the ratio to be adopted between the strength of the Police and the population in cities and large towns; the provision to be made for escort duties; and, lastly, the maintenance of the reserves at the standard fixed by the Government of India.

The strengthening of the investigating staff at police stations, necessitated by the general withdrawal of the junior Sub-Inspectors has resulted in an addition of 117 head constables to the Police Force. The increase would have been even larger had it not been found possible to abolish a number of obsolete outposts manned by head constables and constables. Many of these outposts were originally established either to serve as halting places for escorts with treasure or prisoners, or for the protection of traffic by roads and ferries which

has now been diverted to railways: others were located with a view to the supervision of tracts once dangerous but now pacified, or the control of criminal classes who have since reformed or migrated elsewhere.

9. The determination of an appropriate ratio between the strength of the police and the population of towns has proved a matter of considerable difficulty: and it may be said at once that no hard-and-fast rules applicable to towns of large and small dimensions alike can be formulated. In each case it has been necessary to pay regard to diverse local circumstances such as the volume of commercial activity, importance and frequency of fairs and festivals, the general criminality of the neighbourhood, and the like. These considerations have rendered it impossible to prescribe a definite workable ratio of police to population in the smaller towns; but, after a careful consideration of all factors, it may be laid down as a rough guide for the future in the case of the larger towns of over 30,000 inhabitants that a reasonable police provision is a maximum of one constable to each 400 to 500 souls.

10. Generally, the provision for escorts was, with minor rectifications, found suitable. The prescribed reserves are known as the Contingency Reserve and the 1st Armed Reserve. As regards the former, the standard authorized by the Government of India is 15 per cent. of the strength of head constables and constables employed on fixed duties, and to this standard rigid adherence has now been given, involving a considerable reduction of men entertained in excess of this proportion.

11. In addition to the Contingency Reserve, the Police Commission recommended the provision in each district of a standing Armed Reserve of 2 head constables and 25 constables, to be maintained at head-quarters as a unit ready to move out at a moment's notice and deal with disturbances and other emergencies. This reserve was duly established: but experience has shown that, although an emergency Force of this strength is usually adequate, there are a few districts in which owing to their exposure to raids from the North-West Frontier Province and its hinterland, or to depredations by dacoits from neighbouring Native States, reinforcements are at times needed. Accordingly, the standing reserves of the Hissar, Ferozepore, Ludhiána, Miánwáli and Attock Districts have been brought up to a strength varying from 3 head constables and 35 constables to 4 head constables and 40 constables.

12. The nett result of all these changes, apart from the increase of 117 head constables, is a reduction in the permanent establishment of 842 constables.

13. The total savings effected by the reductions and additions in the permanent establishment of the Upper and Lower Subordinates will, when the scheme which was introduced on the 1st April 1916 is in full operation amount to Rs. 2,26,282. This sum must be set off against the gross increase of Rs. 4,69,314 entailed by the revision of pay detailed above. Thus the nett permanent increase in the cost of the Police Force may be put at Rs. 2,43,032.

In the meantime, however, owing to the abnormal conditions created by the war, the reductions which are contemplated by the above scheme have been neutralized by the necessity of entertaining temporarily an additional Police Force of 20 Sub-Inspectors, 60 head constables and 788 constables with effect from the 1st April 1916. Owing to the steady improvement, in the situation which has been apparent during this year, the Lieutenant-Governor has found himself able to order the progressive reduction of this additional Force, and hopes that it will have been entirely absorbed by the end of the current financial year.

14 The attached statements show for each district the former scale of establishment and that now sanctioned The latter should be taken as the starting point for any future proposals for revision of establishment.

ORDER.—Ordered that a copy of the above Resolution be forwarded to all Commissioners of Divisions and Deputy Commissioners in the Punjab; also to the Inspector-General of Police, Punjab.

Ordered also that the Resolution be published in the *Punjab Government Gazette* for information and that it be communicated to the Government of India, Home Department.

By order of His Honour the Lieutenant-Governor of the Punjab,

L. FRENCH,

Additional Secretary to Government Punjab.

These local holidays are confined to the districts of Ambála, Ludhiána, Jullundur, Hoshiárpur, Ferozepore, Lahore, Amritsar, Gurdáspur, Siálkot, Gujránwála and Lyallpur. Guru Nanak's birthday is also allowed in the Ráwalpindi District, and Guru Nanak's and Guru Gobind Singh's birthdays in the Montgomery District. There will, however, be no celebration of Guru Gobind Singh's birthday in the year 1917.

3. Local holidays for great festivals or fairs peculiar to particular places may be granted at the discretion of heads of offices, provided always that there are no arrears of work. The maximum number of such holidays that may be given by district officers is seven. This number should not be exceeded, and district officers should report to Commissioners before the beginning of the year the holidays proposed for their districts, and should fix them after the sanction of the Commissioner to the proposals has been obtained. Heads of offices may also, subject to the condition that there are no arrears of work, permit the last Saturday of every month to be observed as a holiday in the English and Vernacular Offices. In such cases all establishments should be allowed, subject to the condition laid down in the case of public holidays under the Negotiable Instruments Act, to take full advantage of the holiday.

4. This notification does not apply to holidays to be observed in Civil Courts.

Proceedings of His Honour the Lieutenant-Governor of the Punjab, in the Home (Military) Department, No. 192—Mily. I-31, dated 29th November 1916.

RESOLUTION.—Towards the end of September the Government of India in the Army Department informed the Punjab Government that they required as soon as possible a very large number of men to serve with transport units partly in Mesopotamia, partly in other theatres of war and partly in India. It was explained that the majority of the men must be from the Punjab, as this Province was more likely to furnish men willing to take service in the Army and to proceed overseas The most pressing need was for 3,500 mule and camel drivers required by October 15th for service in Mesopotamia.

It was realised that conditions were anything but favourable for recruitment on a large scale, not only because the Punjab had already furnished since the beginning of the war some 100,000 recruits for the combatant Army in addition to several thousands of followers of various classes, but also because the month of October, during which the recruits had to be raised, is one of the busiest seasons of the agricultural year, one harvest being reaped while another is being sown. The Lieutenant-Governor, though he had some doubt of being able to satisfy in full the requirements of the military authorities, undertook that his officers would do their best to procure at any rate the 3,500 sarwans and muleteers most urgently required.

2. Six officers—Messrs. Darling and Sheepshanks, Assistant Commissioners, Nawab Malik Khuda Bakhsh Khan Tiwana, Extra Judicial Assistant Commissioner, Sheikh Najam-ud-din and Khan Sahib Muhammad Zafar Khan, I.O.M., Extra Assistant Commissioners, and Lala Ram Chand, retired Extra Assistant Commissioner—were placed on special duty under Commissioners of Divisions in various parts of the Province to supervise recruitment, and instructions were issued to all Commissioners and Deputy Commissioners to assist these officers in every way and to collect through the agency of large landowners, zaildars and others as many suitable recruits as possible. Active recruitment began about October 1st. In a little over a fortnight so many men had been obtained that the recruitment of sarwans was stopped on October 18th and that of mule-drivers two days later. Exact figures are not yet available, but not less than 8,500 recruits of both classes have been obtained from the British districts of the Punjab and over 900 men from the

Baháwalpur (107), Jínd (305), Máler Kotla (100) and Farídkot (405) States. In addition His Highness the Maharaja of Patiála has raised within the State more than 900 men whom he proposes to form into two mule corps and one camel corps. He has very generously offered to pay all the expenses of enlisting and maintaining these three units for the period of the war as a further contribution from the State to the expenses of the war. This patriotic offer has been gratefully accepted by Government. The offer of Their Highnesses the Maharaja of Jínd, the Nawab of Máler Kotla and the Raja of Farídkot to pay all expenses connected with the enlistment of recruits obtained in their States, amounting in each case to many thousands of rupees, have also been accepted.

3. A small percentage of the men enlisted had subsequently to be rejected by the military authorities. This was to be expected, as the actual enrolment had to be done in most cases by officers unfamiliar with work of this kind, and the medical inspection of recruits was necessarily carried out at high pressure, in many cases by the subordinate ranks of the Medical Service. But the military authorities have expressed themselves as satisfied or more than satisfied with the great majority of the men enrolled, and the Government of India have recorded their great appreciation of the admirable arrangements made by the Punjab Government which have resulted in the recruitment of so large a number of men in so short a space of time.

4. The Lieutenant-Governor considers that the Punjab Government, the Ruling Chiefs above mentioned, and the people of the Province have reason to be proud of the splendid results obtained, which far surpassed all expectations. The figures by divisions are :—

Ráwalpindi	3,267
Lahore	2,431
Multán	1,131
Jullundur	994
Ambála	638

and the districts which supplied the largest numbers are :—

Amritsar	1,211
Gujrat	811
Shahpur	731
Jhelum	647
Lyallpur	463

The 10,000 men whom the Province has supplied within less than three weeks in response to this urgent call constitute a most valuable addition to the magnificent contributions which the Punjab has already made to the military forces of the Empire. His Honour therefore desires publicly to record his appreciation of the efforts made by Commissioners, Deputy Commissioners and special officers, many of whom had to sacrifice a well-earned holiday, to inaugurate and stimulate recruiting, and of the prompt and loyal response made by the people of the Punjab to the call. He also gratefully acknowledges the valuable services rendered by the Ruling Chiefs of the Punjab States whose assistance was invited, and by innumerable private gentlemen throughout the Province to whose cordial co-operation the success that has attended the recruiting campaign is in great measure due.

ORDER.—Ordered that this resolution be published in the *Punjab Gazette* and that copies be forwarded to all Commissioners of Divisions and Deputy Commissioners and to the Political Agents of the States mentioned.

By order of His Honour the Lieutenant-Governor, Punjab,

H. D. CRAIK,

Revenue Secretary to Government, Punjab.

Resolution by His Honour the Lieutenant-Governor of the Punjab and its Dependencies.

READ—

Administration Report by the Chief Engineer, Irrigation Works, Punjab, of the Canals in the Punjab for the year 1915-16.

Capital Outlay.

THE capital outlay (direct and indirect) on Productive or Major Irrigation Works, in operation at the end of the year 1915-16, was Rs. 23,24,13,967, including Rs. 1,54,62,483 contributed by Native States.

2. The Imperial expenditure incurred during the year was Rs. 48,20,389. Of this Rs. 41,18,752 were expended on the Triple Canal Project, *viz.*, Rs. 12,44,031 on the Upper Chenab Canal, Rs. 9,30,981 on the Lower Bari Canal and Rs. 19,43,740 on the Upper Jhelum Canal. On the other open canals the expenditure was comparatively small, except on the Upper Bari Doab and the Indus Inundation Canals. On the former 3½ lakhs were spent chiefly on the Hydro-electric Installation at Amritsar, remodelling the head-works at Madhopur and lining the Main Branch Lower with cement plaster. The large expenditure on the Indus Inundation Canals was incurred almost wholly on the scheme for giving a perennial supply of water for irrigation to the new Dera Ghazi Khan Municipality and the lowering of the bed of the head reach of the Manka Canal.

An expenditure of Rs. 97,000 was incurred on the Lower Chenab Canal mainly in connection with the measures for the prevention of water-logging.

3. On Minor Canals for which capital accounts are kept, *viz.*, the Shahpur and the Ghaggar Canals, the capital outlay during the year, was only nominal. The expenditure up to date on these canals amounts to Rs. 8,77,485, which includes Rs. 2,85,442 contributed by the Bikaner State towards the cost of the Ghaggar Canals.

Nature of Seasons.

4. The climatic conditions for the kharif crop were unsatisfactory, Rain in February and March 1915 helped the early kharif sowings, but thereafter the crop received little or no assistance from rain. The monsoon was a marked failure Temperatures were abnormally high throughout the season. The dry weather caused a scarcity of fodder in the early kharif, particularly in the districts of Rohtak and Hissar and in Jind and Patiala States. The scanty monsoon kept river supplies low and the inundation canals drew less water than usual. The demand for canal water during the kharif season, was very keen, but on the perennial canals it was, on the whole, satisfactorily met as the river supplies, though lower than usual, were under complete control, and were judiciously distributed.

The kharif conditions were repeated in the rabi, early sowings were helped by moderate rainfall in September and October. The winter rains failed almost completely. Owing to this and the light snowfall in the hills, the river supplies were much lower than usual and the canal supply reached a minimum on all the rivers in the Province, the deficiency being most marked on the Western Jumna. At the same time the demand for water by the cultivators was intense, and all the energy, skill and petience of the officers of the Department were required to adjust an abnormally short supply to an exceptionally large demand. The Lieutenant-Governor has much pleasure in recording that the results were successful beyond all anticipation, for, though the number of waterings had to be considerably reduced, the careful and equitable distribution matured a fairly good crop on an exceptionally large area.

The year was free from widespread calamities. As usual in very dry hot weather, grass-hoppers and other insects did much damage to the crops on all the canals, and more especially on the newer ones. Boll-worm also damaged the cotton crops on the Lower Chenab and Lower Jhelum Canals where special remissions had to be given on that account. The quality of the wheat crop was, however, excellent and helped to make good the deficiency.

Areas irrigated, &c.

5. The areas irrigated and matured by works of all kinds compare as follows with the corresponding figures for the previous triennium and for the year 1914-15 :—

Particulars.	Average of the three years ending 1914-15	During 1914-15.	During 1915-16.
	Acres.	Acres.	Acres.
Imperial and Provincial.			
Area irrigated	8,059,458	8,419,886	8,237,886
Area matured	7,667,893	8,067,258	7,805,703
Native States.			
Area irrigated	556,300	543,155	646,925
Area matured	552,637	540,507	643,284

Under Imperial and Provincial the area irrigated shows a decrease of 182,000 acres as compared with the year 1914-15, which was a record one.

The figures are, however, an improvement over the average of the previous triennium, the increase being due mainly to the development of irrigation on the Upper Chenab and Lower Bari Doab Canals.

Excluding the Triple Canals, however, the area irrigated during the year showed a drop of 389,290 acres as compared with the figures for the previous year, the inundation canals alone being responsible for about half of this shortage.

The shortage of 401,673* acres, as compared with 1914-15, in the area irrigated during kharif was due partly to the bumper rabi crop of 1915, which took so long to harvest that it interfered with early kharif sowings, and partly to the very unfavourable season caused by the failure of the monsoon. The prevalence of plague on the Western Jumna and Sirhind Canals also prevented sowings of early kharif. The decrease was naturally more marked on the inundation than on the perennial canals.

The rainfall in September and October encouraged the cultivators to put in extensive rabi sowings to make good the loss in the kharif; a large area sown by rainfall had later to be matured by the canals. The result was that the area irrigated showed an increase of 323,443 acres over the figures of the previous year.

Financial Results.

6. The financial results are based not on the areas irrigated in kharif 1915 and rabi 1916 but on the areas of rabi 1915 and kharif 1915, water dues on account of which were realized within the financial year (1915-16). The gross receipts from works of all kinds compare as follows with the figures for the year 1914-15 and the two previous triennial periods ending 1911-12 and 1914-15 :—

On the Major Works the gross revenue was the second largest on record, the highest being the year 1913-14. This very satisfactory result was due to the record rabi of 1915, the revenue on which was collected during the year under review.

*Includes area irrigated in Native States.

The working expenses for the year were unusually high, and compare as below with the similar figures of the annual averages of the two previous triennia and of the year 1914-15 :—

Much of the increase was incurred on the improvement of the right bank river defence work at Khanki on the Lower Chenab Canal, special repairs and staunching of banks on the Upper Chenab and Lower Bari Doab Canals, the up-keep of the Upper Jhelum Canal which was open for irrigation during the year, and on torrent-training works on the Sirhind Canal.

The net revenue for the year compares as follows with that of previous periods :—

Compared with 1914-15 and the triennial period ending 1914-15 the net revenue showed a falling off due partly to the decrease in the kharif irrigation already explained and partly to the increased expenditure under working

expenses. Excluding the figures for the Triple Canals, the net revenue earned by the Major Irrigation Works amounted to Rs 2,39,08,167, which gives 20 per cent on the capital invested (Rs. 11,90,06,780). The interest charges for the year amounted to Rs. 72,37,023, and the net profit after paying interest charges is Rs. 1,64,21,265 or 7·56 per cent. on the total capital outlay.

The percentage of net revenue on capital outlay on the principal canals was as follows:—

Canal.	Excluding interest charges.	Including interest charges.
Western Jumna	9·04	5·73
Sirhind	7·78	4·47
Upper Bari Doab	15·29	11·97
Lower Bari Doab	– 0·46	– 3·79
Upper Chenab	0·53	– 2·79
Lower Chenab	39·78	36·40
Upper Jhelum	– 0·79	– 4·12
Lower Jhelum	20·70	17·37
Upper Sutlej Inundation Canals	18·50	15·23
Sidhnai	51·55	48·18
Indus Inundation Canals	– 0·14	– 3·44

As usual the Upper Bari Doab Canal, the Lower Chenab Canal, the Lower Jhelum Canal, the Sidhnai Canal and the Upper Sutlej Inundation Canals continued to show excellent results. But it should not be forgotten that the high percentages on colony canals are due to the fact that they get a book credit for most of the land revenue and "malikana" in addition to the ordinary water rates. The disappointing results on the Indus Inundation Canals are mainly due to the fact that the heads of these canals have to be changed frequently and require heavy expenditure to maintain.

The working of the Triple Canals (Upper Jhelum, Upper Chenab and Lower Bari Doab) continued to show a deficit. Irrigation on this system has developed more slowly than was anticipated in the project owing to the unforeseen delay in the opening of the Upper Jhelum Canal. That canal has now been opened and a rapid expansion of irrigation is confidently expected within the next few years.

General Remarks.

7. The estimated value of the crops raised on all canals for the year under review is Rs. 27,50,82,336 against Rs. 27,76,29,480 for the previous year. This gives an average of Rs. 32·4 per acre matured. It may be noted that this calculation is based on the prices given in the Season and Crop Report for 1915-16; these prices vary from year to year

The length of channels in operation at the end of March 1916 was 18,806 miles, *viz.*, 4,332 miles of canals and branches and 14,474 miles of distributaries. Of these 128 miles of canal and branches and 144 miles of distributaries were opened during the year, mainly on the Triple Canal Project.

8. In the last year's review it was noticed that the Upper Chenab and Lower Bari Doab Canals commenced irrigating in 1912-13 and 1913-14, respectively. This year the Upper Jhelum Canal, the final link of the Triple Canal Project, was opened for irrigation on the 7th October 1915. Thus the year under review saw the completion of the great Triple Project, and the

opening ceremony was performed at Mangla, the head-works of the Upper Jhelum Canal, on the 9th December 1915, by His Excellency Lord Hardinge of Penhurst, late Viceroy and Governor-General of India.

The completion of the Triple Project marks a new era in the history of the Punjab Irrigation, a history which, the Lieutenant Governor ventures to claim, is without parallel in any country for boldness of conception, success in execution, magnitude of results, and above all for the number of great Engineers whose technical skill, practical ability and devotion to duty have overcome all obstacles and combined to produce the 9 million acres of irrigation which is the most solid basis of the prosperity of the Punjab of to-day.

9. The general dislocation in the trade of the world which followed the outbreak of the war affected the agricultural conditions of the Punjab as of other parts of India. Owing to a drop in the export of cotton very low prices were realised for the crop of 1914, and this caused the area under that crop to fall from 1,069,676 acres in 1914 to 473,193 acres in 1915, *i.e.*, by 56 per cent. This large decrease in cotton was partially compensated for by increase in maize, *jowar* and *chari*, and the high prices of food-grains generally compensated for the loss under cotton and caused an expansion of the area under wheat from 2,943,055 acres in 1914 to 3,041,248 in 1915.

10. In order to supplement the winter supplies of the Jhelum River for the use of the Triple and other canals, a project estimate for the construction of a barrage on the Woolar Lake Outfall was prepared by Mr. R. E. Purves, C.I.E., late Chief Engineer, Irrigation Works, Punjab. It is now under consideration by the Government of India.

Another scheme to conserve the supplies of the Jhelum River is the construction of a storage reservoir on the Kahan Torrent near Rohtas, rainfall and other statistics for which are being collected, but the project, judging by the data so far collected, is not a promising one.

11. The supply of the Lower Bari Doab Canal having been satisfactorily arranged for by the transference of the surplus waters of the Jhelum through the Triple Canal Scheme, the waters of the Sutlej below its confluence with the Beas are available for the irrigation of the Sutlej Valley. Among other schemes a project was prepared in 1913 for a weir 4 miles below the railway bridge at Ferozepore to serve two great canals. The right bank canal was to take up the irrigation now done by the Upper and Lower Sutlej Canals and provide new irrigation in the Nili Bar, while the left bank canal was to serve the areas now irrigated by the Bahawalpur Sutlej Inundation Canals and to command new areas in Ferozepore District and the Bikaner and Bahawalpur States. This project is now being modified in accordance with orders received from the Government of India, based on the recommendations of the Inspector-General of Irrigation who, last cold weather, made an extensive tour over the land covered by the left bank scheme. The Lieutenant-Governor hopes that the new project when worked out will be found acceptable both to the Bikaner and Bahawalpur States and form the basis of a final agreement.

12. The extension of irrigation in the arid and frequently famine-stricken districts of Hissar and Rohtak has been the aim of more than one project. The proposal to store the excess summer supply of the Jumna by a dam at Koch was held to be impracticable owing to the enormous cost of a dam at such an unfavourable site: whilst the alternative proposal to add to the supply in the Western Jumna Canal by means of a Sarda-Ganges-Jumna Feeder from the United Provinces has come to nothing, as it is represented that the surplus water of the Sarda is required for use in the United Provinces. A third and more promising scheme is now being investigated, involving a dam about 300 feet high at Bhakra on the Sutlej River, some 40 miles above the site of the head-works of the Sirhind Canal. This project will probably entail a second weir on the Sutlej some miles below Phillaur and a considerable amount of remodelling of some of the existing channels of the Sirhind Canal, which will be linked up with the Sirsa Branch of the Western

Jumna Canal with possible extensions to the Bikaner State and the unirrigated areas round about Sirsa. The Western Jumna Canal, being thus releved by the addition of part of the Sirsa Branch to the Sirhind system, would be able to irrigate certain unirrigated tracts of Hissar and Rohtak, which are peculiarly liable to famine.

13. The large variations in the supply obtained from the Ravi by the Sidhnai Canal with the consequent high percentage of failed crops, and the insecurity of supply to the Multan series of inundation canals, led to the framing of the Haveli Project. The essential feature is a weir across the Chenab River just below its junction with the Jhelum with canals on either bank. The canal on the right bank would take up new irrigation in the dry part of the Jhang District across the Chenab, finally tailing into the Karam Inundation Canal. The left bank canal would irrigate some of the unirrigated part of the Jhang District at the tail of the Lower Chenab Canal. But the upper part of this canal is a feeder principally, the major part of its supply being passed into the Ravi above the Sidhnai Weir to be used in the Sidhnai Canal and in the small inundation canals from the Chenab in the Multan District into which it tails. One of the main advantages of the scheme is to make the Sidhnai Canal independent of Ravi water, and so free the Lower Bari Doab Canal from its present obligation to pass beyond Balloki certain supplies which could be much more profitably utilised close at hand in Montgomery than in the far distant Multan District.

Experience of conditions at Haveli, when the Triple Canals are working full, is required before it can be confidently said that the Sidhnai Canal will not require help occasionally from Ravi water in certain seasons, and the project is under further consideration.

14. During the year, owing to the lack of canal closures consequent on the very dry season, but little progress could be made with the lining of channels to limit loss by seepage and percolation. Financial stringency too precluded all works but those urgently necessary. Nevertheless, on the Lower Chenab Canal measures were taken for the prevention of water-logging by the drainage of the water logged tract in the vicinity of the town of Hafizabad with most satisfactory results, and restored to cultivation about 7,000 acres of rice lands that have been swamps for many years. There is good reason to believe that the improvement effected is permanent, and that the swamps will not recur even in years of very heavy rainfall; and the Lieutenant-Governor will be glad to see similar measures extended to other water-logged areas. Again, the Main Line Lower of the Upper Bari Doab Canal was lined with cement plaster.

15. The posts of Chief Engineer were held during the year under review by—

Mr. F. E. Gwyther	...	1st April 1915	16th September 1915.
Mr. T. R. J. Ward	...	1st April 1915	31st March 1916.
Mr. F. C. Rose	...	17th September 1915	3rd March 1916.
Mr. W. F. Holms	...	4th March 1916	31st March 1916.

Mr. Rose has been promoted to the post of Secretary to the Government of India in the Public Works Department after a service of 30 years in the Punjab, during which his technical skill, administrative capacity, sound judgment and tactful methods of dealing with men and measures accomplished much for the development of the great irrigation system in the Province. Mr. Ward will also within a few weeks be leaving the Province which he has served so long and so well on promotion to the post of Inspector-General of Irrigation in India, and the Lieutenant-Governor desires to place on record his appreciation of Mr. Ward's brilliant talents as an Irrigation Engineer which have helped to solve some of the most difficult problems of hydraulic enterprise and have won for him a reputation in his profession that is not confined to the Indian Empire.

The administration of the Province cannot but be the poorer for the loss of two such distinguished officers, but the Lieutenant-Governor finds some satisfaction in the fact that, though called away to fill the two highest offices in the Public Works Department, their experience and ability will still be available in the solution of the many great questions of canal irrigation which still await decision in the Punjab.

16. In conclusion the Lieutenant-Governor desires to thank the officers of the Department as a body for their single-minded devotion to duty during a year of unusual strain, and to congratulate them on the signal success of their efforts towards maintaining the prosperity of the Province in conditions of exceptional difficulty.

By order of His Honour the Lieutenant-Governor,

W. F. HOLMS,

Secretary to Government, Punjab.

COMMERCE AND INDUSTRY DEPARTMENT.

The 4th December 1916.

No 1175.—*Notification.*—With reference to Punjab Government notification No. 910, dated 27th September 1916, the following rules made by the Lieutenant-Governor of the Punjab, in exercise of the powers conferred by

section II of the Indian Motor Vehicles Act, VIII of 1914, to regulate the use of motor vehicles let or plying for hire on the Rawálpindi-Murree-Kohala Road, are published for general information :—

DRAFT RULES.

Motor vehicles on the Rawalpindi, Murree and Kohála Road.

1. No motor vehicle shall be let or plied for hire on the Ráwalpindi-Murree-Kohála Road unless it is granted a special road certificate each year for this purpose by the District Magistrate of Ráwalpindi.

2. Before granting a road certificate to such a vehicle the District Magistrate shall be satisfied—

(*a*) that it is provided with two independent brakes or other means of stoppage in good working order and of such efficiency that the application of either is capable of promptly stopping the motor vehicle, whether going forwards or backwards.

(*b*) that except in the case of a heavy motor vehicle as defined in the rules in Government notification No. 553 of 1st April 1915, it is provided with pneumatic tyres, or tyres of a soft or elastic material, and its greatest breadth does not exceed 6 feet 6 inches.

3. On every motor vehicle to which a road certificate has been granted under these rules the owner shall cause to be affixed to some conspicuous part of the vehicle a card containing the following particulars in the English language and signed by the District Magistrate :—

(*a*) Registered number of the car.

(*b*) Owner's name and address.

(*c*) Date up to which the road certificate is in force.

(*d*) The maximum number of passengers permissible excluding the driver.

4. Every motor vehicle granted a road certificate under these rules shall be produced for examination by the District Magistrate from time to time as he may direct, and if he is of opinion that the motor vehicle has ceased to comply with the requirements of any of these rules or that it is unserviceable or unsafe or unfit for public accommodation or use, he may, after notice to the registered owner, cancel the road certificate until such time as the defects are rectified to his satisfaction.

5. On the portion of the road between Murree and the Toll Bar the speed at which a motor vehicle is driven shall not exceed 15 miles per hour.

6. No motor vehicle other than a heavy motor vehicle, defined in rule 1 (3) of the "Heavy Motor Vehicles Rules" shall be driven on the Ráwalpindi-Murree-Kohála Road if it is so loaded that the maximum breadth of the vehicle and the luggage on it shall exceed the limit of 6 feet 6 inches laid down in Rule 2.

7. No driver shall drive a motor which is let or plied for hire on the Ráwalpindi-Murree-Kohála Road unless he is specially licensed for that purpose by the District Magistrate.

8. The District Magistrate may refuse to grant a license to drive under rule 7 to any person who does not prove to his satisfaction that he is competent to drive a car with safety on a hill road or who is shown to his satisfaction to be guilty of rash or negligent driving.

An appeal shall lie to the Commissioner of the Division from the District Magistrate's refusal to grant a license.

9. A breach of rules 1, 3, 5, 6 or 7 will be punishable under section 16 of Act VIII of 1914.

19. The following fees in addition to any fees payable under Act VIII of 1914 and the other rules thereunder are payable :—

(*i*) For a road certificate for a motor vehicle a fee of Rs. 5 per annum from the 1st of April in each year.

(*ii*) For a license to drive under these rules a fee of Rs. 5 per annum from the 1st of April in each year, provided that only half fees shall be charged for a license or road certificate granted after September 1st in any year under these rules.

The 5th December 1916.

No. 1186.—*Notification.*—With reference to the notification of the Government of India in the Department of Commerce and Industry No. 10820-W-II, dated the 4th November 1916, the Lieutenant-Governor of the Punjab is pleased, with reference to section 3 (1) of the Enemy Trading (Winding up) Order, 1916, and section 175 of the Indian Companies Act (VII of 1913), to appoint Mr. H. A. Calvert, I.C.S., as liquidator of Hostile Trading Firms for the purpose of conducting the proceedings in the winding up of the Hostile Firm of H. A. Levy and Company, Lahore.

SCHEDULE OF THE THATH CAMP AREA.

Note 1.—Thath Camp lies to the north-west of Thath Cone, which is situated about 2 miles to the south of Dalhousie Civil Station. It is nowhere contiguous with the boundaries of Balun Cantonment.

Note 2.—Owing to the difficulty of fixing a pillar on the actual boundary in a definite manner, an auxiliary pillar, here called No. 1, has been introduced which is situated at the inner edge of the Provincial Dooly Road from Dalhousie to Bakloh at the Panch-pool Bend between the 1st and 2nd mile stones. Its position is determined as follows :—

Pillar.	Particulars.	Bearing from magnetic north.		Direct horizontal distance in feet.
		Degrees.	Minutes.	
1	From centre of Black bridge over Panch-pool stream ...	43	54	141
2	From Dalhousie Brewery boundary pillar, situated on a large boulder in the stream below the road.	83	53	214

Note 3.—There are no distant prominent objects to which bearings can be taken from No. 1 pillar. Magnetic variation in 1908, when this boundary was surveyed, was 3° 25′ E.

Boundaries of Thath Camp.

Pillars.	Description.	Bearing from magnetic north.		Direct horizontal distance in feet.
		Degrees.	Minutes.	
1 to 2	This is an auxiliary line, —*vide* note 2 above ... The line runs in a south-westerly direction, and crosses the Provincial Dooly Road and the tempora y, track leading to the Camp up the steep hillside to boundary pillar No. 2, which is situated 50 feet horizontally from the aforementioned track. This (No. 2 pillar) is the first actual pillar of the boundary.	204	4	537
2 to 3	The boundary here runs in a south-westerly direction up the steep hillside, and crosses the track leading to the Camp to boundary pillar No. 3, which is situated south-east of Titrar village on a large boulder on the edge of the temporary track.	203	55	1,127
3 to 4	The boundary from here runs almost due west to boundary pillar No. 4, which is situated on a spur south-west of Titrar village and north-west of Thath village.	272	51	625
4 to 5	The boundary here follows in a south-westerly direction up the hillside to boundary pillar No. 5, which is situated on a spur south-west of Thath village near an old stamp just off a well defined path.	195	22	893
5 to 6	The boundary here follows in a southerly direction down the hillside to boundary pillar No. 6, which is situated on a spur on the north side of Dibriani valley above the above-mentioned path.	183	25	533
6 to 7	The boundary here crosses the steep valley of Dibriani to boundary pillar No. 7, which is situated almost due west Laonti of Saont village on a prominent boulder on the top of the end peak of that ridge.	209	45	3,819
7 to 8	The boundary here follows in an easterly direction to the top of the hill above Dibriani village to boundary pillar No. 8, which is in the centre of the hill.	93	18	2,188
8 to 9	The boundary here comes down the hillside in a north-easterly direction to boundary pillar No. 9, which is situated in the neck separating Dibriani village from the Bakloh water-supply catchment area.	56	46	859
9 to 10	The boundary here follows in a north-easterly direction up the southern slope of Thath Cone to boundary pillar No. 10, which is situated on the summit of the cone in its western face.	46	50	2,292
10 to 11	The boundary here follows in a north-westerly direction down the northern slope of That Cone to boundary pillar No. 11, which is situated on the level platform at the head of the ravine running due south from Panch-pool.	313	0	1,730
11 to 12	The boundary here follows in a northerly direction down the bed of the ravine mentioned above to boundary pillar No. 12, which is situated in the bed of the ravine.	358	20	295
12 to 13	The boundary here follows in a northerly direction down the bed of the ravine to boundary pillar No. 13.	8	20	382
13 to 14	The boundary here follows in a northerly direction down the bed of the ravine to boundary pillar No. 14, which is situated on a large pominent boulder on the west side of the ravine.	340	44	781
14 to 2	The boundary here follows in a northerly direction along the left bank of the ravine to boundary pillar No. 2.	4	56	1,127

No. 81-*Mily.*-6.—*Notification.*—In exercise of the powers conferred by section 3, sub-section (2), of the Cantonments Act, 1910 (XV of 1910), as amended by Act X of 1914, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of the Punjab is pleased, in supersession of notification No. 286, dated 31st August 1908, to publish, for general information, the following schedule defining the revised boundaries of the Jullundur Cantonment :—

No. 215-*Mily*-1.—*2nd Battalion, North-Western Railway Volunteer Rifles.—Removal.*—Honorary Lieutenant and Quartermaster Patrick Ryan, having died on the 13th October 1916, his name was removed from the rolls of the Battalion with effect from that date.

The 5th December 1916.

No. 351-*Mily*.-2.—*Notification.*—The following is published for general information :—

No. 13128, dated Simla, 11th November 1916.

From—Major A. W. CHITTY, Assistant Secretary to the Government of India, Army Department,

To—The Quartermaster-General in India.

I AM directed to say that the Government of India sanction the grant of the following passage concessions to the families (including relatives residing with and entirely dependent upon the officers concerned, who do not fall within the scope of the definition* of "family" for the purpose of the grant of entitled passages) of all classes of civil officers who have been, or may be, detailed for duty with Indian Expeditionary Forces overseas :—

**Vide* Army Regulations, India, volume X.

(*i*) Free passage by private steamer to the United Kingdom or the Colonies.

(*ii*) Free passage from the permanent stations of officers to the port of embarkation under the rules in Army Regulations, India, volume X.

Such families as prefer not to go to the United Kingdom or the Colonies may, in lieu of passage to any of these countries, be given free passage to their selected places of residence in India under the rules referred to above.

These orders are also applicable to the cases of families who have already proceeded to the United Kingdom or the Colonies or to their intended places of residence in India at their own expense.

2. The procedure laid down in Finance Department resolution No. 236-A., dated the 10th March 1914, will be followed for arranging passages of all families entitled to free passage under the provisions of this letter.

3. The expenditure which will be incurred in the Civil Department should, after audit, be passed on to the Controller of War Accounts for adjustment.

No. 13129.

COPY of the foregoing forwarded, for information, to the Chief Secretary to the Government of the Punjab.

No. 13130, dated Simla, 11th November 1916.

From—Major A. W. CHITTY, Assistant Secretary to the Government of India, Army Department,

To—The Adjutant-General in India.

I AM directed to say that the Government of India have decided that families of all ranks of Civil and Military Police in India, Burma, and the Andaman and Nicobar Islands, including followers, clerks and salutries, who go as volunteers on active service overseas, shall be entitled to free passage by rail, river, canal and sea from their homes to the station to which the head of the family may be posted on return from such service.

2. The expenditure involved should be debited to the Imperial Government through the Controller of War Accounts.

No. 13131.

COPY of the above forwarded, for information, to the Chief Secretary to the Government of the Punjab.

Additional Secretary to Government, Punjab.

EDUCATION.

The 30th November 1916.

No. 323.—*Notification.*—It is hereby notified, for general information, that the Government of India will award one scholarship of the value of £200 a year to an Indian woman graduate.

2. The scholarship will be granted for educational or medical training. The term "educational training" includes the following :—

(i) Training of a secondary character for the teaching profession.

(ii) Training in one or more branches of domestic science.

(iii) Training as teachers of modern European languages.

(iv) Training as music mistress.

(v) Training as art teachers.

(vi) Training in Kindergarten methods.

3. The scholarship will be tenable in the United Kingdom or, with special sanction, in foreign countries, for a period of three years in the first instance, with the possibility of extension in special circumstances, and in particular in the case of medical students, to four and five years.

4. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectations of such employment will be held out.

5. Candidates must have passed the B. A. Examination of an Indian University or, in the case of medical candidates, must possess an Indian Degree in Medicine.

6. The candidate to whom the scholarship is awarded will be required to proceed to England within a reasonable time from the date of her selection and to reside there for a period of three to five years, as the case may be, unless compelled to return sooner by ill-health. The scholarship will be payable from the date of her reporting her arrival in England. She will be provided with a free second class passage to England and also with a free return passage if she completes the full period of residence or is compelled by sickness to return within that period.

7. The scholar will, on arrival in England, be required to bind herself by a written engagement to submit to the following rules and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for India for the guidance of scholars in England :—

(a) Every scholar shall, on reaching England, at once call upon the Secretary for Indian Students and report her arrival in writing. She shall leave her address with the Secretary for Indian Students and intimate to him from time to time all changes therein.

(b) Every scholar shall, without unnecessary delay, inform the Secretary for Indian Students to which University she intends to proceed, and shall at once take steps to enter herself at the College she has finally selected with his approval.

(c) Every scholar shall, within four weeks of reaching England, submit to the Secretary for Indian Students, for the approval of the Secretary of State, a statement showing the general course of study she proposes to follow, with a view to carrying out the objects of the scholarship granted to her: and the course approved must not be changed without the sanction of Secretary of State.

(d) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary for Indian Students a certificate from the proper College or University authority, showing that her residence, conduct and progress in study have been satisfactory during the term.

(e) Every scholar shall at all times obey such instructions as she may receive from the Secretary of State either directly or through the Secretary for Indian Students.

(f) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three, four or five years, will be paid quarterly, in advance, by the India Office, commencing from the date of scholar's reporting her arrival in England. The first payment will be £50. Three months after the date of reporting arrival the amount to the ensuing official quarter day will be paid. Subsequent payments will be made in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to her out of the revenues of India in respect of residence at a University during the same period or any part of it, and also by the amount of any University or College bills, of which payment is made by the India Office.

(g) Travelling expenses, hotel bills, and charges for medical attendance are not defrayed by the Secretary of State.

(h) Every scholar will forfeit her scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete residence in England for the prescribed number of years of the scholarship according to the terms and conditions approved by the Secretary of State under c) above, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of her scholarship declines to return to India when instructed to do so, the scholar will lose her claim to a free return passage to India, and will further become liable, at the discretion of the Secretary of State, to refund the cost of her free passage to England.

(i) At the expiration of her scholarship a scholar is provided by the India Office with a free second class passage to India. The scholar is not entitled to make her own passage arrangements and to claim an allowance in lieu thereof from the India Office without the special sanction of the Secretary of State. All communications on this subject shall be made to the Secretary for Indian Students.

(j) Should the Secretary of State be advised that the state of a scholar's health is such as to render her return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.

8. Applications should be submitted to the Director of Public Instruction, Punjab, by the 5th January 1917, accompanied by full particulars as to education and other qualifications and certificates of physical fitness to undergo abroad the course of study proposed. Applicants must also state whether they have relatives or friends in England to whom their parents or guardians would be willing to commit their guardianship during vacations.

The 4th December 1916.

No. 324.—Notification.—It is hereby notified for general information that the Government of India will award two State Scholarships in 1917 to encourage natives of India to undertake the scientific study of Sanskrit in Europe.

2. The scholarships will be open to well-qualified students with a genuine taste for oriental studies and to gentlemen already employed as Professors of Sanskrit in India. They will as a rule be awarded to candidates who have passed examinations in India which will obtain for them admission to a University in Europe as advanced or research students. Some knowledge of English or another European language is essential. If possible, the candidates should possess some elementary knowledge of French and German. The choice of a special branch of study should be made in India, and the preparatory studies completed before the scholar leaves for Europe. If a Sanskrit scholar wishes to specialise on—

(a) Veda or philology, he should have some knowledge of Latin and Greek;

(b) philosophy, he should have studied one of the systems of Indian philosophy in the original texts, and have read some Plato and Aristotle;

(c) post-Vedic literature, his reading should have extended considerably beyond the limits of the courses prescribed for the M.A. examination of an Indian University.

3. Before a scholar leaves India to take up his scholarship his parent or guardian will be required to show that he has sent to the Secretary for Indian Students in London a sum of £25 for initial expenses.

4. Applications should be submitted to the Director of Public Instruction, Punjab, by the 5th January 1917, accompanied by full particulars as to educational and other qualifications, and certificates of physical fitness from the Civil Surgeon of the district.

5. A copy of the rules for the guidance of Indian Government scholars in England is appended.

Revised rules for Indian Government Sanskrit and Arabic scholars in Europe.

1. All Government scholars are required to avail themselves of the information and advice which the Secretary for Indian Students and the Local Advisers at University centres are in a position to give them, and to apply to their Local Adviser for instructions as regards their studies and in any circumstances of difficulty. The Local Advisers at Oxford, Cambridge, Manchester, Edinburgh and Glasgow have charge of Government scholars studying at those Universities. Scholars studying at other British Universities or abroad will be under the charge of the Educational Adviser in London. The Adviser is the proper person to bring before the Secretary for Indian Students any matter requiring the sanction of the Secretary of State in Council.

2. Every scholar should, on reaching England, at once report himself to the Educational Adviser in London at 21, Cromwell Road, S. W. Accommodation for new arrivals is provided in that house. After seeing the Educational Adviser in London and consulting with him in regard to his course of study, he should also call on the Secretary for Indian Students at the India Office.

3. Every scholar must obey all instructions which he may receive, either through the Secretary for Indian Students or through his Local Adviser. He must consult his Local Adviser regularly in regard to his work and carry out any course of study which the Adviser may ultimately prescribe. Any course which requires and has received the sanction of the Secretary of State will not be changed without similar sanction.

4. Every scholar must, from time to time, whenever the Educational Adviser in London or other Local Adviser requires it, submit a certificate from the proper College or University Authority, showing that his conduct and progress in study have been satisfactory.

5. Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the Local Adviser under whose charge he is. It will begin from the date of the scholar's reporting his arrival in England, and the Local Adviser will disburse it to the scholar in such instalments as convenience may dictate. Three months after the date of reporting arrival, the amount to the ensuing Official Quarter Day will be paid to the Local Adviser, and subsequent payments will be made in advance on or after each Official Quarter Day. The allowance will generally be at the rate of £200 a year and Language scholars will not, as a rule, be expected to join Colleges at Oxford or Cambridge. But in the event of a Language scholar being admitted to an Oxford or Cambridge College, his allowance will be increased to £250 a year, to cover the additional expenses involved.

6. Every scholar is required to lodge with the Secretary for Indian Students at the India Office, London, before his arrival in England the sum of £25 for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

7. The necessary travelling expenses of scholars abroad by second class, or by third class if no second be available, will be defrayed by the Secretary of State. These expenses should be claimed on forms obtainable from the Adviser. Travelling expenses in the United Kingdom will be borne by the scholars themselves. Charges for University and College fees, for private tuition, for books, hotel bills and medical attendance must be borne by the scholar and will not be defrayed by the Secretary of State.

8. No claim can be admitted for the payment of any expenditure unless the scholar has obtained *previous* sanction from the Secretary of State.

9. The scholarship is granted in the first instance for two years, unless the Secretary of State in the exercise of his discretion sees reason to terminate it sooner. Every scholar will forfeit his scholarship who, not being disabled by illness, or prevented by any other cause which the Secretary of State may consider sufficient, fails to comply with the rules here set forth. The scholarship may, for sufficient reasons, be extended beyond two years by the Secretary of State. It may be terminated at any time within the first two years or later, if a scholar fails in health or conduct.

10. On the expiration of the scholarship a scholar is provided by the India Office with a free second class passage to India, and he should apply for it without delay through his Local Adviser. He is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office. If a scholar-

ship be forfeited, or if it be resigned before completion of its term, or if the holder of it on completion of its term declines to return to India when instructed to do so, the scholar will lose his claim to a free passage back to India.

No. 327.—*Notification*.—It is hereby notified, for general information, that the Government of India will award one scholarship of the value of £200 a year to a European or Anglo-Indian girl or woman who is a native of India within the meaning of Statute 33 Vict., Chap. 3, section 6, and whose parents are not resident in India for temporary purposes only.

2. The scholarship will be granted for educational or medical training. The term "educational training" includes the following :—

(*i*) Training of a secondary character for the teaching profession.

(*ii*) Training in one or more branches of domestic science.

(*iii*) Training as teachers of modern European languages.

(*iv*) Training as music mistress.

(*v*) Training as art teachers.

(*vi*) Training in Kindergarten methods.

3. The scholarship will be tenable in the United Kingdom or, with special sanction, in foreign countries, for a period of three years in the first instance, with the possibility of extension in special circumstances, and in particular in the case of medical students, to four and five years.

4. The scholarship will carry with it no conditions as to any subsequent career or service under Government, and no expectations of such employment will be held out.

5. Candidates must have passed the B. A. examination of an Indian University or, in the case of medical candidates, must possess an Indian Degree in Medicine.

6. The candidate to whom the scholarship is awarded will be required to proceed to England within a reasonable time from the date of her selection, and to reside there for a period of three to five years, as the case may be, unless compelled to return sooner by ill-health The scholarship will be payable from the date of her reporting her arrival in England. She will be provided with a free second class passage to England and also with a free return passage if she completes the full period of residence or is compelled by sickness to return within that period.

7. The scholar will, on arrival in England, be required to bind herself by a written engagement to submit to the following rules and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for India for the guidance of scholars in England :—

(*a*) Every scholar shall, on reaching England, at once call upon the Secretary for Indian Students and report her arrival in writing. She shall leave her addrese with the Secretary for Indian Students and intimate to him from time to tims all changes therein.

(*b*) Every scholar shall, without unnecessary delay, inform the Secretary for Indian Students to which University she intends to proceed, and shall at once take steps to enter herself at the College she has finally selected with his approval.

(c) Every scholar shall, within four weeks of reaching England, submit to the Secretary for Indian Students, for the approval of the Secretary of State a statement showing the general course of study she proposes to follow, with a view to carry out the objects of the scholarship granted to her; and the course approved must not be changed without the sanction of Secretary of State.

(d) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary for Indian Students a certificate from the proper College or University authority, showing that her residence, conduct and progress in study have been satisfactory during the term.

(e) Every scholar shall at all times obey such instructions as she may receive from the Secretary of State either directly or through the Secretary for Indian Students.

(f) Subject to a due compliance with the above conditions, the allowance at the rate of £200 a year for three, four or five years will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting her arrival in England. The first payment will be £50. Three months after the date of reporting arrival the amount to the ensuing official quarter day will be paid. The allowance will be reduced by the amount of any other sum which may become payable to her out of the revenues of India in respect of residence at the University during the same period or any part of it, and also by the amount of any University or College bills, of which payment is made by the India Office.

(g) Travelling expenses, hotel bills and charges for medical attendance are not defrayed by the Secretary of State.

(h) Every scholar will forfeit her scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete residence in England for the prescribed number of years of the scholarship according to the terms and conditions approved by the Secretary of State under (c) above, or who is guilty of misconduct or disregard of the instructions of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of her scholarship declines to return to India when instructed to do so, the scholar will lose her claim to a free return passage to India, and will further become liable, at the discretion of the Secretary of State, to refund the cost of her free passage to England.

(i) At the expiration of her scholarship a scholar is provided by the India Office with a free second class passage to India. The 11th December 1916.

No. 833.—*Notification.*– The following ceremonial observed at Faridkot on the occasion of the investiture with full powers of His Highness Raja Brij Indar Singh Bahadur of Faridkot on the 24th November 1916 is hereby published for general information :—

On Friday, the 24th November 1916, at 3 P.M., His Honour the Lieutenant-Governor of the Punjab held a public Darbar in the Raja's palace at Farídkot for the purpose of formally investing His Highness Raja Brij Indar Singh Bahadur of Farídkot with full powers of administration.

The Darbar was attended by the Civil and Military Officers of Government present at Faridkot and by the guests, the officials and the Darbaris of the State All persons were in their seats by 2-45 P.M.

A Guard of Honour with band was drawn up in front of the Darbar Hall outside the palace.

Two high officials of the State waited on His Honour the Lieutenant-Governor at his residence at 2-45 P.M. precisely and conducted him to the Darbar Hall. His Honour was accompanied by his personal staff, the Chief Secretary and Brigadier-General Rose, Inspector-General of Imperial Service Troops.

The Raja accompanied by the Political Agent, Baháwalpur Agency, met the Lieutenant-Governor half way and accompanied him to the Darbar Hall. His Honour was escorted by a party of cavalry.

On the arrival of the Lieutenant-Governor at the palace the Guard of Honour presented arms, the band played the first verse and refrain of " Rule Britannia " and a salute of 15 guns was fired. The Raja conducted His Honour to his seat in the following procession :—

Left.		*Right.*
Indian A. D. C.		Private Secretary.
	Brigadier General Rose.	
Political Agent.		Chief Secretary.
Raja.		His Honour.

All present rose when the procession entered the Darbar Hall.

On the right of the Lieutenant-Governor sat the Raja, the Political Agent and the officials of the State in the order of their precedence. On the left of the Lieutenant-Governor sat the Chief Secretary to Government, the other officers in attendance on His Honour and some of the guests. Other guests were seated behind the *dais* and in different blocks to the left of the Lieutenant-Governor.

Behind the seats first occupied by the Lieutenant-Governor and the Raja there was a raised *dais* on which were placed two chairs of State of which the one to the right respresented the *masnad*. When all had resumed their seats and the Chief Secretary to Government had declared the Darbar open the Lieutenant-Governor addressed the Raja of Faridkot in English as follows :—

YOUR HIGHNESS,

To-day it is my privilege to invest Your Highness with full ruling powers in your State, and I may say that this ceremony of happy auspice gives as much pleasure to me as representative of the British Government as it does to you and your people. The relations between the Farídkot State and the Paramount Power have always been particularly cordial and friendly, and the State has never failed to show its sense of the obligations it was under to the British Government and has never shrunk from discharging those obligations with sincere loyalty. In 1808 the territories of Faridkot, as you know, were annexed and occupied by the Lahore Darbar contrary to its engagements with the British Government that it would not extend its dominions east of the Sutlej, and it was the insistence of the British Government then as now on the sanctity of treaty obligations and the rights of the smaller States that compelled Maharaja Ranjit Singh reluctantly to restore Farídkot in April 1809 to its rightful Chief.

Over 100 years have since passed by and in spite of frequent internal discords and family feuds Farídkot has never since faltered in its allegiance to Government. In the 1st Sikh War when the Lahore Armies in defiance of the engagements of 1809 which Maharaja Ranjit Singh had scrupulously respected, again crossed the Sutlej and when certain Cis-Sutlej Chiefs showed signs of hostility to the British Government, the Farídkot Chief Raja Pahar Singh proved himself their staunch adherent. He was rewarded after the war by the restoration of the ancestral territory of Kot Kapúra which the Lahore Government had seized in 1806 and by the grant of half of the territory confiscated from the then Chief of Nábha who had failed to abide by the obligations of his Sanad.

In the 2nd Sikh War Raja Wazir Singh served personally on the side of the British Government at the head of his troops and he rendered valuable and timely help in quelling the Mutiny of 1857 and in restoring order in adjoining British territory. These facts are officially commemorated in the Sanad granted to Raja Wazir Singh in 1863 which guaranteed the position of the State and begins with the words—

"Since the establishment of British supermacy in India Raja Wazir Singh and his ancestors have given proofs of loyalty to the British Government and have received rewards in the accession of fresh honours, dignity and territory."

They are further commemorated in the honourable and significant title of "Farzand-i-Saadat Nishan-i-Hazrat-i-Kaiser-i-Hind Barar Bans Raja" with which it is the privilege of the Ruler of Farídkot to be addressed.

Since 1863 the record of loyal devotion to the British Crown and Government has been continuous.

In the Afghan War of 1878 the Faridkot troops were placed at the disposal of Government and were employed in active service in the Kurram Valley.

In 1897 the State offered its Imperial Service Sappers for service in Tirah. When the present world-embracing War broke out on the 4th August 1914 Farídkot was among the first to offer on 5th August the services of its Sappers.

The offer was promptly accepted and the Company proceeded on active service overseas on 10th October with a strength of 184 officers and men. Since then it has been continuously employed against the enemy in one of the most difficult theatres of the War where it has won distinction for itself and further honour for the State. The gallant officer who accompanied it on service Major Mainprise of the Royal Engineers has met a soldier's death ; there have been many other casualties from death or disease ; but the State has been prompt in filling up the gaps and the Company remains a complete and efficient unit taking an active part in the complete conquest of one of the greatest German Colonies. But the services of the State have not been confined to sending its troops to assist in fighting the battles of the Empire. The Darbar largely at Your Highness' desire has given generous and practical support to every movement to further the successful prosecution of the War, and for the relief of the distress it has entailed. It has contributed 1¼ lakhs of Rupees to various War Relief Funds, Rs. 75,000 for 2 armoured æroplanes as units in the Fleet contributed by the Punjab, and Rs. 18,000 for 2 motor ambulances.

Finally within the last month in response to the sudden call for Mule and Camel drivers to serve beyond the seas the Darbar in a week raised and despatched over 400 men and insisted on meeting the entire cost of their enrolment amounting to over Rs. 30,000. I recite these facts for two reasons.

First.—As proving that the State has nobly repaid its obligations to the British Government which are embodied in clause 9 of the Sanad of 1863—

"The Raja and his successors will always pursue the same course of fidelity and devotion to the British Government which in its turn will always be ready to uphold the honour and dignity of the Raja and his house."

Secondly.—To show that Your Highness is assuming personal control of the administration in circumstances which will stimulate you to follow and enhance the high traditions of your house.

Your Highness enters on your career well equipped for your responsibilities. During the 10½ years since you were installed you have had a liberal education in the Chief's College. I believe you were the first of the Ruling Chiefs of the Punjab to pass the Diploma Examination and it is of happy augury that you won the Silver Medal for Essay writing in English and stood first in the subject of administration.

Since you left the College 2½ years ago you have been through a course of administrative training in the State at the hands of selected British Officers and under the supervision of the very able Superintendent Rai Bahadur Ganga Sahai to whom Your Highness and your State owe so much. During that period many branches of the administration have undergone a much needed reform and Your Highness has in consultation with the Superintendent and Colonel Elliott been in a position to help in working out the future scheme of administration which will be inaugurated to-day on lines that will, I trust, ensure the prosperity of the State and the contentment of your people.

Sir Lepel Griffin, the historian of the Punjab States, wrote in 1871 that when Faridkot was restored to Gulab Singh in 1809 "in a favourable season the estate yielded Rs. 14,000 or Rs. 12,000, in a bad season Rs. 6,000, and sometimes nothing whatever. The number of villages principally new ones was about 60."

Compare those figures with the present conditions.

Your Highness' State has now an area of 643 square miles, a population of 130,000 in 60 towns and villages and a revenue of nearly 12 lakhs and investments and savings amounting to 47,00,000.

This is a goodly heritage, but I trust that Your Highness will succeed in further improving and developing it. Your Highness knows from the history of the State how much evil has been caused in the past by feuds in the ruling house and factions among the Sirdars and people, and I need not impress upon you that the surest way to prevent such feuds and factions is by a just and impartial administration.

In carrying on that administration you will be well advised to work as far as possible through your own people and make them realise that their interests are yours and yours theirs. For the last three years you have had a sympathetic councellor and a trusted friend in your Political Agent Lieutenant-Colonel Elliott. He will soon be transferred to another sphere of duty; but you will find in his successor a trusted representative of Government whose advice you will, I trust, seek and profit by in matters of difficulty or importance. In addition at the start of your rule you will still have the advantage of the experience of Rai Bahadur Ganga Sahai who has conducted the administration with such vigour and success during the last 2½ years. Your Highness has had the advantage of being present at the recent Conference of the Princes and Chiefs at Delhi, and it is hardly necessary for me to remind you that the interests and objects of the Paramount Power and of the Rulers of Indian States are one and the same, and that in worthily discharging your obligations to your own State and people, you will also be fulfilling your duty to the King Emperor and his Government. Finally, I would commend to Your Highness the weighty and eloquent words of advice which a distinguished Viceroy addressed to a young chief on an occasion similar to this. He said—

"Remember that you are like a runner in a long race in which there is no need to go very quickly at the start because you will want your breath and your strength later on, so that you must husband your resources and regulate your speed. I call it a long race because in the case of a ruling chief the race ends only with his life. He cannot leave the course while he has breath in him. Though he may have started on the first round when only a youth he may still be engaged on the last when his limbs are failing and his strength has grown faint."

In repeating this wise counsel to Your Highness I will add the earnest hope that the career for which you start to-day may be a long and an honourable one and that you may neither stumble nor lose heart. Throughout that career you can rely upon the constant friendship and support of the British Government, and I will close my remarks by repeating the cordial message of congratulation conveyed to Your Highness this morning from His Excellency the Viceroy "I am confident that Your Highness' rule will be an epoch of progress and development for your State, and that the relations of friendship between the British Government and the Faridkot Darbar will be maintained and strengthened by Your Highness.

An Urdu translation of the address having then been read out by the Chief Secretary, all present rose and His Honour conducted the Raja to the *masnad.*

The Chief Secretary to Government, Punjab, recited the Raja's full titles* and the Lieutenant-Governor declared His Highness invested with full powers of administration. The band in attendance played the State Anthem and a salute of 11 guns was fired in honour of His Highness the Raja.

*His Highness Farzand-i-Saadat Nishan-i-Hazrat-i-Kaisar-i-Hind Barar Bans Raja Brij Indar Singh Bahadur.

The *khillat* of the Punjab Government was then brought in and laid before the Raja, and His Honour handed him a sword of State. The Raja then replied to the Lieutenant-Governor's address as follows :—

YOUR HONOUR,

I feel much honoured by the kind references Your Honour has just made regarding the past services rendered to the Supreme Government by my ancestors and my State.

Your Honour's personal connection with my house dates back as far as twenty-two years when a Darbar was held at Lahore which my grandfather attended, and thus it adds considerably to the pleasure and honour that I now feel by Your Honour's gracing my Investiture festivities by your presence.

Your Honour has referred at length to certain very stricking examples of the most cordial and loyal relation that existed between my house and the Supreme Government. In connection with the present War, Your Honour has been pleased to refer to the services rendered by my Imperial Service Troops who have been at the Front since 10th October 1914.

The State was very lucky to have had a brave and gallant Officer like late Major Mainprise to accompany Imperial Service Troops at British East Africa. His interest in them was unbounded, and we all looked to that welcome day when we might have had the pleasure of receiving him in our midst, but it was destined otherwise. He shall always be remembered in the history of the State as an officer who had taken great interest in the welfare and efficiency of the Troops.

In connection with Your Honour's kind reference to the contributions made by the State in aid of the present War all that I can say at this moment is that since the outbreak of the War it was my sincere desire that the entire resources of my State be placed at the disposal of His Imperial Majesty's Government, and I am grateful to the Political Agent who always agreed to the suggestion made by me in this direction.

I feel grateful to Your Honour for the kind interest you personally took in my administrative training which was entrusted to Mr. Middleton and Mr. Barry of the Indian Civil Service under the supervision of Colonel Elliott, the Political Agent, and Rai Bahadur Lala Ganga Sahai, the Superintendent of the State, and I feel sure it will stand me in goodstead.

I feel a special obligation that I owe to Colonel Elliott, my able and sympathetic Political Agent, for his warm-hearted interest in me and my State. His impending departure from the charge of Baháwalpur Agency is a fact to which I cannot help from referring and express my feeling of regret. During the tenure of his office as Political Agent under Your Honour's kind patronage he has fully reorganised the State. For these reasons I thank Your Honour for the very great interest you took in the welfare of my State at a time when its complete reorganization was most necessary. Your Honour's solicitude for the welfare of Indian Princes is well known throughout India, and it was marked in the Punjab by the interest Your Honour took in my State in particular.

In conclusion I request Your Honour to convey to His Excellency the Viceroy my assurance of the unflinching loyalty of my house and my State to the august person of the Imperial Majesty the King Emperor, and it shall be my endeavour to follow the footsteps of my worthy ancestors in doing service to my Emperor and my State in discharging the duties of my office which *Waheguru* has entrusted to me and which I assume to-day by the grace of God.

On the conclusion of the Raja's speech the Political Agent presented the Superintendent of the State and other State officials to His Honour each offering the usual *nazar* which was touched and remitted, *khillats* were then conferred on (1) Sardar Sahib Sardar Indar Singh, Assistant Guardian to His Highness the Raja; (2) Sardar Ajmer Singh, Palace Officer; and (3) Khan Ghulam Muhsinin Khan, District Magistrate.

Atar and *pan* having been given to the Raja by the Lieutenant-Governor, to the Superintendent of the State by His Honour's A. D. C. and to the State officials by the Mir Munshi, the Chief Secretary declared the Darbar closed and His Honour left the Darbar Hall under the ceremonies observed at his arrival.

J. P. THOMPSON,
Chief Secretary to Government, Punjab.

REVENUE AND AGRICULTURAL DEPARTMENT.

IRRIGATION.

The 11th December 1916.

No. 132.—*Notification.*—The following revised statement of conditions on which Government is willing to grant land to certain persons of the peasant class on the Lower Bari Doab Canal is published in accordance with section 10 (2) of the Colonization of Government Lands (Punjab) Act, V of 1912.

Punjab Government Notification No. 40, dated 31st March 1915, is hereby cancelled.

Statement of Conditions on which Government is willing to grant land situated on the Lower Bari Doab Canal.

1. This statement of conditions is issued subject to the provisions of the Colonization of Government Lands (Punjab) Act, 1912, hereinafter referred to as "the Act aforesaid" and in accordance with section 10 (2) thereof.

2. No person shall be entitled as of right to become a tenant, that is to say, the Local Government hereby reserves to itself and retains absolute discretion in the selection of tenants for the lands referred to in this statement.

3. In this statement of conditions—

(a) "the lands" and the "said lands" shall, so far as each separate tenancy is concerned, be deemed to apply to and designate the lands included in that tenancy;

(b) "the date of the commencement of the tenancy" shall mean the date of the written order referred to in section 10 (3) and (4) of the Act aforesaid confirming the allotment;

(c) "Collector" and "Commissioner" shall have the meanings assigned to them in section 3 of the Act aforesaid;

(d) "improvements" shall be deemed to mean improvements as defined in section 4 (19) of the Punjab Tenancy Act, 1887.

4. At or after the expiration of five years from the date of the commencement of the tenancy, the tenant, having duly paid all sums due to Government under the conditions hereinafter described and having duly observed all the stipulations herein contained and to be by him observed, shall be entitled at any time to receive from the Government a *sanad*

giving him a right of occupancy in the said lands: Provided that the tenant shall hold and possess the said lands and every part thereof, subject for ever to all the provisions and stipulations herein contained.

5. Where any person is granted a tenancy in accordance with these conditions in respect of land which has already been the subject of such a tenancy, such subsequent tenant shall not enjoy any new period of remissions in addition to that enjoyed by the original tenant under clause 16 of these conditions.

6. The Local Government does not grant to the tenant but hereby absolutely excepts and reserves to itself out of and in respect of the said lands, (1) all grounds situate in the said lands or any part thereof already marked out, excavated or otherwise utilized for the distributary channels of the canal; and (2) all existing rights to and over all mines and minerals, coals, gold-washings, earth-oil and quarries in or under the said lands or any part thereof, together with all easements heretofore enjoyed by the Government in respect of the said lands or any part thereof.

7. The tenant shall at all times permit any officer or officers of Government to enter into and upon the whole or any part of the lands and do all acts and things that may be necessary or expedient for the purpose of searching for, working, getting or carrying away any such mines and minerals, coals, gold-washings, earth-oil and quarries, and for the full enjoyment of the ground and of each and all of the rights hereinbefore reserved to the Government to and over all mines and minerals, coals, gold-washings, earth oil, quarries and easements in or under the said lands and all parts thereof.

8. The Local Government agrees to pay to the tenant reasonable compensation for any damage at any time directly occasioned by the exercise by the Local Government of all or any of the rights reserved to itself in clause 6 and clause 7 other than existing rights of way and water and other easements.

9. The Local Government does not grant to the tenant, but hereby absolutely excepts and reserves, all roads situated in the said lands or any part thereof which have been marked out on the ground or delineated in the plan or plans kept in the office of the Collector.

And it likewise excepts and reserves the right of the public to traverse a width of 3 *kadams* along one side of the lines bounding 25-acre rectangles wherever this may be considered necessary in the public interest by the Collector, and also to traverse a width of 3 *kadams* otherwise situated wherever the Collector considers this necessary in order to replace an existing thoroughfare.

10. The tenant shall at all times, on receipt of a requisition in writing signed by the Collector, permit the said Collector to take possession of, and finally to resume for the Government, so much of the said lands as may from time to time, in the opinion of the said Collector, be required for the construction, repairs or maintenance of railways, roads, water-courses or any works connected therewith.

11. No compensation shall be claimable by the tenant or any other person in respect of such reservation or resumption as is referred to in clauses 9 and 10, but in respect of any area so reserved no occupiers' rates, land revenue, *malikana* or cesses shall be payable by the tenant.

12. The tenant shall be chargeable with the whole of the cost of the survey and demarcation of the said lands, together with his share of the cost of the water-course or water-courses of the estate in which the said lands are situated, and of the roads and culverts necessary for the general convenience of the residents of such estate, and also with the costs of keeping such roads and culverts in proper repair. The amounts of such charges, as determined by Government, or by the Collector in the case of repairs of roads and culverts, shall be recoverable in such manner and at such times as may be fixed by Government or by the Collector, respectively.

13. The tenant shall duly comply with such directions as the Collector shall from time to time issue requiring him to construct boundary marks on the limits of the said lands or any part thereof, and shall keep them when erected in good repair to the satisfaction of the Collector.

14. The tenant shall render all such assistance in the prevention or discovery of crime as is incumbent on the owners and occupiers of land by any law or rules for the time being in force in the Punjab, and is and shall be responsible in the same manner as headmen, watchmen or other inhabitants of villages are under any track law or rules for the time being in force in the Punjab.

15. If the tenant is ordered, under section 118 of the Code of Criminal Procedure, to execute a bond to be of good behaviour, or is sentenced to a term of imprisonment of one year or upwards, he shall be deemed to have committed a breach of the conditions of his tenancy and the Collector may order the resumption of the tenancy as provided in section 24 of the Act aforesaid.

15. (A) Any tenant who is guilty of disloyalty to the King Emperor or to the Government established by law in British India shall be deemed to commit a breach of these conditions. The decision of the Local Government whether the tenant's conduct constitutes disloyalty shall be final.

16. The tenant shall pay, when due, in respect of the said lands or any part thereof—

(1) all land revenue assessments, occupiers' rates, cesses or other charges imposed by competent authority under any law for the time being in force;

(2) *malikana* at such rate or rates as may from time to time be fixed by the Punjab Government; and

all payments mentioned in this clause shall be made to such persons and at such times and places as the Collector shall from time to time appoint:

Provided that the Local Government shall remit the whole demand on account of occupiers' rates in respect of the first two harvests, and in the case of colonists from districts other than Montgomery, Multán, Lyallpur, Gujránwála and Lahore for the first four harvests, gathered from the lands of the tenancy when cultivated by means of irrigation from the Lower Bari Doab Canal:

Provided, also, that the Local Government shall remit the whole of the demand on account of land revenue, *malikana* and cesses in respect of the first two harvests gathered from the lands of the tenancy when cultivated by means of irrigation from the Lower Bari Doab Canal:

Provided, also, that the Collector shall decide which is the first harvest gathered from the lands of any tenancy cultivated by means of irrigation from the Lower Bari Doab Canal, and that his decision shall be final.

17. The tenant shall settle permanently in the estate in which the said lands are situated within six months of the date on which the Collector directs that he be put in possession of a specified area of land, and within one year of the same date he shall build a house to the satisfaction of the Collector on a site allotted by the Collector or (with the permission of the Collector) on his own land: Provided that when the tenancy is held jointly by two or more persons, the Collector may, for sufficient reason, excuse any of such joint holders from personal residence in the estate.

17 (A). In the case of a tenant who has not received a right of occupancy in his tenancy under clause 4 of these conditions, the Collector may, with or without the consent of the tenant, upon offering to the tenant, in exchange, an area in any colony as nearly as may be equal in value to the lands of the tenancy, resume the said lands. Any land so received in exchange by the tenant shall be deemed to be held on the same conditions and subject to the same obligations as the resumed lands. The Government shall pay to the tenant compensation for improvements effected by him in the resumed lands.

18. If within three years from the commencement of allotment of tenancies in the estate no suitable well for drinking purposes is constructed for the estate in which the said lands are situated, the Collector may have a well constructed by such agency as he deems fit, and in such case the tenant shall be bound to pay to Government as his contribution towards the cost thereof such share as the Collector may determine. The payment shall ordinarily be made in advance, but no payment, except for special reasons, shall be leviable until the expiry of three years from the date on which two-thirds of the allotable area of the estate have been put into possession of the tenants.

19. All trees and brushwood on the said lands shall be at the absolute disposal of the tenant and may be sold by him.

20. The tenant may sink wells, make water-courses, plant trees, build houses and otherwise improve the land, and, subject to the due fulfilment by him of the conditions and liabilities set forth in this statement, shall be entitled to all the products of land other than those specified in clause 6 hereof: Provided that no water-course shall be made on a plan or in a position not approved by the Irrigation Department, and that every water-course in use shall be kept in proper repair by the tenant to the satisfaction of that department.

21. The tenant shall not use the said lands or any part thereof in a manner which renders them unfit for the purposes for which he holds them, and shall bring one-third of the culturable area thereof under cultivation within three years from the date of commencement of the tenancy, and one-half thereof similarly reckoned within five years from the same date, and thereafter he shall keep the said lands under cultivation to the extent of one-half thereof.

22. The tenant shall not, without the permission of the Collector recorded in writing, cultivate the said lands or any part thereof by means of any person who during the previous two years shall have cultivated non-colony lands in the Montgomery or Multán District.

23. The tenant is bound,—

(1) if he is in the service of Government or is a pensioner, and has not been selected by the Military authorities as such ; or

(2) if he, or any other member of his family to whose property he has succeeded in whole or part or will succeed if he survives him, has previously received from Government any grant of land ;

to disclose the fact by written acknowledgment to the officer who allots the tenancy to him and before the completion of the allotment.

In this clause the expression "member of his family" means any descendant of the paternal grandfather of the tenant or any descendant of any ancestor of the tenant in the male line whose name has been entered in any record-of-rights as that of a share-holder joint with the tenant in any holding.

24. (1) Upon the expiry of five years from the conferment under clause 4 of a right of occupancy in the said lands or at any time thereafter, during the continuance of the tenancy, the tenant shall, if, during the continuance of the tenancy, he shall have duly complied with and observed each and all of the conditions in this statement of conditions contained, and shall have duly paid, in the manner in the said conditions provided, all sums due to the Government under the provisions of the said conditions and each and all of them, but subject always to the terms and conditions hereinafter in that behalf made and provided, be entitled to purchase from the Government the proprietary right in the said lands, and, in the event of any such purchase being duly carried into effect and completed, the purchaser and his heirs and legal representatives shall hold and possess the said lands and every part thereof in proprietary right, free of any payment on account of *malikana*, but subject to the due and regular payment of the land revenve, rates and cesses and all other charges leviable in respect thereof under any law for the time being in force in that behalf.

(2) The terms and conditions upon which the tenant may, under the circumstances specified in the preceding clause of this condition, purchase from the Government the proprietary right in the lands granted to him as such tenant, as aforesaid, shall be as follows, namely :—

Firstly, that the tenant shall duly pay to the Government as purchase money for the said lands a sum equal to half the market value at the time of allotment of the said lands to be fixed by the Financial Commissioner, whose decision shall be final ; provided that the sum so fixed as purchase money shall not exceed the amount yielded by a rate of Rs. 100 per acre.

Secondly, that the tenant shall not acquire any proprietary or other right, not conferred upon him as a tenant by the conditions contained in this statement of conditions, and shall continue to be subject to the conditions of the tenancy, unless and until the whole amount of the said purchase money shall have been duly paid and discharged in manner hereinbefore provided.

Thirdly, provided that the Collector may refuse to allow the acquisition of proprietary rights to all or any of the tenants of any estate in which any of the following faults or defects are found to exist :—

(a) Gross or repeated encroachments on the *charagah*, unallotted village site, or, public roads or thoroughfares.

(b) Grossly insanitary conditions, *viz.*, borrow-pits within the compounds of houses ; the heaping of manure within compounds instead of outside the village ; the making of village tanks in places other than those indicated by competent authority.

(c) Persistent neglect of arboriculture in the village site.

But proprietary right may in such cases be acquired, if otherwise allowable, when the defect for which it has been withheld has been remedied.

Fourthly, provided also that the Collector may withhold proprietary rights from the tenants of any estate in which the state of crime is such as in his opinion to disentitle the villagers to the concession.

Fifthly, provided also that proprietary right may also be withheld from the tenant of any estate in which a breach of the canal or distributary has occurred within five years of the date of the application, if there is reason to believe that such breach was wilfully caused by residents of the estate.

(3) When any tenant shall, under the provisions and in pursuance of the preceding clauses of this condition, have purchased the proprietary right in any lands from the Government and shall have duly paid the whole of the purchase money therefor to the Government and shall have complied with all the terms and conditions hereinbefore provided in that behalf, the Government shall execute, or cause to be executed, a valid conveyance granting, conveying and assuring the proprietary right so purchased to the purchaser, and the purchaser shall thereupon, in respect of the land so purchased, cease to be subject to the conditions herein contained, with the exception of conditions Nos. 6, 7, 8, 9, 13 and 25 of this Statement, by which, and by the provisions of Punjab Act V of 1912 applicable to proprietors of land, he shall continue to be bound.

(4) A tenant who has acquired proprietary right in his tenancy will also receive proprietary right in the land allotted to him in the village site on payment at the same rates as for the tenancy.

25. In the event of any dispute arising between the Government and the tenant during the currency of the tenancy as to the property and rights hereby reserved to Government, or as to any matter in any way relating thereto, or as to any of the conditions of tenancy, or as to any matter or thing anywise connected therewith, the said dispute shall, except as provided in clauses 16 and 24, be referred for the arbitration of the Commissioner of the Division, whose decision shall be final and conclusive between the Government and the tenant.

No. 133.—*Notification.*—The following revised statement of conditions on which Government is willing to grant land to certain persons on the Upper Jhelum Canal is published in accordance with section 10 (2) of the Colonization of Government Lands (Punjab) Act, V of 1912 :—

Punjab Government notification No. 76, dated 26th May 1915, is hereby cancelled.

Statement of conditions on which Government is willing to grant land situated on the Upper Jhelum Canal.

1. This statement of conditions is issued subject to the provisions of the Colonization of Government Lands (Punjab) Act, 1912, hereinafter referred to as "the Act aforesaid" and in accordance with section 10 (2) thereof.

2. No person shall be entitled as of right to become a tenant, that is to say, the Local Government hereby reserves to itself and retains absolute discretion in the selection of tenants for the lands referred to in this statement.

3. In this statement of conditions—

(a) "the lands" and the "said lands" shall, so far as each separate tenancy is concerned, be deemed to apply to and designate the lands included in that tenancy ;

(b) "the date of the commencement of the tenancy" shall mean the date of the written order referred to in section 10 (3) and (4) of the Act, aforesaid confirming the allotment ;

(c) "Collector" and "Commissioner" shall have the meanings assigned to them in section 3 of the Act aforesaid ;

(d) "improvements" shall be deemed to mean improvements as defined in section 4 (19) of the Punjab Tenancy Act, 1887.

4. At or after the expiration of five years from the date of the commencement of the tenancy, the tenant, having duly paid all sums due to Government under the conditions hereinafter described and having duly observed all the stipulations herein contained and to be by him observed, shall be entitled at any time to receive from the Government a *Sanad* giving him a right of occupancy in the said lands : Provided that the tenant shall hold and possess the said lands and every part thereof, subject for ever to all the provisions and stipulations herein contained.

5. Where any person is granted a tenancy in accordance with these conditions in respect of land which has already been the subject of such a tenancy, such subsequent tenant shall not enjoy any new period of remissions in addition to that enjoyed by the original tenant under clause 16 of these conditions.

6. The Local Government does not grant to the tenant, but hereby absolutely excepts and reserves to itself out of and in respect of the said lands, (1) all grounds situate in the said lands or any part thereof already marked out, excavated or otherwise utilized for the distributary channels of the canal ; and (2) all existing rights to and over all mines and minerals, coals, gold-washings, earth-oil and quarries in or under the said lands or any part thereof, together with all easements heretofore enjoyed by the Government in respect of the said lands or any part thereof.

7. The tenant shall at all times permit any officer or officers of Government to enter into and upon the whole or any part of the lands and do all acts and things that may be necessary or expedient for the purpose of searching for, working, getting or carrying away any such mines and minerals, coals, gold-washings, earth-oil and quarries, and for the full enjoyment of the ground and of each and all of the rights hereinbefore reserved to the Government to and over all mines and minerals, coals, gold-washings, earth-oil, quarries and easements in or under the said lands and all parts thereof.

8. The Local Government agrees to pay to the tenant reasonable compensation for any damage at any time directly occasioned by the exercise by the Local Government of all or any of the rights reserved to itself in clause 6 and clause 7 other than existing rights of way and water and other easements.

9. The Local Government does not grant to the tenant, but hereby absolutely excepts and reserves, all roads situated in the said lands or any part thereof which have been marked out on the ground or delineated in the plan or plans kept in the office of the Collector.

And it likewise excepts and reserves the right of the public to traverse a width of 3 *kadams* along one side of the lines bounding 25-acre rectangles wherever this may be considered necessary in the public interest by the Collector, and also to traverse a width of 3 *kadams* otherwise situated wherever the Collector considers this necessary in order to replace an existing thoroughfare.

10. The tenants shall at all times, on receipt of a requisition in writing signed by the Collector, permit the said Collector to take possession of, and finally to resume for the Government, so much of the said lands as may from time to time, in the opinion of the said Collector, be required for the construction, repairs or maintenance of railways, roads, water-courses or any works connected therewith.

11. No compensation shall be claimable by the tenant or any other person in respect of such reservation or resumption as is referred to in clauses 9 and 10, but in respect of any area so reserved no occupiers' rates, land revenue, *malikana* or cesses shall be payable by the tenant.

12. The tenant shall be chargeable with the whole of the cost of the survey and demarcation of the said lands, together with his share of the cost of the water-course or water-courses of the estate in which the said lands are situated, and of the roads and culverts necessary for the general convenience of the residents of such estate, and also with the costs of keeping such roads and culverts in proper repair. The amounts of such charges, as determined by Government, or by the Collector in the case of repairs of roads and culverts, shall be recoverable in such manner and at such times as may be fixed by Government or by the Collector, respectively.

13. The tenant shall duly comply with such directions as the Collector shall from time to time issue requiring him to construct boundary marks on the limits of the said lands or any part thereof, and shall keep them when erected in good repair to the satisfaction of the Collector.

14. The tenant shall render all such assistance in the prevention or discovery of crime as is incumbent on the owners and occupiers of land by any law or rules for the time being in force in the Punjab, and is and shall be responsible in the same manner as headmen, watchmen or other inhabitants of villages or under any track law or rules for the time being in force in the Punjab.

15. If the tenant is ordered, under section 118 of the Code of Criminal Procedure, to execute a bond to be of good behaviour, or is sentenced to a term of imprisonment of one year or upwards, he shall be deemed to have committed a breach of the conditions of his tenancy, and the Collector may order the resumption of the tenancy as provided in section 24 of the Act aforesaid.

15. (A) Any tenant who is guilty of disloyalty to the King Emperor or to the Government established by law in British India shall be deemed to commit a breach of these conditions. The decision of the Local Governmemt whether the tenant's conduct constitutes disloyalty shall be final.

16. The tenant shall pay, when due, in respect of the said lands or any part thereof—

(1) all land revenue assessments, occupiers' rates, cesses or other charges imposed by competent authority under any law for the time being in force ;

(2) *malikana* at such rate or rates as may from time to time be fixed by the Punjab Government ; and

all payments mentioned in this clause shall be made to such persons and at such times and places as the Collector shall from time to time appoint :

Provided that the Local Government shall remit the whole of the demand on account of occupier's rate, land revenue, *malikana* and cesses in respect of the first two harvests gathered from the lands of the tenancy when cultivated by means of irrigation from the Upper Jhelum Canal :

Provided, also, that the Collector shall decide which is the first harvest gathered from the lands of any tenancy cultivated by means of irrigation from the Upper Jhelum Canal, and that his decision shall be final.

17. The tenant shall settle permanently in the estate in which the said lands are situated within six months of the date on which the Collector directs that he be put in possession of a specified area of land, and within one year of the same date he shall build a house to the satisfaction of the Collector on a sight allotted by the Collector or (with the permission of the Collector) on his own land : Provided that when the tenancy is held jointly by two or more persons, the Collector may, for sufficient reason, excuse any of such joint holders from personal residence in the estate.

17. (A) In the case of a tenant who has not received a right of occupancy in his tenancy under clause 4 of these conditions, the Collector may, with or without the consent of the tenant, upon offering to the tenant, in exchange, an area in any colony as nearly as may be equal in value to the lands of the tenancy, resume the said lands. Any land so received in exchange by the tenant shall be deemed to be held on the same conditions and subject to the same obligations as the resumed lands. The Government shall pay to the tenant compensation for improvements effected by him in the resumed lands.

18. If within three years from the commencement of allotment of tenancies in the estate no suitable well for drinking purposes is constructed for the estate in which the said lands are situated, the Collector may have a well constructed by such agency as he deems fit, and in such case the tenant shall be bound to pay to Government as his contribution towards the cost thereof such share as the Collector may determine. The payment shall ordinarily be made in advance, but no payment, except for special reasons, shall be leviable until the expiry of three years from the date on which two-thirds of the allotable area of the estate have been put into possession of the tenants.

19. All trees and brushwood on the said lands shall be at the absolute disposal of the tenant and may be sold by him.

20. The tenant may sink wells, make water-courses, plant trees, build houses and otherwise improve the land, and, subject to the due fulfilment by him of the conditions and liabilities set forth in this statement, shall be entitled to all the products of land other than those specified in clause 6 hereof; Provided that no water-course shall be made on a plan or in a position not approved by the Irrigation Department, and that every water-course in use shall be kept in proper repair by the tenant to the satisfaction of that department.

21. The tenant shall not use the said lands or any part thereof in a manner which renders them unfit for the purposes for which he holds them, and shall bring one-third of the culturable area thereof under cultivation within three years from the date of the commencement of the tenancy, and one-half thereof similarly reckoned within five years from the same date, and thereafter he shall keep the said lands under cultivation to the extent of one-half thereof.

22. The tenant shall not, without the permission of the Collector recorded in writing, cultivate the said lands or any part thereof by means of any person who during the previous two years shall have cultivated non-colony lands in the Gujrát or Shahpur District.

23. The tenant is bound,—

(1) if he is in the service of Government or is a pensioner, and has not been selected by the Military authorities as such; or

(2) if he, or any other member of his family to whose property he has succeeded in whole or part or will succeed if he survives him, has previously received from Government any grant of land;

to disclose the fact by written acknowledgment to the officer who allots the tenancy to him and before the completion of the allotment.

In this clause the expression "member of his family" means any descendant of the paternal grandfather of the tenant or any descendant of any ancestor of the tenant in the male line whose name has been entered in any record-of-rights as that of a share-holder joint with the tenant in any holding.

24. (1) Upon the expiry of five years from the conferment under clause 4 of a right of occupancy in the said lands or at any time thereafter, during the continuance of the tenancy, the tenant shall, if, during the continuance of the tenancy, he shall have duly complied with and observed each and all of the conditions in this statement of conditions contained, and shall have duly paid, in the manner in the said conditions provided, all sums due to the Government under the provisions of the said conditions and each and all of them, but subject always to the terms and conditions hereinafter in that behalf made and provided, be entitled to purchase from the Government the proprietary right in the said lands, and, in the event of any such purchase being duly carried into effect and completed, the purchaser and his heirs and legal representatives shall hold and possess the said lands and every part thereof in proprietary right, free of any payment on account of *malikana*, but subject to the due and regular payment of the land revenue, rates and cesses and all other charges leviable in respect thereof under any law for the time being in force in that behalf.

(2) The terms and conditions upon which the tenant may, under the circumstances specified in the preceding clause of this condition, purchase from the Government the proprietary right in the lands granted to him as such tenant, as aforesaid, shall be as follows, namely:—

Firstly, that the tenant shall duly pay to the Government as purchase money for the said lands a sum equal to half the market value at the time of allotment of the said lands to be fixed by the Financial Commissioner, whose decision shall be final: provided that the sum so fixed as purchase money shall not exceed the amount yielded by a rate of Rs. 100 per acre.

Secondly, that the tenant shall not acquire any proprietary or other right, not conferred upon him as a tenant by the conditions contained in this statement of conditions, and shall continue to be subject to the conditions of the tenancy, unless and until the whole amount of the said purchase money shall have been duly paid and discharged in manner hereinbefore provided.

Thirdly, provided that the Collector may refuse to allow the acquisition of proprietary rights to all or any of the tenants of any estate in which any of the following faults or defects are found to exist:—

(*a*) Gross or repeated encroachments on the *charagah*, unallotted village site or public roads or thoroughfares.

(*b*) Grossly insanitary conditions, *viz.*, borrow-pits within the compounds of houses; the heaping of manure within compounds instead of outside the village; the making of village tanks in places other than those indicated by competent authority.

(c) Persistent neglect of arboriculture in the village site.

But proprietary right may in such cases be acquired, if otherwise allowable, when the defect for which it has been withheld has been remedied.

Fourthly, provided also that the Collector may withhold proprietary rights from the tenants of any estate in which the state of crime is such as in his opinion to disentitle the villagers to the concession.

Fifthly, provided also that proprietary right may also be withheld from the tenant of any estate in which a breach of the canal or distributary has occurred within five years of the date of the application, if there is reason to believe that such breach was wilfully caused by residents of the estate.

(3) When any tenant shall, under the provisions and in pursuance of the preceding clauses of this condition, have purchased the proprietary right in any lands from the Government and shall have duly paid the whole of the purchase money therefor to the Government and shall have complied with all the terms and conditions hereinbefore provided in that behalf, the Government shall execute, or cause to be executed, a valid conveyance granting, conveying and assuring the proprietary right so purchased to the purchaser, and the purchaser shall thereupon, in respect of the land so purchased, cease to be subject to the conditions herein contained, with the exception of conditions Nos. 6, 7, 8, 9, 13 and 25 of this statement, by which, and by the provisions of Punjab Act V of 1912 applicable to proprietors of land, he shall continue to be bound.

(4) A tenant who has acquired proprietary right in his tenancy will also receive proprietary right in the land allotted to him in the village site on payment at the same rates as for the tenancy.

25. In the event of any dispute arising between the Government and the tenant during the currency of the tenancy as to the property and rights hereby reserved to Government, or as to any matter in any way relating thereto, or as to any of the conditions of tenancy, or as to any matter or thing anywise connected therewith, the said dispute shall, except as provided in clauses 16 and 24, be referred for the arbitration of the Commissioner of the Division, whose decision shall be final and conclusive between the Government and the tenant.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads Branch.

NOTICE.

The 13th December 1916.

No. 3129.—*Notification.*—The Committee appointed to inquire into the organization methods and procedure of the Buildings and Roads Branch of the Public Works Department will commence their inquiry at Bombay on January 1st, 1917.

Their enquiry will be conducted in accordance with the following itinerary :—

Bombay	...	...	...	January 1st to January 17th.
Poona	...	...	...	January 18th.
Nágpur	...	...	...	January 20th to January 29th.
Calcutta	...	...	...	January 30th to February 13th.
Madras	...	...	...	February 15th to March 2nd.
Rangoon	...	...	...	March 6th to March 17th.
Bánkipur	...	...	...	March 21st to March 29th.
Allahabad	...	...	...	March 29th to April 6th.
Roorkee	...	...	...	April 7th.
Lahore	...	...	...	April 8th to April 13th.

The terms of reference are as follows :—

"To enquire into and report generally upon the organization and the system of administration of the Buildings and Roads Branch of the Public Works Department, and to

make such suggestions for change as the circumstances seem to justify. Among the particular points which the Committee should inquire into are the following :—

(i) whether the methods at present adopted for the execution of Civil Works are economical and suitable for the purpose for which they were devised ;

(ii) whether under the existing system private enterprise is sufficiently encouraged and whether it is possible and desirable to entrust the construction and up-keep of certain classes of public works to agency other than departmental, and, if so, upon what lines such change should be effected ;

(iii) whether any changes recommended by the Committee necessitate any modification of the organization of the staff of the Public Works Department, and, if so, what ;

(iv) whether the Public Works Department meets the needs of other Departments of the Administration, and whether the relations *inter se* of the various sub-divisions of the Buildings and Roads Branch, Sanitary, Architectural, Electrical and Civil Engineering, are satisfactory ;

(v) whether further decentralization within the Public Works Department itself is desirable, and, if so, to what extent and in what directions ;

(vi) whether the Public Works Department Code which regulates the execution and maintenance of Civil Works is unduly restrictive, and, if so, in what direction change is desirable ;

(vii) whether the system of education in Government Engineering Colleges is organized on a sufficiently broad basis to meet the needs of private agency as well as of Government, whether it attracts suitable candidates, and whether the standard of instruction is sufficiently advanced to provide fully qualified civil engineers for employment by Government, local bodies, and private engineering and contracting firms, and, if not, in what directions and to what extent improvement is required ;

(viii) whether adequate provision is made for the practical training on works of students who have received their scientific education in English or Indian Colleges."

The committee accordingly invite all persons, associations, public bodies and private engineering and contracting firms, who desire to give written evidence, to send the same to the address of the Secretary, Public Works Reorganization Committee, Camp, India, at least a fortnight before the date of the Committee's arrival in the province to which the evidence relates, together with a Memorandum stating the qualifications of the writer.
